Congress. Senate. Foreign Relations, 1966 *A History of the Iraq Crisis* Frédéric Bozo, 2016-12-06 In March 2003 the

United States and Great Britain invaded Iraq to put an end to the regime of Saddam Hussein. The war was launched without a United Nations mandate and was based on the erroneous claim that Iraq had retained weapons of mass destruction. France under President Jacques Chirac and Foreign Minister Dominique de Villepin spectacularly opposed the United States and British invasion, leading a global coalition against the war that also included Germany and Russia. The diplomatic crisis leading up to the war shook both French and American perceptions of each other and revealed cracks in the transatlantic relationship that had been building since the end of the Cold War. Based on exclusive French archival sources and numerous interviews with former officials in both France and the United States, *A History of the Iraq Crisis* retraces the international exchange that culminated in the 2003 Iraq conflict. It shows how and why the Iraq crisis led to a confrontation between two longtime allies unprecedented since the time of Charles de Gaulle and it exposes the deep and ongoing divisions within Europe, the Atlantic alliance and the international community as a whole. The Franco-American narrative offers a unique prism through which the American road to war can be better understood.

Globalizing de Gaulle Christian Nuenlist, Anna Locher, Garret Martin, 2010-04-27 French President Charles de Gaulle 1958-1969 has consistently fascinated contemporaries and historians. His vision conceived out of national interest of uniting Europe under French leadership and overcoming the Cold War still remains relevant and appealing. De Gaulle's towering personality and his challenge to US hegemony in the Cold War have inspired a vast number of political biographies and analyses of the foreign policies of the Fifth Republic, mostly from French or US angle. In contrast, this book serves to rediscover de Gaulle's global policies, how they changed the Cold War. Offering truly global perspectives on France's approach to the world during de Gaulle's presidency, the 13 well-matched essays by leading experts in the field tap into newly available sources drawn from US, European, Asian, African and Latin American archives. Together, the contributions integrate previously neglected regions, actors and topics with more familiar and newly approached phenomena into a global picture of the General's international policy making. The volume at hand is an example of how cutting edge research benefits from multipolar and multi-archival approaches and from attention to big, middle and smaller powers as well as institutions.

The Air Force Comptroller, 1973 **Mike** Rt. Hon. Lester B. Pearson, 2016-01-28 One of Canada's most dynamic prime ministers, Lester B. Pearson lived a life which took him from a childhood in rural Ontario to the apex of international politics. This third and final volume of his memoirs follows him from his years of triumph as a Canadian diplomat to his retirement from politics and the passing of the Liberal torch to Pierre Elliott Trudeau. Completed after Pearson's death under the supervision of his son Geoffrey, this volume of Mike covers Pearson's election as leader of the Liberal Party, his years in opposition to the Diefenbaker government and his achievements as prime minister: a list that included the establishment of the Canada Pension Plan, universal medicare, the Auto Pact and a new Canadian flag. Mike captures Pearson's intellect, his sense of humour and his humanity, offering an inside look at the decisions that shaped Canada in the twentieth century. This new edition features a foreword by Pearson cabinet minister and former
