The Oxford Handbook of Cities in World History Peter Clark, 2013-02-14 In 2008 for the first time the majority of the planet's inhabitants lived in cities and towns Becoming globally urban has been one of mankind's greatest collective achievements over time and raises many questions How did global city systems evolve and interact in the past How have historic urban patterns impacted on those of the contemporary world And what were the key drivers in the roller coaster of urban change over the millennia market forces such as trade and industry rulers and governments competition and collaboration between cities or the urban environment and demographic forces This pioneering comparative work by leading scholars drawn from a range of disciplines offers the first detailed comparative study of urban development from ancient times to the present day The Oxford Handbook of Cities in World History explores not only the main trends in the growth of cities and towns across the world in Asia and the Middle East Europe Africa and the Americas and the different types of cities from great metropolitan centres to suburbs colonial cities and market towns but also many of the essential themes in the making and remaking of the urban world the role of power economic development migration social inequality environmental challenge and the urban response religion and representation cinema and urban creativity Split into three parts covering Ancient cities the medieval and early modern period and the modern and contemporary era it begins with an introduction by the editor identifying the importance and challenges of research on cities in world history as well as the crucial outlines of urban development since the earliest cities in ancient Mesopotamia to the present

Scythe and the City Christian Henriot, 2016-05-18 The issue of death has loomed large in Chinese cities in the modern era Throughout the Republican period Shanghai swallowed up lives by the thousands Exposed bodies strewn around in public spaces were a threat to social order as well as to public health In a place where every group had its own beliefs and set of death and funeral practices how did they adapt to a modern urbanized environment How did the interactions of social organizations and state authorities manage these new ways of thinking and acting Recent historiography has almost completely ignored the ways in which death created such immense social change in China Now *Scythe and the City* corrects

this problem Christian Henriot's pioneering and original study of Shanghai between 1865 and 1965 offers new insights into this crucial aspect of modern society in a global commercial hub and guides readers through this tumultuous era that radically redefined the Chinese relationship with death **Global Shanghai, 1850-2010** Jeffrey N

Wasserstrom, 2008-11-25 This book explores the play of international forces and international ideas about Shanghai looking backward as far as its transformation into a subdivided treaty port in the 1840s and looking forward to its upcoming hosting of China's first World's Fair the 2010 Expo As such Global Shanghai is a lively and informative read for students and scholars of Chinese studies and urban studies and anyone interested in the history of Shanghai **Reappraising Republican China**

Frederic E. Wakeman, Richard L. Edmonds, 2000 This book testifies to the accomplishments of Republican studies during the 1980s and early 1990s Reviewing many aspects of contemporary research it covers the transition from the late Qing dynasty to the Republic agricultural development from the mid 1890s to 1937 the political aspects of twentieth century Chinese urban history the problems of capacity building for Republican era governments political party organization finance and military matters Shanghai's modernization process the politics of the Kuomintang during the Nanjing decade and its relationship with fascism and Republican era diplomacy *China in War and Revolution, 1895-1949* Peter

Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this text presents a nation's story of trauma and growth during the early twentieth century It explains how China's defeat by Japan in 1895 prompted an explosion of radical reform proposals and the beginning of elite Chinese disillusionment with the Qing government The book explores how this event also prompted five decades of efforts to strengthen the state and the nation democratize the political system and build a fairer and more unified society Peter Zarrow weaves narrative together with thematic chapters that pause to address in depth themes central to China's transformation While the book proceeds chronologically the chapters in each part examine particular aspects of these decades in a more focused way borrowing from methodologies of the social sciences cultural studies and empirical historicism Essential reading for both students and instructors alike it draws a picture of the personalities ideas and processes by which a modern state was created out of the violence and trauma of these decades **Republican Beijing** Madeleine Yue Dong, 2003-08-04 The first comprehensive history of Republican Beijing with a focus on social and cultural life in the city This book examines how Republican Beijing through the very processes of modernization and the material and cultural practices of recycling acquired its identity as a consummately traditional Chinese city **Fishing Wars and Environmental Change in Late Imperial and Modern China**

