**Nationalsozialistische Herrschaft** Ulrich von Hehl, 2010-10-01 An Darstellungen ber das Dritte Reich besteht kein Mangel Umso erw nschter ist eine Optimierung die einen raschen Zugriff auf die Fakten und ihre Einordnung und Bewertung erlaubt Der vorliegende Band gibt daher nicht nur einen enzyklop dischen berblick zur inneren Herrschaftsgeschichte des Nationalsozialismus mitsamt einer wohlabgewogenen Literaturauswahl Im zweiten Teil werden zeitliche Schwerpunkte und perspektivische Blickverlagerungen in der Forschung ebenso angesprochen wie zentrale Forschungskontroversen Gerade der bis in die Lebenswelt reichende Streit um die Deutung erweist sich als ein ungemein belebendes Element der NS Forschung zeigt er doch deren Bedeutung f r das aktuelle Geschichtsbild der Deutschen *Die nationalsozialistische Herrschaft 1933-1939* Magnus Brechtken, 2013-05-01 Die sechs Jahre der so genannten Friedenszeit der

nationalsozialistischen Herrschaft 1933 1939 sind eine der komprimiertesten ereignisreichsten Epochen der Geschichte Magnus Brechtken bietet einen optimierten berblick ber die wichtigsten Ereignisse gesellschaftlichen Entwicklungen sowie ber den Radikalisierungsprozess Anhand thematisch gegliederter Kapitel zu den Bereichen Ideologie Herrschaftstechnik Außenpolitik Wirtschaft und Arbeit Rassenpolitik und Verfolgung Vertreibung und Emigration sowie Kunst Kultur und Wissenschaft gelingt ihm eine strukturierte Gesamtdarstellung nationalsozialistischer Herrschaft von der Machtergreifung bis zum Beginn des Zweiten Weltkrieges Damit legt er zugleich eine konzise Interpretation dieser Zeit vor die vor allem auf der Analyse des Wechselverh ltnisses von Machtpragmatismus und der Umsetzung der nationalsozialistischen Ideologie basiert *The Faustian Bargain* Jonathan Petropoulos, 2000 This book follows the careers of five prominent individuals who chose to pursue artistic ends through collaboration with Nazi Germany and put their talents to work for Hitler 50 halftones

*The Law in Nazi Germany* Alan E. Steinweis, Robert D. Rachlin, 2013-03-01 While we often tend to think of the Third Reich as a zone of lawlessness the Nazi dictatorship and its policies of persecution rested on a legal foundation set in place and maintained by judges lawyers and civil servants trained in the law This volume offers a concise and compelling account of how these intelligent and welleducated legal professionals lent their skills and knowledge to a system of oppression and domination The chapters address why German lawyers and jurists were attracted to Nazism how their support of the regime resulted from a combination of ideological conviction careerist opportunism and legalistic selfdelusion and whether they were held accountable for their Nazi era actions after 1945 This book also examines the experiences of Jewish lawyers who fell victim to anti Semitic measures The volume will appeal to scholars students and other readers with an interest in Nazi Germany the Holocaust and the history of jurisprudence **Nationalsozialistische Herrschaft in der Provinz** Ernst

Hanisch, 1983 **Slavs in Post-Nazi Austria** Robert Knight, 2017-02-09 Robert Knight s book examines how the 60 000 strong Slovene community in the Austrian borderland province of Carinthia continued to suffer in the wake of Nazism s fall It explores how and why Nazi values continued to be influential in a post Nazi era in postwar Central Europe and provides

valuable insights into the Cold War as a point of interaction of local national and international politics Though Austria was re established in 1945 as Hitler s first victim many Austrians continued to share principles which had underpinned the Third Reich Long treated as both inferior and threatening prior to the rise of Hitler and then persecuted during his time in power the Slovenes of Carinthia were prevented from equality of schooling by local Nazis in the years that followed World War Two behavior that was tolerated in Vienna and largely ignored by the rest of the world Slavs in Post Nazi Austria uses this vital case study to discuss wider issues relating to the stubborn legacy of Nazism in postwar Europe and to instill a deeper understanding of the interplay between collective and individual liberal rights in Central Europe This is a fascinating study for anyone interested in knowing more about the disturbing imprint that Nazism left in some parts of Europe in the postwar years

**The Origins of the Second World War: An International Perspective** Frank McDonough, 2011-09-22 Many major world events have occurred since the last key anniversary of the beginning of the Second World War and these events have had a dramatic impact on the international stage 9 11 the Iraq War climate change and the world economic crisis This is an opportune moment to bring together a group of major international experts who will offer a series of new interpretations of the key aspects of the origins of the Second World War Each chapter is based on original archival research and written by scholars who are all leading experts in their fields This is a truly international collection of articles with wide breadth and scope which includes contributions from historians and also political scientists gender theorists and international relations experts This is an important contribution to scholarly debate on one of the most important events of the 20th century and a subject of major interest to the general reader historians students and researchers policy makers and conflict prevention experts

