#### **Nato And Peace Support Operations 1991 1999 Policies And Doctrines:**

**NATO and Peace Support Operations, 1991-1999** Henning Frantzen, 2004-12-17 This new book addresses the key question of how NATO and three of its member states are configuring their policies and military doctrines in order to handle the new strategic environment This environment is increasingly dominated by new wars more precisely civil wars within states and peacekeeping as the strategy devised by outside actors for dealing with them The book seeks to explain how this new strategic environment has been interpreted and how the new conflicts and peacekeeping have been fitted into defence and war key concepts in the field of security studies The Oxford Handbook of NATO James Sperling, Mark Webber, 2025-02-05 The North Atlantic Treaty Organization NATO has since its foundation in 1949 been the principal body of the Western security order and remains as important in the 2020s as it was in the 1950s This Handbook offers the most extensive treatment of the Alliance published in the last two decades providing detailed coverage of NATO allies policies and organizational structures It brings together internationally renowned scholars who interrogate NATO s actions from historical theoretical and empirical perspectives The Handbook is divided into nine parts Following an introductory part offering a thematic overview of NATO framed by different approaches to domestic politics and global order the second part explores three broad questions what is NATO for who is NATO for and whither NATO Part Three is more expressly theoretical providing multi perspectival analyses of the Alliance Part Four then turns to how NATO works as a political military alliance Parts Five and Six are concerned with what NATO does in practical terms how it addresses a wide range of security threats and what operations it has mounted in response Part Seven looks at some of NATO s most significant allies including France Germany Italy Poland Turkey the United Kingdom and the United States Part Eight meanwhile is concerned with partnerships and key relationships beyond NATO s membership looking at Australia Georgia Ukraine Russia China the European Union and the European neutrals as well as ties to states in the Gulf the Middle East and North Africa The final part of the volume offers reflections on NATO s recent past and possible lines of future development Europeanization of National Security Identity Pernille Rieker, 2006-05-09 This new book tackles two key questions 1 How is the EU functioning as a security actor 2 How and to what extent is the EU affecting national security identities Focusing on the four largest Nordic states Denmark Finland Norway and Sweden this incisive study analyzes how and to what extent the EU affects national security identities It shows how the EU has developed into a special kind of security actor that due to its level of political integration has an important influence on national security approaches and identities This new analysis applies a fresh combination of integration theory security studies and studies of Europeanization The main argument in this book is that rather than adapting to the changing conditions created by the end of the Cold War the Nordic states changed their security approaches in response to the European integration process It shows how different phases in the post Cold War European integration process have influenced the national security approaches of Sweden Finland Denmark and Norway

While all four security approaches seem to have been Europeanized the speed and the character of these changes seem to vary due to a combination of differing ties to the EU and differing security policy traditions. This new book will be of great interest to all students of European Defence national security and of security studies in general Kosovo between War and Peace Tonny Brems Knudsen, Carsten Bagge Laustsen, 2006-08-21 A major contribution to the debate about the reconstruction of Kosovo and to the general discussion surrounding the revived trusteeship institution model in the context of the UN internationalism of the 1990s and the War on Terror following 9 11 Bringing together leading international scholars this book presents the latest empirical research alongside detailed theoretical analysis Examining the key questions local parties and the international community have encountered in Kosovo including how to develop effective and inclusive local government how to counter crime and the dysfunctional aspects of liberal economic reform how to unite the partly opposed goals of reconstructing the province while avoiding renewed ethnic and international strife and how to handle the specific challenge of Kosovo's future status The contributors also re examine the background factors that continue to influence and hamper the attempt to administrate and reconstruct the province first of all the nationalist ideologies and the record of ethnic violence. This book will be of great interest to all students of Balkan politics peacekeeping international relations and security studies in general Languages at War H. Footitt, M. Kelly, 2015-12-26 Emphasising the significance of foreign languages at the centre of war and conflict this book argues that foreignness and foreign languages are key to our understanding of what happens in war Through case studies the book traces the role of languages in intelligence military deployment soldier civilian meetings occupation and peace building **South Africa and United Nations Peacekeeping Offensive Operations** Antonio Garcia, 2018-08-17 The creation of the Force Intervention Brigade FIB as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo MONUSCO tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions What was more significant was that sub Saharan national leaders were instrumental in the creation of the FIB South Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub Saharan Africa and therefore holds a key strategic role in achieving the FIBs objectives This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations Furthermore there are sections on operational constructs capstone and operating concepts doctrine and structural elements as well a section on mine action This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges

