With a focus on the Deshmukhi Watan or the Desgut held by Deshmukhs or Desais this volume presents the hierarchy of the chain of officers like the Patils Deshpandes Kulkarnis etc and attempts to reflect on the status accorded to them by the society and the treatment they received from the British in the 19th century. Topics explored in this volume relate to the administrative history the judicial institutions laws of inheritance role of religion commonness of superstition customs and traditions etc. We find ample citations of the authoritative sources backing the views expressed by the author at every turn as we proceed. Reflections on Native-newcomer Relations James Rodger Miller,2004-01-01 The twelve essays that make up *Reflections on Native Newcomer Relations* illustrate the development in thought by one of Canada's leading scholars in the field of Native history J R Miller. The collection comprising pieces that were written over a period spanning nearly two decades deals with the evolution of historical writing on First Nations and Métis methodological issues in the writing of Native newcomer history policy matters including residential schools and linkages between the study of Native newcomer relations and academic governance and curricular matters. Half of the essays appear here in print for the first time and all use archival published and oral history evidence to throw light on Native Newcomer relations. Miller argues that the nature of the relationship between Native peoples and newcomers in Canada has varied over time based on the reasons the two parties have had for interacting. The relationship deteriorates into attempts to control and coerce Natives during periods in which newcomers do not perceive them as directly useful and it improves when the two parties have positive reasons for cooperation. *Reflections on Native Newcomer Relations* opens up for discussion a series of issues in Native newcomer history. It addresses all the trends in the discipline of the past two decades and never shies from showing their contradictions as well as those in the author's own thinking as he matured as a scholar.