*Visions of Community in Nazi Germany* Martina Steber, Bernhard Gotto, 2018-07-16 When the Nazis seized power in Germany in 1933 they promised to create a new harmonious society under the leadership of the Führer Adolf Hitler The concept of Volksgemeinschaft the people s community enshrined the Nazis vision of society a society based on racist social Darwinist anti democratic and nationalist thought The regime used Volksgemeinschaft to define who belonged to the National Socialist community and who did not Being accorded the status of belonging granted citizenship rights access to the benefits of the welfare state and opportunities for advancement while these who were denied the privilege of belonging lost their right to live They were shamed excluded imprisoned murdered Volksgemeinschaft was the Nazis project of social engineering realized by state action by administrative procedure by party practice by propaganda and by individual initiative Everyone deemed worthy of belonging was called to participate in its realization Indeed this collective notion was directed at the individual and unleashed an enormous dynamism which gave social change a particular direction The Volksgemeinschaft concept was not strictly defined which meant that it was rather marked by a plurality of meaning and emphasis which resulted in a range of readings in the Third Reich drawing in people from many social and political backgrounds *Visions of Community in Nazi Germany* scrutinizes Volksgemeinschaft as the Nazis central vision of community The contributors

engage with individual appropriations examine projects of social engineering analyze the social dynamism unleashed and show how deeply private lives were affected by this murderous vision of society     *Nazi Germany* Harald

Kleinschmidt,2017-05-15 The volume reproduces a set of recently published articles demonstrating the embeddedness of Nazi genocide and other crimes against humanity in a German society that was haunted by practices of denunciation Far from being an inexplicable invasion of evil into otherwise sound German society the genocide and other crimes against humanity were committed not merely by members of SS organizations but by common people civilians and military men alike within Germany as well as in occupied territories during the late 1930s and World War II Although analyzing the past the book also seeks contribute to current debates on the causes of genocide and other crimes against humanity     **The**

**Remnants of the Rechtsstaat** Jens Meierhenrich,2018-02-22 This book is an intellectual history of Ernst Fraenkel s *The Dual State* 1941 reissued 2017 one of the most erudite books on the theory of dictatorship ever written Fraenkel s was the first comprehensive analysis of the rise and nature of Nazism and the only such analysis written from within Hitler s Germany His sophisticated not to mention courageous analysis amounted to an ethnography of Nazi law As a result of its clandestine origins *The Dual State* has been hailed as the ultimate piece of intellectual resistance to the Nazi regime In this book Jens Meierhenrich revives Fraenkel s innovative concept of the dual state restoring it to its rightful place in the annals of public law scholarship Blending insights from legal theory and legal history he tells in an accessible manner the remarkable gestation of Fraenkel s ethnography of law from inside the belly of the behemoth In addition to questioning the conventional wisdom about the law of the Third Reich Meierhenrich explores the legal origins of dictatorship elsewhere then and now The book sets the parameters for a theory of the authoritarian rule of law a cutting edge topic in law and society scholarship with immediate policy implications     Hitler's Austria Evan Burr Bukey,2018-08-25 Although Austrians

comprised only 8 percent of the population of Hitler s Reich they made up 14 percent of SS members and 40 percent of those involved in the Nazis killing operations This was no coincidence Popular anti Semitism was so powerful in Austria that once deportations of Jews began in 1941 the streets of Vienna were frequently lined with crowds of bystanders shouting their approval Such scenes did not occur in Berlin Exploring the convictions behind these phenomena Evan Bukey offers a detailed examination of popular opinion in Hitler s native country after the Anschluss annexation of 1938 He uses evidence gathered in Europe and the United States including highly confidential reports of the Nazi Security Service to dissect the reactions views and conduct of disparate political and social groups most notably the Austrian Nazi Party the industrial working class the Catholic Church and the farming community Sketching a nuanced and complex portrait of Austrian attitudes and behavior in the Nazi era Bukey demonstrates that despite widespread dissent discontent and noncompliance a majority of the Austrian populace supported the Anschluss regime until the bitter end particularly in its economic and social policies and its actions against Jews     *"A Third Reich, as I See It"* Janosch Steuer,2023-04-04 With the beginning of the National Socialist

dictatorship Germany not only experienced a deep political turning point but the private life of Germans also changed fundamentally The Nazi regime had far reaching ideas about how the individual should think and act In *A Third Reich as I See It* Janosch Steuwer examines the private diaries of ordinary Germans written between 1933 and 1939 and shows how average citizens reacted to the challenges of National Socialism Some felt the urge and desire to adapt to the political circumstances Others felt compelled to do so They all contributed to the realization of the vision of a homogeneous conflict free and racially pure society In a detailed manner and with a convincing sense of the bigger picture Steuwer shows how the tense efforts of people to fit in and at the same time to preserve existing opinions and self conceptions led to a close intertwining of the private and the political *A Third Reich as I See It* offers a surprisingly new look at how the ideological visions of National Socialism found their way into the everyday reality of Germans

