Nationalsozialistische Außenpolitik. Strategie oder Kalkül? Steven Lehmann, Oliver H., 2013-09-16 Facharbeit Schule aus dem Jahr 2013 im Fachbereich Geschichte Deutschlands Nationalsozialismus Zweiter Weltkrieg Note 1 2 Veranstaltung Geschichte 13BG Sprache Deutsch Abstract Unsere Hausarbeit handelt von der nationalsozialistischen Außenpolitik unter der Leitung Hitlers während seiner Kanzlerschaft. Im Folgenden wollen wir nun die außenpolitischen Ereignisse wiedergeben und erläutern, inwiefern die Entscheidungen und Handlungen des NS Regimes als strategisch oder kalkulatorisch einzuschätzen sind.

Nationalsozialistische Aussenpolitik Wolfgang Michalka, 1978 *National Socialist Cultural Diplomacy* Frederik Forrai Ørskov, 2025-06-30 National Socialist Cultural Diplomacy provides the first comprehensive account of the German Nordic Writers House. From 1934 to 1939 young Scandinavian and Finnish writers spent summers at a seaside villa in Travemünde mingling with representatives of the new German literature to enjoy beach days, excursions in the Third Reich, and evening discussions on literature, politics, and comradeship. The book treats the Writers House as a case study of National Socialist cultural diplomacy, offering fresh insights on the ways in which semi-official cultural mediators addressed, navigated, and were constrained by a dilemma central to all cultural diplomacy but more urgently so in the case of totalitarian regimes like the Third Reich: that in order to be perceived as legitimate, culture cannot be too obviously circumscribed by politics while cultural autonomy comes with a lack of control that does not sit well with totalitarian regimes. Between the prevalent ideal in the Nordic cultural sphere that culture stands apart from politics on the one hand and the political aims of official German diplomacy on the other, the institution showcases the constraints faced by aspiring cultural diplomats in the Third Reich and the strategies with which the Writers House's organizers addressed them. With the Writers House as a prism, National Socialist Cultural Diplomacy also offers a case study of the fault lines that emerged in the Nordic literary sphere with the post-1933 ideologization of the German literary field, its institutions, and its lucrative book market. At stake was the role and identity of the literary intellectual, the proper relationship between culture, economics, and politics, and for some of the visiting writers, whether to place consciousness over comradeship. This book will be of interest to researchers of Nazism, social and cultural history, and the history of the extreme right.

The Fascist Challenge and the Policy of Appeasement Wolfgang J. Mommsen, Lothar Kettenacker, 2021-11-21 This book, first published in 1983, illustrates the domestic and internal dimension of appeasement and explores the political options open to the western powers in the run-up to the Second World War. It looks at the factors pointing in the direction of a general settlement: the dictators' limitation of resources and strategic overcommitment by Britain, economic decline and financial exhaustion of France, lack of support from the United States and the Soviet Union.

Nazi Foreign Policy, 1933-1941 Christian Leitz, 2004-08-02 How did the Second World War come about? Nazi Foreign Policy, 1933-1941 provides lucid answers to this complex question. Focusing on the different regions of Nazi policy, such as Italy, France, and Britain, Christian Leitz explores the diplomatic and political developments that

led to the outbreak of war in 1939 and its transformation into a global conflict in 1941 Nazi Foreign Policy 1933 1941 details the history of Nazi Germany's foreign policy from Hitler's inauguration as Reich Chancellor to the declaration of war by America in 1941 Christian Leitz gives equal weight to the attitude and actions of the Nazi regime and the perspectives and reactions of the world both before and during the war **German Foreign Policy, 1918-1945** Christoph M.

Kimmich, 2013-03-14 Christoph Kimmich's German Foreign Policy 1918 1945 A Guide to Current Research and Resources is a comprehensive guide to archival resources and published materials on the foreign policy of Weimar and Nazi Germany It catalogues the archives libraries and research institutes both public and private that house important collections especially in Germany but also elsewhere in Europe and in the United States and describes their holdings terms of access and use and guides and inventories available German Foreign Policy 1918 1945 also includes a substantial annotated bibliography of published sources ranging from documentary series to significant contemporary accounts from memoirs to secondary works The bibliography reflects current scholarship and draws attention to works that are innovative and accessible It also describes the various series of the Nuremberg War Crimes Trial Records and the original trial documents available in archives and libraries The guide canvasses the vast and growing offering of materials on the Web digitized print materials archival inventories and source materials In order to expedite work in the archives the guide also explains the organization and functioning of the German foreign ministry between 1918 and 1945 and how it kept and stored its records This third edition offers new information on German archives many of which were consolidated and relocated after German reunification on recently discovered archival holdings and on materials posted on the Web It is a reference source for both established scholars and young researchers offering quick and efficient access to the voluminous research and research materials that are now available **Nazi Steel** Marcus O Jones, 2012-07-15 This study explores an exemplary instance of the