Micah S. Muscolino, 2009 This work explores interactions between society and environment in China's most important marine fishery the Zhoushan Archipelago off the coast of Zhejiang and Jiangsu from its 19th century expansion to the exhaustion of the most important fish species in the 1970s *The Scramble for China* Robert Bickers, 2016-02-25 In the early nineteenth century China remained almost untouched by British and European powers but as new technology started to

change this balance foreigners gathered like wolves around the weakening Qing Empire Would the Chinese suffer the fate of much of the rest of the world carved into pieces by Europeans Or could they adapt rapidly enough to maintain their independence This important and compelling book explains the roots of China s complex relationship with the West by illuminating a dramatic colourful and sometimes shocking period of the country s history China and the Great War Guoqi Xu,2005-02-24 Publisher Description Globalization, Modernity and the City John Rennie Short,2013-03-01 We live in a world of big cities Urbanization globalization and modernization have received considerable attention but rarely are the connections and relations between them the subjects of similar attention Cities are an integral part of the network of globalization and important sites of modernization Globalization Modernity and The City weaves together broad social themes with detailed urban analysis to explore the connections between the rise of big cities the creation of a global network and the making of the modern world It explains the growth of big cities the urban bias of global flows and the creation of metropolitan modernities The text develops broad theories of the subtle and complex interactions between urbanization globalization and modernization in a sweep of the urban experience across the globe Thematic chapters explore the making of the modern city in profiles of the growth of urban spectacles the role of flanerier the traffic issues of the modernist city recurring issues of urban utopias and the rise of the primate city Detailed case studies are drawn from cities in Australia China and the USA Urban snapshots of cities such as Atlanta Barcelona Istanbul Mumbai and Seoul provide a truly global coverage The book links together broad social themes with deep urban analysis This well written accessible and illustrated text will appeal to the broad audience of all those interested in the urban present and the metropolitan future

Sovereignty at the Edge Cathryn H. Clayton,2009 Preliminary Material Introduction Sort of Sovereignties Outlaw Tales The Nonexistent Macanese Educating Locals Culture in Ruins The Rubbish Heap of History Outlawed Tales Conclusion Notes Glossary of Cantonese Characters Works Cited Index Harvard East Asian Monographs Citizens without Nations Maarten Prak,2018-08-16 Citizenship is at the heart of our contemporary world but it is a particular vision of national citizenship forged in the French Revolution In Citizens without Nations Maarten Prak recovers the much longer tradition of urban citizenship across the medieval and early modern world Ranging from Europe and the American colonies to China and the Middle East he reveals how the role of ordinary people in urban politics has been systematically underestimated and how civic institutions such as neighbourhood associations craft guilds confraternities and civic militias helped shape local and state politics By destroying this local form of citizenship the French Revolution initially made Europe less rather than more democratic Understanding citizenship s longer term history allows us to change the way we conceive of its future rethink what it is that makes some societies more successful than others and whether there are fundamental differences between European and non European societies **Made in Hong Kong** Peter E. Hamilton,2021-01-05 Between 1949 and 1997 Hong Kong transformed from a struggling British colonial outpost into a global financial capital Made in Hong Kong delivers a new

narrative of this metamorphosis revealing Hong Kong both as a critical engine in the expansion and remaking of postwar global capitalism and as the linchpin of Sino U S trade since the 1970s Peter E Hamilton explores the role of an overlooked transnational Chinese elite who fled to Hong Kong amid war and revolution Despite losing material possessions these industrialists bankers academics and other professionals retained crucial connections to the United States They used these relationships to enmesh themselves and Hong Kong with the U S through commercial ties and higher education By the 1960s Hong Kong had become a manufacturing powerhouse supplying American consumers and by the 1970s it was the world s largest sender of foreign students to American colleges and universities Hong Kong s reorientation toward U S international leadership enabled its transplanted Chinese elites to benefit from expanding American influence in Asia and positioned them to act as shepherds to China s reengagement with global capitalism After China s reforms accelerated under Deng Xiaoping Hong Kong became a crucial node for China s export driven development connecting Chinese labor with the U S market Analyzing untapped archival sources from around the world this book demonstrates why we cannot understand postwar globalization China s economic rise or today s Sino U S trade relationship without centering Hong Kong

