Serving the Nation Julie L. Reed, 2016-04-18. Well before the creation of the United States the Cherokee people administered their own social policy, a form of what today might be called social welfare based on matrilineal descent, egalitarian relations, kinship obligations, and communal landholding. The ethic of *gadugi* or work coordinated for the social good was at the heart of this system. *Serving the Nation* explores the role of such traditions in shaping the alternative social welfare system of the Cherokee Nation as well as their influence on the U.S. government's social policies. Faced with removal and civil war in the early and mid-nineteenth century the Cherokee Nation asserted its right to build institutions administered by Cherokee people both as an affirmation of their national sovereignty and as a community imperative. The Cherokee Nation protected and defended key features of its traditional social service policy, extended social welfare protections to those deemed Cherokee according to citizenship laws, and modified its policies over time to continue fulfilling its people's expectations. Julie L. Reed examines these policies alongside public health concerns, medical practices, and legislation defining care and education for orphans, the mentally ill, the differently abled, the incarcerated, the sick, and the poor. Changing federal and state policies and practices exacerbated divisions based on class, language, and education and challenged the ability of Cherokees individually and collectively to meet the social welfare needs of their kin and communities. The Cherokee response led to more centralized national government solutions for upholding social welfare and justice as well as to the continuation of older cultural norms. Offering insights gleaned from reconsidered and overlooked historical sources, this book enhances our understanding of the history and workings of social welfare policy and services not only in the Cherokee Nation but also in the United States. *Serving the Nation* is published in cooperation with the William P. Clements Center for Southwest Studies, Southern Methodist University.

Red on Red Craig S. Womack, 1999-11-15. An entertaining and enlightening proposal for a new way to read Native American literature. How can a square peg fit into a round hole? It can't. How can a door be unlocked with a pencil? It can't. How can Native literature be read applying conventional postmodern literary criticism? It can't. That is Craig Womack's argument in *Red on Red*. Indian communities have their own intellectual and cultural traditions that are well equipped to analyze Native literary production. These traditions should be the eyes through which the texts are viewed. To analyze a Native text with the methods currently dominant in the academy, according to the author, is like studying the stars with a magnifying glass. In an unconventional and piercingly humorous appeal, Womack creates a dialogue between essays on Native literature and fictional letters from Creek

characters who comment on the essays Through this conceit Womack demonstrates an alternative approach to American Indian literature with the letters serving as a Creek chorus that offers answers to the questions raised in his more traditional essays Topics range from a comparison of contemporary oral versions of Creek stories and the translations of those stories dating back to the early twentieth century to a queer reading of Cherokee author Lynn Riggs's play *The Cherokee Night* Womack argues that the meaning of works by Native peoples inevitably changes through evaluation by the dominant culture *Red on Red* is a call for self-determination on the part of Native writers and a demonstration of an important new approach to studying Native works one that engages not only the literature but also the community from which the work grew