close interaction between private and official interests in planning and executing the programs of the Nazi government namely the acquisition in 1941 of the Rombach steel works by the German industrialist Friedrich Flick The industrial concern headed by Flick was among the largest and most influential steel producers and manufacturers of war material in the German economy during World War II Its activities in the occupied territories of western Europe centered on control of the Rombach works a large operation established in Lorraine in the late nineteenth century by German industrialists and expropriated by France along with the entire region in the aftermath of the First World War After successful military operations against France in 1940 the Nazi regime actively sought the collusion of the German industrial community in mobilizing the productive capacity of occupied territories for the war effort and numerous private German businessmen advanced claims on the lucrative assets in Lorraine and adjacent regions In his bid to gain control of the Rombach works Flick was successful for reasons specific to his position within the Nazi German economic system and the character of his interests This account of his activities then serves as a fine example of Nazi economic and occupation policy and its response

to party business and bureaucratic influences

Origins of the Second World War Reconsidered Gordon

Martel, 2002-02-07 When A J P Taylor's *The Origins of the Second World War* appeared in 1961 it made a profound impact. The book became a classic and a central point of reference in all discussion on the Second World War. The second edition of this distinguished collection, written by leading experts in the field, is designed to bring the state of the argument up to date. The issues discussed include the legacy of the Treaty of Versailles, Hitler's foreign policy, Appeasement, AJP Taylor and the Russians, the treatment of the crises leading up to war including the Anschluss, Danzig, Abyssinian crises and the Spanish Civil War. This second edition will ensure that *The Origins of the Second World War* will remain a high priority student and scholarly reading list.

German Foreign Policy from Bismarck to Adenauer Klaus Hilderbrand, 2013-09-13 First Published in 1989. Tackling the problem of Germany's role in the history of world politics in the nineteenth and twentieth centuries is one of the most interesting tasks of historiography. Furthermore, the relationship between Britain and Germany is of central significance in understanding this role.

Innen- und Außenpolitik unter nationalsozialistischer Bedrohung Erhard

Forndran, 2013-03-08 Der vorliegende Sammelband versucht die Interdependenz von politischen Konstellationen und Prozessen in staatlichen Einheiten und den auf diese Systeme von außen wirkenden Bedingungen als Grundlage innen wie außenpolitischer Entscheidungen und Verhaltensmuster am Beispiel der internationalen Beziehungen der dreißiger Jahre darzustellen. Im Mittelpunkt der folgenden Ausführungen steht nicht allein das nationalsozialistische Deutschland, sondern auch die innen und außenpolitische Entwicklung der verschiedenen Staaten unter der Bedingung der nationalsozialistischen Herausforderung. Da die nationalsozialistische Drohpolitik nicht unabhängig von dieser Antwort der betroffenen Staaten verlief, diese vielmehr Rahmenbedingung nationalsozialistischer Politik war, steht die Frage nach den Voraussetzungen nationalsozialistischer Außenpolitik dann in einem doppelten Sinn zur Diskussion: als offensive Aktion eines aggressiven Staates und als Abhängigkeitsverhältnis zu den von Deutschland unterschiedlich, aber insgesamt nur begrenzt beeinflussbaren fremden sozialen Einheiten. Wir legen der Fragestellung dieses Bandes also kein einfaches Aktions-Reaktions-Schema zugrunde, weder was das Verhältnis von Innen und Außenpolitik noch was das Verhältnis zwischen den agierenden Einheiten angeht. Die Beiträge gehen eher von einer Mehrdimensionalität in den komplexen Beziehungen zwischen Innen-Außen und internationaler Politik aus. Der Band orientiert sich damit an zwei Fragestellungen.

The Third Reich Klaus

Hildebrand, 2003-09-02 Traces the history of Germany from 1933 to 1945, discusses the Nazi rise to power and examines the scholarly research into the nature of Nazism.