A Sense of the City Gala Maria Follaco, 2017-10-17 In *A Sense of the City* Gala Maria Follaco examines Nagai Kaf s 1879 1959 literary construction of urban spatialities from late Meiji through the early Sh wa period She argues that Kaf s urban critique was based on his awareness of the cultural sedimentation of the cityscape and of the complex relationship that it bore with the historical framework of modern Japan With the overall aim to define Kaf s position within pre war Japanese literature Follaco touches upon key issues such as memory class difference and language ideologies draws connections between his sojourn abroad and strategies of mapping the city of Tokyo in his literature and takes into account works previously understudied including his biography of Washizu Kid and his photographs

Strangers in the City Li Zhang, 2002-11-01 With rapid commercialization a booming urban economy and the relaxation of state migration policies over 100 million peasants known as China s floating population have streamed into large cities seeking employment and a better life This massive flow of rural migrants directly challenges Chinese socialist modes of state control This book traces the profound transformations of space power relations and social networks within a mobile population that has broken through the constraints of the government s household registration system The author explores this important social change through a detailed ethnographic account of the construction destruction and eventual reconstruction of the largest migrant community in Beijing She focuses on the informal privatization of space and power in this community through analyzing the ways migrant leaders build their power base by controlling housing and market spaces and mobilizing social networks The author argues that to gain a deeper understanding of recent Chinese social and political transformations one must examine not only to what extent state power still dominates everyday social life but also how the aims and methods of late socialist governance change under new social and economic conditions In revealing the complexities and uncertainties of the shifting power and social relations in post

Mao China this book challenges the common notion that sees recent changes as an inevitable move toward liberal capitalism and democracy

The Making of Global City Regions Klaus Segbers, Simon Raiser, Krister Volkmann, 2007 Publisher description

Shanghai Urban Life and Its Heterogeneous Cultural Entanglements Yuezhi Xiong, 2022-08-01 In this book Xiong Yuezhi and a team of distinguished scholars bring together cutting edge research on the urban history of Shanghai and the diversity of its distinctive culture Occupying an interstitial space between Chinese and foreign power Shanghai from the mid nineteenth to the mid twentieth century experienced almost unimaginably complex developments in its political social economic and cultural history To untangle this complexity Xiong and his team have carefully constructed in thematic and chronological fashion the interactions between the imperialist powers foreign settlers and the Chinese community of Shanghai from the origins of the racially segregated International Settlement in the 1840s to the internment of foreign settlers in Shanghai during World War II in the 1940s

Mediasphere Shanghai Alexander Des Forges, 2007-07-31 For many in the west Shanghai is the quintessence of East Asian modernity whether imagined as glamorous and exciting corrupt and impoverishing or a complex synthesis of the good the bad and the ugly How did Shanghai acquire this power How did people across China and around the world decide that Shanghai was the place to be Mediasphere Shanghai shows that partial answers to these questions can be found in the products of Shanghai s media industry particularly the Shanghai novel a distinctive genre of installment fiction that flourished from the 1890s to the 1930s Shanghai fiction supplies not only the imagery that we now consider typical of the city but more significantly the very forms simultaneity interruption mediation and excess through which the city could be experienced as a business and entertainment center and envisioned as the focal point of a mediasphere with a national and transnational reach Existing paradigms of Shanghai culture tend to explain the city s distinctive literary and visual aesthetics as merely the predictable result of economic conditions and social processes but Alexander Des Forges maintains that literary texts and other cultural products themselves constitute a conceptual foundation for the city and construct the frame through which it is perceived Working from a wide range of sources including installment fiction photographs lithographic illustrations maps guidebooks newspapers and film Des Forges demonstrates the significant social effects of aesthetic forms and practices Mediasphere Shanghai offers a new perspective on the cultural history of the city and on the literature and culture of modern China in general

Beyond Citizenship: Literacy and Personhood in Everyday China, 1900-1945 Di Luo, 2022-09-19 Beyond Citizenship focuses on the role of literacy in building a modern nation state by examining the government provision of adult literacy training in early twentieth century China Based on untapped archives and diaries Di Luo uncovers people s strategic use of literacy and illiteracy in social interactions and explores the impact of daily experiences on the expansion of state power Highlighting interpersonal and intergroup relations Beyond Citizenship suggests a new methodology of studying literacy which foregrounds the agentive role of historical actors and so moves away from a more traditional approach that

treats literacy itself as the key factor enabling social change