helping establish the precepts of this liberal peace outcomes have left much to be desired. The book argues that failures in the liberal peace project are not only due to efficiency problems related to its adaptation in adverse local environments but mostly due to problems of legitimacy of turning an ideal into a doctrine for action The aim of the book is to scrutinize assumptions about the value of democratization and marketization and realities on the ground by combining theoretical discussions with empirical evidence from key post conflict settings such as Iraq and Afghanistan These show the disparities that exist between the ideals and the reality of the liberal peace project as seen by external peacebuilders and domestic actors The book then proposes various alternatives and modifications to better accommodate local perspectives values and agency in attempts to forge a new consensus This book will be of great interest to students of peacebuilding peacekeeping statebuilding war and conflict studies international security and IR **Interregionalism and the European Union Mario** Telò, Louise Fawcett, Frederik Ponjaert, 2016-03-09 Is the EU isolated within the emergent multipolar world Concentrating on interregional relations and focussing on the European Union's EU evolving international role with regards to regional cooperation this innovative book collects a set of fresh empirical analyses of interregional ties binding the EU with its Eastern and Southern neighbourhood as well as with Asia Africa and the Americas The 25 leading authors from 5 continents have contributed original and diverse chapters and the book advances a novel theoretical post revisionist approach beyond both the Eurocentrism of Europe First perspectives as well as the Euroscepticism of those advocating to simply move Beyond Europe After a Foreword by A Acharya the book s five sections reflect the main drivers of EU interregional policies The European Union as a Sophisticated Laboratory of Regional and Interregional Cooperation with chapters by M Tel L Fawcett and T Risse De Facto Drivers of Regionalism F Ponjaert M Shu A Vallad o and C Jakobeit De Jure Drivers of Regionalism S Lavenex G Finizio C Jakobeit R Coman C Cocq S Teo L Shah Cognitive Drivers of Regionalism J R land E Fitriani S Stavridis S Kingah P Bacon and Instrumental Drivers of Regionalism B Delcourt C Olsson G M ller A Malamud P Seabra and L Norwegian and Danish Defence Policy Håkon Lunde Saxi,2010 Fioramonti I Kostopoulos Political Ethics and The *United Nations* Manuel Froehlich, 2007-10-31 Based on a wealth of sources files and interviews and including previously unpublished material this book explores the foundations of the political ethics of Dag Hammarskild the second Secretary General of the United Nations examining how they influenced his actions in several key crisis situations Hammarskilds International Sanctions Carina Staibano, Peter Wallensteen, 2005-02-18 The main theme of political innovations such the book is that the new types of sanctions constitute a challenge to the international system First there are more of the targeted sanctions including financial travel aviation special commodity and arms sanctions Furthermore there are considerable but varied practices in implementation Also there are now sanctions by new actors regional bodies international organizations These all put new strains on international bodies in carrying out sanctions or getting member states to work together in these efforts These challenges are analyzed in this volume with some examples but mostly from a generalist

perspective A completely novel aspect is that this volume also includes studies of the difficulties that are met by targeting actors their way of managing the situations and most interesting the human rights of such actors **Historical Dictionary** of Multinational Peacekeeping Terry M. Mays, 2010-12-16 As long as there have been wars there have been peace processes to settle them In the 12th century BC the Egyptians and Hittites concluded one of the earliest peace treaties still in existence Peacekeeping as understood as a modern concept emerged out of the League of Nations after World War I The League fielded many international military operations that were essentially deployments by the victorious Allied powers to oversee local plebiscites Peacekeeping operations have evolved to become essential elements in most international attempts to guide belligerents through a peace process Peacekeeping operations can be great examples of the international community cooperating to help settle a crisis Historical Dictionary of Multinational Peacekeeping Third Edition is a single source research guide for current and completed peacekeeping operations With an extensive chronology an introductory essay an appendix with the mandates for three UN peacekeeping operations a research oriented bibliography based on numerous categories of peacekeeping operations and issues related to peacekeeping 32 photographs of UN EU and NATO peacekeeping operations and over 500 cross referenced dictionary entries on peacekeeping operations people organizations countries and events associated with peacekeeping and brief descriptions of all currently fielded operations as well as those that have completed their missions dating back to the League of Nations in 1920 The Politics of International <u>Intervention</u> Mandy Turner, Florian P. Kühn, 2015-09-16 This book critically explores the practices of peacebuilding and the politics of the communities experiencing intervention The contributions to this volume have a dual focus First they analyse the practices of western intervention and peacebuilding and the prejudices and politics that drive them Second they explore how communities experience and deal with this intervention as well as an understanding of how their political and economic priorities can often diverge markedly from those of the intervener This is achieved through theoretical and thematic chapters and an extensive number of in depth empirical case studies Utilising a variety of conceptual frameworks and disciplines the book seeks to understand why something so normatively desirable the pursuit of and building of peace has turned out so badly From Cambodia to Afghanistan Iraq to Mali interventions in the pursuit of peace have not achieved the results desired by the interveners But rather they have created further instability and violence The contributors to this book explore why This book will be of much interest to students academics and practitioners of peacebuilding peacekeeping international intervention statebuilding security studies and IR in general **Peace Operations and Organized Crime** James Cockayne, Adam Lupel, 2011-05-10 Peace operations are increasingly on the front line in the international community s fight against organized crime this book explores how in some cases peace operations and organized crime are clear enemies while in others they may become tacit allies The threat posed by organized crime to international and human security has become a matter of considerable strategic concern for national and international decision makers so it is somewhat surprising how

