Reflections on Native-Newcomer Relations J.R. Miller, 2004-12-15 The twelve essays that make up *Reflections on Native Newcomer Relations* illustrate the development in thought by one of Canada's leading scholars in the field of Native history J R Miller The collection comprising pieces that were written over a period spanning nearly two decades deals with the evolution of historical writing on First Nations and Métis methodological issues in the writing of Native newcomer history policy matters including residential schools and linkages between the study of Native newcomer relations and academic governance and curricular matters Half of the essays appear here in print for the first time and all use archival published and oral history evidence to throw light on Native Newcomer relations Miller argues that the nature of the relationship between Native peoples and newcomers in Canada has varied over time based on the reasons the two parties have had for interacting The relationship deteriorates into attempts to control and coerce Natives during periods in which newcomers do not perceive them as directly useful and it improves when the two parties have positive reasons for cooperation *Reflections on Native Newcomer Relations* opens up for discussion a series of issues in Native newcomer history It addresses all the trends in the discipline of the past two decades and never shies from showing their contradictions as well as those in the author's own thinking as he matured as a scholar

Natives & Newcomers Elizabeth Anne Fenn, 1983 *Natives and Newcomers The Way We Lived in North Carolina before 1770*

Paradise Stanley Barrett, 1994-12-15 What was life like in the 1950s in small communities in Ontario Lower class and upper class residents might have different memories of those days but on one thing they would agree it is a much different world in rural Ontario today The old guard has lost most of its power displaced partly by big brother in the form of bureaucracy and newcomers from the city in search of affordable housing even if it means commuting daily to work Unlike their British origin predecessors the newcomers who have begun to appear in the countryside represent a wide range of ethnic and economic backgrounds *Paradise* concentrates on the transformed class system of one community in rural Ontario In a comparison of the decade following the First World War and the 1980s Stanley R Barrett analyses the changing face and structure of a town as it has had to adapt to modern social and economic realities Particular attention is paid to the phenomenon of the commuter in search of affordable housing and the influx of immigrants of varied ethnic backgrounds and

the interaction between these newcomers and long term residents What is striking is just how massive the changes in small town Ontario have been since the Second World War to the extent of almost obliterating long assumed distinctions between rural and urban society *Indian Country* Gail Guthrie Valaskakis, 2009-08-03 Since first contact Natives and newcomers have been involved in an increasingly complex struggle over power and identity Modern Indian wars are fought over land and treaty rights artistic appropriation and academic analysis while Native communities struggle among themselves over membership money and cultural meaning In cultural and political arenas across North America Natives enact and newcomers protest issues of traditionalism sovereignty and self determination In these struggles over domination and resistance over different ideologies and Indian identities neither Natives nor other North Americans recognize the significance of being rooted together in history and culture or how representations of Indianness set them in opposition to each other In *Indian Country Essays on Contemporary Native Culture* Gail Guthrie Valaskakis uses a cultural studies approach to offer a unique perspective on Native political struggle and cultural conflict in both Canada and the United States She reflects on treaty rights and traditionalism media warriors Indian princesses powwow museums art and nationhood According to Valaskakis Native and non Native people construct both who they are and their relations with each other in narratives that circulate through art anthropological method cultural appropriation and Native reappropriation For Native peoples and Others untangling the past personal political and cultural can help to make sense of current struggles over power and identity that define the Native experience today Grounded in theory and threaded with Native voices and evocative descriptions of Indian experience including the author's the essays interweave historical and political process personal narrative and cultural critique This book is an important contribution to Native studies that will appeal to anyone interested in First Nations experience and popular culture **Anglos and Mexicans in the Making of Texas, 1836-1986**

Tribal Theory in Native American Literature Penelope Myrtle Kelsey, 2008-01-01 Scholars and readers continue to wrestle with how best to understand and appreciate the wealth of oral and written literatures created by the Native communities of North America Are critical frameworks developed by non Natives applicable across cultures or do they reinforce colonialist power and perspectives Is it appropriate and useful to downplay tribal differences and instead generalize about Native writing and storytelling as a whole Focusing on Dakota writers and storytellers Seneca critic Penelope Myrtle Kelsey offers a penetrating assessment of theory and interpretation in indigenous literary criticism in the twenty first century Tribal Theory in Native American Literature delineates a method for formulating a Native centered theory or more specifically a use of tribal languages and their concomitant knowledges to derive a worldview or an equivalent to Western theory that is emic to indigenous worldviews These theoretical frameworks can then be deployed to create insightful readings of Native American texts Kelsey demonstrates this approach with a fresh look at early Dakota writers including Marie McLaughlin Charles Eastman and Zitkala a and later storytellers such as Elizabeth Cook Lynn Ella Deloria and Philip Red Eagle This book raises the provocative issue of how Native languages and knowledges were historically excluded from the study of Native American literature and how their encoding in early Native American texts destabilized colonial processes Cogently argued and well researched Tribal Theory in Native American Literature sets an agenda for indigenous literary criticism and invites scholars to confront the worlds behind the literatures that they analyze **Proceedings of the 2002 Northeastern Recreation**

assemble the familiar cohort of cattle horses pigs chickens and other animals that defined European agriculture This in turn contributed to the dispossession of the Native residents of the area However just as various animals were used to create a Euro American city the elimination of these same animals from Seattle was key to the creation of the new middle class neighborhoods of the twentieth century As dogs and cats came to symbolize home and family Seattleites relationship with livestock became distant and exploitative demonstrating the deep social contradictions that characterize the modern American metropolis Throughout Seattle s history people have sorted animals into categories and into places as a way of asserting power over animals other people and property In *The City Is More Than Human* Frederick Brown explores the dynamic troubled relationship humans have with animals In so doing he challenges us to acknowledge the role of animals of all sorts in the making and remaking of cities