**Rethinking History, Dictatorship and War** Claus-Christian Szejnmann, 2009-01-01

**Hitler's Hangman** Robert Gerwarth, 2011-11-15 A chilling biography of the head of Nazi Germany's terror apparatus a key player in the Third Reich whose full story has never before been told Reinhard Heydrich is widely recognized as one of the great iconic villains of the twentieth century an appalling figure even within the context of the Nazi leadership Chief of the Nazi Criminal Police the SS Security Service and the Gestapo ruthless overlord of Nazi occupied Bohemia and Moravia and leading planner of the Final Solution Heydrich played a central role in Hitler's Germany He shouldered a major share of responsibility for some of the worst Nazi atrocities and up to his assassination in Prague in 1942 he was widely seen as one of the most dangerous men in Nazi Germany Yet Heydrich has received remarkably modest attention in the extensive literature of the Third Reich Robert Gerwarth weaves together little known stories of Heydrich's private life with his deeds as head of the Nazi Reich Security Main Office Fully exploring Heydrich's progression from a privileged middle class youth to a rapacious mass murderer Gerwarth sheds new light on the complexity of Heydrich's adult character his motivations the incremental steps that led to unimaginable atrocities and the consequences of his murderous efforts toward re-creating the entire ethnic makeup of Europe This admirable biography makes plausible what actually happened and makes human what we might prefer to dismiss as monstrous Timothy Snyder *Wall Street Journal* A probing biography Gerwarth's fine study shows in chilling detail how genocide emerged from the practicalities of implementing a demented belief system *Publishers Weekly* A thoroughly documented scholarly and eminently readable account of this mass murderer *The New Republic*

**Heimat, Region, and Empire** Claus-Christian W. Szejnmann, Maiken Umbach, 2016-01-18 This collection brings together international scholars pursuing cutting edge research on spatial identities under National Socialism They demonstrate that the spatial identities of the Third Reich can be approached as a history of interrelated dimensions *Heimat* region and Empire were constantly reconstructed through this interrelationship

**The Third Reich's Elite Schools** Helen Roche, 2021 *The Third Reich's Elite Schools* tells the story of the *Napolas* Nazi Germany's most prominent training academies for the future elite This deeply researched study gives an in

depth account of everyday life at the schools while also shedding fresh light on the political social and cultural history of the Nazi dictatorship

**Backing Hitler** Robert Gellately, 2002-03-14 The Nazis never won a majority in free elections but soon after Hitler took power most people turned away from democracy and backed the Nazi regime Hitler won growing support even as he established the secret police Gestapo and concentration camps What has been in dispute for over fifty years is what the Germans knew about these camps and in what ways were they involved in the persecution of race enemies slave workers and social outsiders To answer these questions and to explore the public sides of Nazi persecution Robert Gellately has consulted an array of primary documents He argues that the Nazis did not cloak their radical approaches to law and order in utter secrecy but played them up in the press and loudly proclaimed the superiority of their system over all others They publicized their views by drawing on popular images cherished German ideals and long held phobias and were able to win over converts to their cause The author traces the story from 1933 and shows how war and especially the prospect of defeat radicalized Nazism As the country spiralled toward defeat Germans for the most part held on stubbornly For anyone who contemplated surrender or resistance terror became the order of the day , *Germany and the Second World War Volume IX/II* Jörg Echternkamp, 2014-03 Volume IX II of this series draws on a range of historical sources to explore the effect that the Second World War had on the people of Germany whether they were practically involved in the war effort or struggling to maintain a normal existence

**The Third Reich in History and Memory** Richard J. Evans, 2015-02-20 In the seventy years since the demise of the Third Reich there has been a significant transformation in the ways in which the modern world understands Nazism In this brilliant and eye opening collection Richard J Evans the acclaimed author of the Third Reich trilogy offers a critical commentary on that transformation exploring how major changes in perspective have informed research and writing on the Third Reich in recent years Drawing on his most notable writings from the last two decades Evans reveals the shifting perspectives on Nazism s rise to political power its economic intricacies and its subterranean extension into postwar Germany Evans considers how the Third Reich is increasingly viewed in a broader international context as part of the age of imperialism discusses the growing emphasis on the larger economic and cultural circumstances of the era and emphasizes the development of research into Nazi society particularly in the understanding of Nazi Germany as a political system based on popular approval and consent Exploring the complex relationship between memory and history Evans also points out the places where the growing need to confront the misdeeds of Nazism and expose the complicity of those who participated has led to crude and sweeping condemnation when instead historians should be making careful distinctions Written with Evans sharp eyed insight and characteristically compelling style these essays offer a summation of the collective cultural memory of Nazism in the present and suggest the degree to which memory must be subjected to the close scrutiny of history