little thought has been devoted to addressing the complex relationship between organized crime and peace operations This volume addresses this gap questioning the emerging orthodoxy that portrays organized crime as an external threat to the liberal peace championed by western and allied states and delivered through peace operations Based upon a series of case studies it concludes that organized crime is both a potential enemy and a potential ally of peace operations and it argues for the need to distinguish between strategies to contain organized crime and strategies to transform the political economies in which it flourishes The editors argue for the development of intelligent transnational and transitional law enforcement that can make the most of organized crime as a potential ally for transforming political economies while at the same time containing the threat it presents as an enemy to building effective and responsible states The book will be of great interest to students of peacebuilding peace and conflict studies organised crime Security Studies and IR in general **Peacekeeping Missions** Sarah-Myriam Martin- Brûlé, 2016-07-15 offers a new perspective on the success of peace missions in intra state wars based on extensive comparative field research of 11 peace missions will be of much interest to students of peacekeeping civil wars African politics security studies and IR Nordic Approaches to Peace Operations Peter Viggo Jakobsen, 2006 A new examination of Nordic approaches to peace operations after the Cold War It shows how the Nordic countries Denmark Finland Norway and Sweden remain relevant for the study and practice of post Cold War peace operations This unique study is structured around eleven success conditions derived from an analysis of the lessons learned since the early 1990s ensuring that the results of the case studies are directly comparable These case studies are supplemented by an analysis of Nordics collective efforts to replace their old Cold War peacekeeping model with a new one that meets the requirements of the new era The overall conclusion is that the Nordics have succeeded in meeting the post Cold War requirements for success both individually and collectively and that a new effective model is in the making This book makes several important contributions to the literature on peace operations First it demolishes the widely held view that the Nordic countries remain a bastion of traditional Cold War peacekeeping with little relevance for contemporary operations Second it constitutes the first systematic overview of the reforms undertaken by the four Nordic countries since the end of the Cold War Third it fills a historical gap by providing a comprehensive analysis of the celebrated old Nordic Cold War model explaining how and why it developed and how it functioned Finally the analytical framework is a general tool which can be used to evaluate the approaches to peace operations employed by countries around the world This book will be of great interest to all students of peacekeeping peace studies security studies and IR in general **Peace Operations and International Criminal Justice** Majbritt Lyck, 2008-07-29 This new volume provides the first thorough examination of the involvement of peace enforcement soldiers in the detention of indicted war criminals The book firstly addresses why peace enforcement missions need to be involved in detaining indicted war criminals. This discussion includes an analysis of how the securing of justice and transitional j **Cooperative Peacekeeping in Africa** Malte Brosig, 2015-10-05 This book examines

peacekeeping in Africa exploring how the various actors are forming an African security regime complex The changing dynamics of peacekeeping in today s world have encouraged a more cooperative approach between international and regional actors At the centre of this book is the analysis of how an African security regime complex could emerge in the area of cooperative peacekeeping The African regime complex on peacekeeping includes a number of organizations at the regional and sub regional African level as well as global institutions such as the UN interregional partners like the EU and individual lead nations This book is the first in providing a systematic overview of peacekeeping doctrines capacities and deployments of these key actors and single lead states Theoretically the book links up with regime complexity scholarship but connects it with dependency theory Here inter institutional relations are conceptualised as acts of resource exchange The book explores how primarily international organizations are partnering by exchanging resources Empirically the study analyses the phenomenon of regime complexity in three prominent African crises covering Eastern Africa Somalia Central African Central African Republic and Western Africa Mali This book will be of much interest to students of peacekeeping international organisations African politics security studies and IR in general
