Unraveling Edward S. Curtis's The North American Indian Herman Cohen Stuart, 2023-06-08 In the years 1900 1930 American photographer Edward S Curtis realized his life s work the monumental twenty volume book series The North American Indian 1907 1930 Over the years this work has been both praised and criticized In this comprehensive and

innovative study Herman Cohen Stuart corrects a number of persistent misconceptions about the way Curtis for many the most image defining and influential photographer of American Indians has represented the indigenous peoples of North America The author argues that Curtis was keenly aware of the major changes Native Americans faced in the early 20th century As is demonstrated by a thorough both quantitative and qualitative analysis of both Curtis s texts and photographic artwork Curtis was deeply conscious of the fact that by and even before the turn of the century Western influences had already made large inroads into Native American life This book provides a reappraisal of Curtis s position during this complicated and trying period for Native Americans

Trading Gazes Susan Bernardin, 2003 The story of westering Americans in the late nineteenth and early twentieth centuries has been told most notably through photographs of American Indians Unlike this vast archive produced primarily by male photographers which depicted American Indians as either vanishing or domesticated the lesser known images by the women featured in *Trading Gazes* provide new ways of seeing the intersecting histories of colonial expansion and indigenous resistance Four unconventional women Jane Gay who documented land allotment to the Nez Perces Kate Cory an artist who lived for years in a Hopi community Grace Nicholson who purchased cultural items from the Karuk and other northern California tribes and Mary Schaffer who traveled among the Stoney and Métis of Alberta Canada used cameras to document their cross cultural encounters *Trading Gazes* reconstructs the rich biographical and historical contexts explaining these women s presence in different Native communities of the North American West Their photographs not only record the unprecedented opportunities available for Euro American women eager to shed gender restrictions but also reveal how women s newfound mobility depended on the increasing restrictions placed on Native Americans in this era By tracing the complex often unexpected relationships forged between these women their cameras and the Native subjects of their photographs *Trading Gazes* offers a new focus for recovering women s histories in the West while bringing attention to the complicated legacies of these images for Native and non Native viewers

Eyes on Labor Carol Quirke, 2012-08-30 *Eyes on Labor* narrates an essential chapter in American cultural history offering a fascinating broad stroke history of the relationship of photography to the complex and troubled history of 20th century labor and unionization movements

After Discourse Bjørnar Olsen, Mats Burström, Caitlin DeSilvey, Þóra Pétursdóttir, 2020-12-21 *After Discourse* is an interdisciplinary response to the recent trend away from linguistic and textual approaches and towards things and their affects The new millennium brought about serious changes to the intellectual landscape Favoured approaches associated with the linguistic and the textual turn lost some of their currency and were followed by a new curiosity and concern for things and their natures Gathering contributions from archaeology heritage studies history geography literature and philosophy *After Discourse* offers a range of reflections on what things are how we become affected by them and the ethical concerns they give rise to Through a varied constellation of case studies it explores ways of dealing with matters which fall outside become othered from or simply cannot be grasped through perspectives

derived solely from language and discourse After Discourse provides challenging new perspectives for scholars and students interested in other than textual encounters between people and the objects with which we share the world Museums and Source Communities Alison K. Brown, Laura Peers, 2005-06-28 This volume combines some of the most influential published research in this emerging field with newly commissioned essays on the issues problems and lessons involved in collaborating museums and source communities Focusing on museums in the UK North America and the Pacific the book highlights three areas which demonstrate the new developments most clearly the museum as field site or contact zone a place which source community members enter for purposes of consultation and collaboration visual repatriation the use of photography to return images of ancestors historical moments and material heritage to source communities exhibition case studies these are discussed to reveal the implications of cross cultural and collaborative research for museums and how such projects have challenged established attitudes and practices As the first overview of its kind this collection will be essential reading for museum staff working with source communities for community members involved with museum programmes and for students and academics in museum studies and social anthropology Pictorial Photography and the American West, 1900-1950 Rachel Sailor, 2022-10-04 This book is an investigation of the widely overlooked photographic style of pictorialism in the American West between 1900 and 1950 and argues that western pictorialist photographers were regionalists that had their roots in the formidable photographic heritage of the nineteenth century West Driven by a wealth of textual and visual primary sources the book addresses the West's relationship with the eastern centers of art in the early century the diversity of practitioners such as women Japanese Americans Indigenous Americans western rural workers etc and the style's final demise as it related to the modernism of Group F 64 Couched in the rhetoric of regionalism it is a refreshing and innovative approach to an overlooked wealth of American cultural production Photography's Other Histories Christopher Pinney, Nicolas Peterson, 2003-04-24 A collection seeking to rethink photography as a globally disseminated and locally appropriated medium rather than as one advanced almost exclusively through Western technology and singular photographers Print the Legend Martha A. Sandweiss, 2002-01-01 Resurrecting scores of rare images of the 19th century American West Print the Legend offers engaging tales of ambitious photographic adventurers and misinterpreted images Chronicling both the history of a place and the history of a medium this book portrays how Americans first came to understand western photos and to envision their expanding nation 138 illustrations *Edward S. Curtis and the North American Indian Project in the Field* Mick Gidley, 2003-01-01 Housing a wealth of ethnographic information yet steeped in nostalgia and predicated upon the assumption that Native Americans were a vanishing race Curtis's work has been both influential and controversial and its vision of Native Americans must still be reckoned with today BOOK JACKET Indians Playing Indian Monika Siebert, 2015-02-27 In *Indians Playing Indian* Monika Siebert explores the appropriation or misappropriation of Native American cultural heritage for political and commercial ends and the innovative ways in which

indigenous artists in a range of media have responded to these developments Contemporary indigenous people in North America confront a unique predicament As legal and diplomatic practice in the early twenty first century returns to the recognition of their status as citizens of historic sovereign nations popular culture continues to depict them as cultural minorities on the par with other ethnic Americans This popular misperception of indigeneity as culture rather than as a historically developed political status sustains the myth of America as a refuge to the world s immigrants and a home to successful multicultural democracies But it fundamentally misrepresents indigenous people who have experienced a history of colonization rather than a tradition of immigration on the continent Contemporary indigenous cultural production is caught up in this phenomenon of multicultural misrecognition as well The current flowering of indigenous literature cinema and visual arts is typically taken as evidence that Canada and the United States have successfully broken with their colonial pasts to become thriving nations of many cultures where Native Americans along other minorities enjoy full freedom to represent their cultural difference
