## **Natos Strategic Options Arms Control And Defense:**

**NATO's Strategic Options** David Scott Yost,1981 Forfattere Kenneth Adelman Richard Burt Thomas A Callaghan Samuel T Cohen Joseph D Douglass William R Graham John G Keliher Uwe Nerlich Robin Ranger John P Rose Robert Strausz Hup Peter H Vigor Seymour Weiss og David S Yost **Strategic Review** ,1978 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States **North Atlantic Treaty Organization** Phil Williams,2024-11-01 This volume consists of major books written in the English language on NATO as well as an extensive listing of journal articles that deal with various aspects of the Alliance All the major debates that have taken place over the last forty years are discussed **The Friday Review of Defense Literature** ,1983 [Air University Review](#) ,1982-07 **Chemical Warfare** Edward M. Spiers,2016-04-30 Ever since its employment in the First World War chemical warfare has always aroused controversy Governments have responded by pursuing the policies of disarmament and deterrence in the hope of avoiding its recurrence However despite the signing of the Geneva Protocol in 1925 which banned the use of poison gas chemical weapons have been used in subsequent conflicts and most recently in the Gulf War between Iraq and Iran In this work the policies of disarmament and deterrence will be reassessed within a broad historical and strategic context It will be argued that poison gas could still be used in a modern European conflict that the Soviet forces are the best equipped to operate in a contaminated environment and that weaknesses persist in NATO s anti chemical defences and in her deterrent It will be emphasised too that the Geneva disarmament talks which have made some progress in recent years still face formidable difficulties over the issues of verification and compliance Above all it will be claimed that the onset of nuclear parity between the superpowers has eroded the credibility of a deterrent to chemical attack based upon the threat of nuclear release Accordingly this book will contend that the United States should modernize her stockpile of chemical weapons to bolster the Western deterrent and to provide more leverage for the negotiations in Geneva **Strategic Nuclear Weapons, Arms Control, and the NATO Alliance** Gil Klinger,Rand Corporation,1985 *Special Bibliography Series* United States Air Force Academy. Library,1989 **NATO at 40 years : a critical assessment.** ,1989 [The Star Wars Controversy](#) Steven E. Miller,Stephen Van Evera,2014-07-14 These essays from the journal International Security assess the technical feasibility and the strategic desirability of defense against ballistic missiles Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Rethinking national security* Frances Scott,1990 **NATO at 40 Years** ,1989 [Special Bibliography Series](#) ,1957 **The Tenuous Balance** James M

Garrett,2019-06-12 The instigation for this book was the author's doubt that the political and military confrontation in Central Europe would remain stable in a serious crisis Uncertainty of success may deter Soviet risk taking forty nine years out of fifty but not in that fiftieth year if Soviet leaders should face an apparent threat to their continued hegemony in

**The Federal Republic Of Germany And The United States** James A Cooney,Gordon Craig,Hans-Peter Schwarz,Fritz Stern,2019-07-11 This book examines the current and historical dimensions of relations between the United States and the Federal Republic of Germany focusing on the complex economic issues that make the two countries interdependent and on the resulting policy implications The contributors analyze the reasons for increasingly problematic relations between the United States and West Germany arguing that the situation is exacerbated by the inadequate understanding Americans often have of the changing nature of society politics and culture in West Germany

The Strategic Defense Initiative Ralph L. Dietl,2018-08-15 The Nuclear and Space Talks revolutionized arms control The Cold War endgame commenced with the umbrella negotiations that linked START and INF negotiations to a regulation on the weaponization of space This volume reveals a US grand strategy to replace deterrence with a collective security order An entente of the superpowers was needed to transform bipolarity The US planned the replacement of mutually assured destruction by mutually assured security A global astrodome was to protect a nuclear disarmed world The Franco German special relationship in European affairs had to be amended by a US SU special relationship to replace classic bloc politics The Reagan Administration planned a global zero agenda a joint development of a global protective system and a creation of a Common House of Europe In brief the superpowers prepared the velvet revolution that eliminated the Cold War structures Neither containment nor convergence offers a valid explanation of the Cold War endgame Co creation is the key to decipher the end of the Cold War NATO Europe challenged the transformation of bipolarity The European NWS resisted to a multilateralization of strategic arms control In Europe the classic Cold War thinking survived the fall of the Iron Curtain European conservatism contributed to the geopolitical catastrophe of the first order the downfall of the Soviet Union The Reagan Administration developed a Grand Strategy to end the Cold War The US SU co creation of an astrodome was meant to ease a global zero agenda A global collective security structure under the United Nations was to replace deterrence The superpower project collapsed due to the penetration of US decision making by NATO Allies The European NWS totally objected to a multilateralization of strategic arms control to preserve their relative position in the international system

**NATO and European Security** Alexander Moens,Lenard J. Cohen,Allen G. Sens,2003-03-30 From the end of the Cold War to the terrorist attacks on the United States in September 2001 the NATO Alliance has changed profoundly This book explores the multifaceted consequences of NATO's adjustment to new international and domestic political and security realities Internal Alliance politics and matters of relative power within the membership have strongly influenced recent NATO developments Several major issues challenging the Alliance are examined including how the impact of efforts to develop an enhanced common

European security and defense policy have affected NATO whether missile defense is driving the United States and its European allies closer or further apart how the experience of NATO in the Balkans and elsewhere brought alliance members together or made NATO cohesion more difficult to maintain and in what way the changing role of NATO has influenced American and Canadian participation in the Alliance An important guidepost to pivotal changes and likely NATO developments scholars and policymakers of Atlantic and international politics will find these meditations indispensable A number of authors also speculate on the likely changes for the alliance that will ensue in the wake of the September 11 terrorist attacks and the possibility that NATO will soon modify its mission and responsibilities in reaction to the threat of international terrorism Indeed many of the same strategies and strains that affected NATO cohesion over the past decade are likely to complicate efforts to maintain Alliance unity as part of the anti terrorist coalition

**Conventional Arms Control and East-West Security** Institute for East-West Security Studies,1989 This important and timely work prepared by the leading researchers planners and policymakers from both Eastern and Western alliances analyzes the major issues in the Vienna talks on conventional forces in Europe involving NATO and Warsaw Pact nations It is likely to have a significant influence on the course of these negotiations and on emerging debate on conventional arms control The contributors met in Moscow prior to the Vienna conference to review and compare their analyses and revised them thereafter for publication in this work