Nazi Germany Harald Kleinschmidt, 2017-05-15

The volume reproduces a set of recently published articles demonstrating the embeddedness of Nazi genocide and other crimes against humanity in a German society that was haunted by practices of denunciation. Far from being an inexplicable invasion of evil into otherwise sound German society, the genocide and other crimes against humanity were committed not merely by members of SS organizations but by common people, civilians and military men alike within Germany as well as in occupied territories during

the late 1930s and World War II Although analyzing the past the book also seeks contribute to current debates on the causes of genocide and other crimes against humanity

Das Auswärtige Amt in der NS-Diktatur Johannes Hürter, Michael Mayer, 2014-12-11 Die Studie Das Amt und die Vergangenheit 2010 hat nicht nur in der Öffentlichkeit sondern auch in der Fachwissenschaft eine lebhaftete Debatte über die Rolle des Auswärtigen Amtes in der NS Diktatur hervorgerufen Der vorliegende Sammelband bezieht sich auf diese Diskussion die jedoch nicht einfach nur erneut geführt wird Ziel ist vielmehr eine Bestandsaufnahme der Forschung nach der Debatte Was wissen wir wirklich über das Auswärtige Amt im Nationalsozialismus wo liegen die Desiderate was ist gerade in Arbeit was unbestritten was umstritten Damit gibt der Band eine Antwort auf die Frage wie sich dieser Streit zwischen Historikern in die Entwicklung der Forschung einordnen lässt und welche Impulse von ihm ausgehen können

The Foreign Policy of the Third Reich Klaus Hildebrand, 1973-12-17 In this short outline history of Hitler's foreign policy Professor Hildebrand contends that the National Socialist Party achieved popularity largely because it integrated all the political economic and socio political expectations prevailing in Germany since Bismarck Thus foreign policy under Hitler was a logical extension of the aims of the newly created German nation state of 1871 Trading on his domestic economic successes Hitler relied on the traditional methods of power politics backing diplomacy with force Had he pursued expansionist aims alone using specific lighting wars as threats or instruments of conquest he might have been more successful As it was the scheme went awry when the first phase European hegemony was overtaken by and forced to run parallel with the second and third phases American intervention and racial purification The ideology became too great a burden to bear stimulating internal resistance and the Allies of course determined to wage total for a total surrender

The Ideological Origins of Nazi Imperialism Woodruff D. Smith, 1989-02-09 This study traces the evolution of imperialist ideology in Germany from Bismarck in the mid 19th century through Hitler and the Third Reich Although much has been written about the virulently racist and anti communist ideologies of the Nazi party this is the first book to treat Nazi imperialism as a separate ideology and set it within a sturdy theoretical framework Smith contends that Nazi imperialism represented the last ambitious attempt to integrate two century old ideologies the elite pro industrial Weltpolitik and the popular based pro agrarian Lebensraum into a single system In fact Smith argues that it was largely the way in which the Nazis attempted to reconcile these contradictory ideologies that explains Germany's disastrous policies during World War II This wide ranging study also contributes to the debates over several other aspects of German history including German military aims in World War II the continuity or discontinuity of German policy from Bismarck to Hitler and the relation between ideology and social political life

Jonathan F. Wagner, 2010-10-30 During the years 1933 to 1939 a pro Nazi movement developed in Canada With the support of the German National Socialist Party Canadian pro Nazi institutions were formed clubs rallies schools and newspapers The movement ended in failure The author analyzes the reasons for the formation and decline of the National Socialist Party in Canada describing in the process the general characteristics of the German community in Canada the extent of Nazi activity in this country and the influence of the Canadian environment on the movement The book well researched and carefully documented is an original contribution to Canadian history of the 1930s **Fascist Ideology** Aristotle Kallis, 2002-01-04

Fascist Ideology is a comparative study of the expansionist foreign policies of fascist Italy and Nazi Germany from 1922-1945 Fascist Ideology provides a comparative investigation of fascist expansionism by focusing on the close relations between ideology and action under Mussolini and Hitler With an overview of the ideological motivations behind fascist expansionism and their impact on fascist policies this book explores the two main issues which have dominated the historiographical debates on the nature of fascist expansionism whether Italy's and Germany's particular expansionist tendencies can be attributed to a set of generic fascist values or were shaped by the long term uniquely national ambitions and developments since unification whether the pursuit of expansion was opportunistic or followed a grand design in each case **Hitler's War Aims** Norman Rich, 1973 Dealing with the military phase of Hitler's expansion Rich tells an absorbing story of Germany's relentless drive in every direction and provides a vivid account of the relations between Hitler and his newly acquired subjects and satellites Hans W Gatzke Political Science Quarterly
