## **Native Resistance:**

The State of Native America M. Annette Jaimes, 1992 Essays by Native American authors and activity on contemporary Native issues including the quincentenary Colonization Battlefield LaNada War Jack, 2014 *Native Voices* Richard A. Grounds, George E. Tinker, David Eugene Wilkins, 2003 Native peoples of North America still face an uncertain future due to their unstable political legal and economic positions Views of their predicament continue to be dominated by non Indian writers In response a dozen Native American writers here reclaim their rightful role as influential voices in debates about Native communities These scholars examine crucial issues of politics law and religion in the context of ongoing Native American resistance to the dominant culture They particularly show how the writings of Vine Deloria Jr have shaped and challenged American Indian scholarship in these areas since 1960s They provide key insights into Deloria s thought while introducing some critical issues confronting Native nations Collectively these essays take up four important themes indigenous societies as the embodiment of cultures of resistance legal resistance to western oppression against indigenous nations contemporary Native religious practices and Native intellectual challenges to academia Essays address indigenous perspectives on topics usually treated by non Indians such as role of women in Indian society the importance of sacred sites to American Indian religious identity and relationship of native language to indigenous autonomy A closing essay by Deloria in vintage form reminds Native Americans of their responsibilities and obligations to one another and to past and future generations This book argues for renewed cultivation of a Native American Studies that is more Indian centered **Native American Resistance** Zachary Deibel, 2017-07-15 The United States grew rapidly from the time of the Louisiana Purchase to the building of the Transcontinental Railroad All of this expansion came at the expense of Native American populations that had either lived in the region for centuries or been forced there from ancestral homes in the East Tribes memorably fought on their own and together in an doomed effort to retain the land and a lifestyle that had long sustained their families This book outlines some of the major conflicts of the Westward Expansion and of the treaties and were signed and often broken by representatives of the tribes and the government of the United States **Coming Down from Above** Lee Irwin, 2014-10-20 For longer than five centuries Native Americans have struggled to adapt to colonialism missionization and government control policies This first comprehensive survey of prophetic movements in Native North America tells how religious leaders blended indigenous beliefs with Christianity s prophetic traditions to respond to those challenges Lee Irwin gathers a scattered literature to provide a single volume overview that depicts American Indians creative synthesis of their own religious beliefs and practices with a variety of Christian theological ideas and moral teachings He traces continuities in the prophetic tradition from eighteenth century Delaware prophets to Western dream dance visionaries showing that Native American prophecy was not merely borrowed from Christianity but emerged from an interweaving of Christian and ancient North American teachings integral to Native religions From the highly assimilated ideas of the Puget Sound Shakers to such

resistance movements as that of the Shawnee Prophet Irwin tells how the integration of non Native beliefs with prophetic teachings gave rise to diverse ethnotheologies with unique features He surveys the beliefs and practices of the nation to which each prophet belonged then describes his or her life and teachings the codification of those teachings and the impact they had on both the community and the history of Native religions Key hard to find primary texts are included in an appendix An introduction to an important strand within the rich tapestry of Native religions Coming Down from Above shows the remarkable responsiveness of those beliefs to historical events It is an unprecedented encyclopedic sourcebook for anyone interested in the roots of Native theology Native Agency Valerie Lambert,2023-01-03 What happens when American Indians take over an institution designed to eliminate them The Bureau of Indian Affairs was hatched in the U S Department of War to subjugate and eliminate American Indians Yet beginning in the 1970s American Indians and Alaska Natives took over and now run the agency Choctaw anthropologist Valerie Lambert argues that instead of fulfilling settler colonial goals the Indians in the BIA have been leveraging federal power to fight settler colonialism battle white supremacy and serve the interests of their people Although the missteps and occasional blunders of the Indians in the BIA have at times damaged the federal Indian relationship and fueled the ire of their people and although the BIA is massively underfunded Indians began crafting the BIA into a Native agency by reformulating the meanings of concepts that lay at its heart concepts such as tribal sovereignty treaties the trust responsibility and Indian land At the same time they pursued actions to strengthen and bolster tribes to foster healing to fight the many injustices Indians face and to restore the Indian land base This work provides an essential national level look at an intriguing and impactful form of Indigenous resistance It describes in great detail the continuing assaults made on Native peoples and tribal sovereignty in the United States during the twenty first century and it sketches the visions of the future that Indians at the BIA and in Indian Country have been crafting for themselves Native Trails: A Guide to Indigenous Perspectives Pasquale De Marco,2025-07-10 Delve into the multifaceted world of Native American life with this comprehensive guide that explores the diverse perspectives histories cultures and challenges faced by Indigenous communities in the United States Through a collection of essays that span various disciplines from economics and education to art literature and environmentalism this book provides a rich tapestry of knowledge and insights into the complexities of Native American experiences Begin your journey with an examination of Indigenous identity tracing its historical constructions and the cultural continuity that shapes Native American self perceptions Explore the impact of language on identity formation and the ways in which sovereignty and contemporary expressions of identity are intertwined Uncover the intricate tapestry of Native American histories from pre contact societies to the profound impact of European colonization and the resilience exhibited by Native American communities throughout history Move beyond historical accounts and immerse yourself in the vibrant cultures of Native American societies Discover traditional beliefs practices art forms and storytelling gaining a deeper understanding of the unique cultural heritage that has been passed
