Nations Abroad Charles King, 2018-02-19 This book discusses trans border ethnic populations in the former Soviet Union in a broader conceptual context highlighting the importance of diaspora issues both for post Sovietologists and for scholars of comparative politics and international relations in general

Encyclopedia of Diasporas Melvin Ember, Carol R. Ember, Ian Skoggard, 2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture usually leaving for what is perceived as a better life Not only does this diaspora change the country of adoption but also the country of origin Many large nations in the world have absorbed and continue to absorb large numbers of immigrants The foreseeable future will see a continuation of large scale immigration as many countries experience civil war and secessionist pressures Currently there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world s cultures and provides an overview of important topics in the world s diasporas The encyclopedia consists of two volumes covering three main sections Diaspora Overviews covers over 20 ethnic groups that have experienced voluntary or forced immigration These essays discuss the history behind the social economic and political reasons for leaving the original countries and the cultures in the new places Topics discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures including the arts they bring the struggles they face and some of the cities that are in the forefront of receiving immigrant cultures Diaspora Communities include over 60 portraits of specific diaspora communities Each portrait follows a standard outline to facilitate comparisons The Encyclopedia of Diasporas can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures topics and communities It will prove of great value to researchers and students curriculum developers teachers and government officials It brings together the disciplines of anthropology social studies political studies international studies and immigrant and immigration studies

Ethnicity and Territory in the Former Soviet Union Dr

James Hughes, Gwendolyn Sasse, 2014-09-25 The collapse of the Soviet empire in 1991 removed a decades long system of successful control of potential ethnic and regional conflict The result was the eruption of numerous conflicts over state building some of which degenerated into violence and some of which were resolved or prevented by strategies of accommodation This volume explores the common trends and differences in the responses of the new post Soviet states to the problems of state building in ethnically and regionally divided societies focusing on the impact of ethnic and regional conflicts on post communist transition and institutional development The book will be essential reading for specialists and students alike who are interested in conflict regulation and post Soviet politics *The Former Soviet Union and East Central Europe between Conflict and Reconciliation* Lily Gardner Feldman, Raisa Barash, Samuel Goda, André Zempelburg, 2018-12-03

This volume examines the role of identity formation and stages of sequencing of the steps of reconciliation which is an enduring rather than an ad hoc phenomenon RIPAR 4 asks for both the challenges to it from the domestic and international systems and the actors involved as well as for the role of history memory and remembrance either as catalysts for or obstacles to reconciliation The analyzing of the connection among the past the present and the future in actual or prospective reconciliation embraces all these topics and questions Influenced by the crisis in the former Soviet Union following the March 2014 Russian annexation integration of Crimea and the movement of Russian soldiers into Eastern Ukraine to aid Ukrainian separatists the essays in this volume were written in 2015 Reconciliation is a frequently ill defined term As an aspiration in this volume it encompasses three senses an incipient thin and minimal form amounting to passive peaceful coexistence after enmity a more elaborate intermediate and engaged form that is captured by the term rapprochement and a thick or fuller form denoting active friendship empathy trust magnanimity and ultimately amity Beyond the definitional goal the volume addresses ten themes Firstly reconciliation is being questioned as a process and or a terminal condition A view is made on the requirements for the transition from conflict to a reconciliatory process and the obstacles to beginning a process of reconciliation Its soft and hard expressions inter alia in emotional and political dimensions are also subject of the author's interest The observations about conflict and cooperation offered in this volume wish to add significantly to the burgeoning literature of reconciliation These essays demonstrate that we need a variety of disciplinary and theoretical perspectives to grapple with conflict and to promote reconciliation **The Russian Minorities**

in the Former Soviet Republics Anna Batta, 2021-12-24 This book explores the differing treatment of Russian minorities in the non Russian republics which seceded from the Soviet Union in the early 1990s Providing detailed case studies it explains why intervention by Russia occurred in the case of Ukraine despite Ukraine's benevolent and inclusive treatment of the large Russian minority whereas in other republics with less benevolent approaches to minorities intervention did not occur for example Kazakhstan where discrimination against the Russian minority increased over time and Latvia where the country on its accession to the European Union was deemed to have good minority rights protection despite a record of discrimination

against the Russian minority Throughout the book emphasises the importance of the perceptions of the republic government regarding the interaction between the minority s kin state and the minority the role that minorities played within the nation building process and after secession and the dual threat coming from both the domestic and international spheres Nation Building And Ethnic Integration In Post-soviet Societies Jorn Holm-hansen,2019-04-16 Of all the states of the former Soviet Union it is in Latvia and in Kazakstan that the titular nation represents the lowest share of the total population as of 1997 approximately 57 per cent in Latvia and 50 per cent in Kazakstan In such a situation it is difficult to see how the titular Latvian Kazak culture can serve as a consolidating ele

The Organization for Security and Co-operation in Europe (OSCE) David J. Galbreath,2007-05-03 This volume examines the development and evolution of the Organization of Security and Cooperation in Europe during and after the Cold War *Ambivalent Neighbors* Anatol Lieven,Dmitri V. Trenin,2013-01-25 Almost fifteen years after the end of the Cold War the process of creating a Europe whole and free is incomplete and likely to be so for the foreseeable future In this volume a group of highly distinguished contributors from both East and West examines the complicated and multi faceted process of NATO and EU enlargement in the context of the changed global situation since the terrorist attacks of September 11 2001 This book examines the enlargement processes not only from the perspective of the West and western institutions but also from the point of view of the former communist countries If an enlarged NATO and EU are to be stable and successful in the long run they must take account of the wishes and interests of both their new former communist members and those European states that will not become members of either NATO or the EU in the foreseeable future Contributors include Christopher Bobinski Unia Polska Vladimir Baranovsky Institute of the World Economy and International Relations Heather Grabbe Center for European Reform Karl Heinz Kamp Konrad Adenauer Foundation Charles King Georgetown University Alexander J Motyl Center for Global Change and Governance Zaneta Ozolina University of Latvia Alexander Sergounin Nizhny Novgorod Linguistic University William Wallace London School of Economics and Leonid Zaiko Strategy Center

Kazakhstan Sally N. Cummings,2002-10-01 Kazakhstan is the largest state in Central Asia Rich in oil gas and other natural resources and sandwiched between China and Russia it occupies a key geopolitical position the importance of which was further heightened following the attacks of 9 11 and subsequent wars in the wider Middle East But Kazakhstan was born by default gaining independence only reluctantly as the Soviet Union collapsed Its political elite facing complex tasks of state building also lacked a monoethnic base on which to build its legitimacy Based on original material and extensive interviews in the capital and three of the country s regions the book places the elite in the country s broader institutional and historical context analysing their identity behaviour and how they gained and secured power in the early independence years Kazakhstan Power and the Elite is essential reading for all those interested in the history politics and international relations of this fascinating country

educate to solve a problem to point someone in the right direction Maps shape and communicate information for the sake of improved orientation But maps exist for states as well as individuals and they need to be interpreted as expressions of power and knowledge as Steven Seegel makes clear in his impressive and important new book *Mapping Europe's Borderlands* takes the familiar problems of state and nation building in eastern Europe and presents them through an entirely new prism that of cartography and cartographers Drawing from sources in eleven languages including military historical pedagogical and ethnographic maps as well as geographic texts and related cartographic literature Seegel explores the role of maps and mapmakers in the East Central European borderlands from the Enlightenment to the Treaty of Versailles For example Seegel explains how Russia used cartography in the aftermath of the Napoleonic Wars and later formed its geography society as a cover for gathering intelligence He also explains the importance of maps to the formation of identities and institutions in Poland Ukraine and Lithuania as well as in Russia Seegel concludes with a consideration of the impact of cartographers regional and socioeconomic backgrounds educations families career options and available language choices

Civil Society and Politics in Central Asia Charles E. Ziegler, 2015-02-27 The five Central Asian states of Kazakhstan Uzbekistan Kyrgyzstan Tajikistan and Turkmenistan constitute an area of increasing importance in global politics The region currently serves as the main route for transporting American and NATO supplies and personnel into Afghanistan Its Turkic Muslim peoples share ethnic and religious roots with China's Uighurs in neighboring Xinjiang where some Uighurs have connections to the Taliban in Afghanistan and Pakistan fueling Beijing's already acute fears of terrorism and separatism Perhaps most importantly the Caspian basin holds immense reserves of oil and natural gas Countries rich in hydrocarbons like Kazakhstan Turkmenistan and Uzbekistan can benefit greatly from this wealth but often they must rely on foreign companies usually backed by foreign

governments to develop these resources Revolts in Kyrgyzstan in 2005 and 2010 and Uzbekistan in 2005 Tajikistan's civil war in the 1990s and continued terrorist incidents 2010 2011 strikes and suicide bombings in Kazakhstan in 2011 have contributed to concerns about stability in the region In Civil Society and Politics in Central Asia a prominent group of scholars assesses both the area's manifold problems and its emerging potential examining the often uneasy relationship between its states and the societies they govern A meticulously in depth study the volume demonstrates the fascinating cultural complexity and diversity of Central Asia Small landlocked and surrounded by larger powers Central Asian nations have become adept at playing their neighbors against each other in order to maximize their own abilities to maneuver The essays in this book look beyond the surface of Central Asian politics to discover the forces that are working for political change and continuity in this critical region of the world

Diasporic Activism in the Israeli-Palestinian Conflict

Svenja Gertheiss, 2015-12-14 With their homelands at war can Diasporas lead the way to peace or do they present an obstacle to conflict resolution nurturing hate far away from those who actually fall victim to violence And which of these roles do the Jewish and Palestinian diaspora communities play in the Israeli Palestinian conflict Particularly since the Oslo peace process the search for a solution to the Israeli Palestinian conflict has been strongly contested among Jewish and Arab Palestinian Organizations in the United States Through an analysis of the activities of Arab Palestinian and Jewish organizations on behalf of and towards their conflict ridden homelands Diasporic Activism in the Israeli Palestinian Conflict provides both a detailed picture of diasporic activism in the Middle East as well as advancing theory building on the roles of diasporas in helping or hindering peace Drawing on research into transnational social movements diaspora studies and constructivist International Relations theory this book retraces how this process of diversification occurred and explains why neither the Jewish nor the Arab Diaspora community hold a unified position in the Israeli Palestinian conflict but are each comprised of both hawks and doves Combining theoretical depth and practical orientation this book is a key resource for those working in the fields of Middle Eastern studies Peace and Conflict Studies and Diaspora Studies as well as specialists on the ground in Israel Palestine and other conflict settings in which Diaspora communities play a prominent role
