Disaster Resilience Ashley D. Ross,2013-11-12 Since 2000 the Gulf Coast states Texas Louisiana Mississippi Alabama and

Florida have experienced a series of hurricanes multiple floods and severe storms and one oil spill These disasters have not only been numerous but also devastating Response to and recovery from these unprecedented disasters has been fraught with missteps in management In efforts to avoid similar failures in the future government agencies and policy practitioners have looked to recast emergency management and community resilience has emerged as a way for to better prevent manage and recover from these disasters How is disaster resilience perceived by local government officials and translated into their disaster response and recovery efforts Ashley D Ross systematically explores and measures disaster resilience across the Gulf Coast to gain a better understanding of how resilience in concept is translated into disaster management practices particularly on the local government level In doing so she presents disaster resilience theory to the Gulf Coast using existing data to create county level baseline indicators of Gulf Coast disaster resilience and an original survey of county emergency managers and elected municipal officials in 60 counties and 120 municipalities across the Gulf States The findings of the original survey measure the disaster resilience perceptions held by local government officials which are examined to identify commonalities and differences across the set of cases Additional analyses compare these perceptions to objective baseline indicators of disaster resilience to assess how perceptions align with resilience realities Local Disaster Resilience not only fills a critical gap in the literature by applying existing theories and models to a region that has experienced the worst disasters the United States has faced in the past decade but it can also be used as a tool to advance our knowledge of disasters in an interdisciplinary manner

Challenges provides both a local and global perspective on how to implement the Sendai Framework for Disaster Risk Reduction Topics demonstrate the advancement of scientific research as it applies to early warning systems including identifying risk and the strengthening of infrastructure for different types of hazards Through different major disasters it has become evident that there must be a balance between hard and soft technology and physical process and social solutions This book demonstrates how this has been successfully implemented in Asia and how these applications can apply on a global basis Covers new research on the role of science in Disaster Risk Reduction and lessons learned when research has been applied Utilizes case studies to outline the broader lessons learned Focuses on the Sendai Framework which was adopted in the Third UN World Conference in 2015 *Disaster Resilience* Douglas Paton, David Johnston, 2017-06-12 Events such as the 2004 Indian Ocean Tsunami Hurricane Katrina in 2005 and the Japanese earthquakes and tsunamis in 2011 have provided unfortunate reminders of the susceptibility of many communities to devastating losses from natural hazards These events provided graphic illustrations of how extreme hazard events adversely impact on people affect communities and disrupt the community and societal mechanisms that serve to organize and sustain community capacities and functions However there is much that communities can do to mitigate their risk and manage disaster consequences The construct that epitomizes how this is done is resilience The contents of this volume provide valuable insights into how societal resilience can be developed and sustained This considerably expanded new edition presents major topics of Coexisting with Natural Hazards Urban Resilience in Asia Lifelines and Urban Resilience Business Continuity in Disaster Hazard Mitigation in Communities Hazard Readiness and Resilience Child Citizenship in Disaster Risk Old Age and Resilience Gender and Disaster Resilience Impact of High Functionality on Resilience Art and Resilience Cross Cultural Perspectives and Coping with Hazards Religious Practices and Resilience Living in Harmony with our Environment Critical Incidence Response Governance Heat Wave Resilience Wildfire Disaster Resilience and Progress and Challenges to Disaster Risk Reduction and Resilience This exceptional book brings together contributions from international experts in core areas and includes chapters that provide and overarching framework within which the need for interrelationships between levels to be developed is discussed The book will be an outstanding resource for those researching or teaching courses in emergency management disaster management community development environmental planning and urban development In addition it will serve law enforcement and emergency agencies welfare agencies and professionals in applied psychology **Living with Hazards, Dealing with Disasters: An Introduction to Emergency Management** William L Waugh, 2015-06-03 This is the first concise introduction to emergency management the emerging profession that deals with disasters from floods and earthquakes to terrorist attacks Twenty case studies illustrate the handling of actual disasters including the Northridge Earthquake and the Oklahoma City Bombing Discussion questions and guides to on line information sources facilitate use of the book in the classroom and professional training programs **Hazards and the Built Environment** Lee Boshier, 2008-05-06 Presenting a range of multi hazard

adaptation issues this book illustrates that non structural as well as structural adaptations need to be considered in order to reduce the threat and impact of disasters in the built environment Disaster and Development Naim Kapucu, Kuotsai Tom Liou, 2014-04-11 This book offers a systematic empirical examination of the concepts of disasters and sustainable economic development applied to many cases around the world It presents comprehensive coverage of the complex and dynamic relationship between disaster and development making a vital contribution to the literature on disaster management disaster resilience and sustainable development The book collects twenty three chapters examining theoretical issues and investigating practical cases on policy governance and lessons learned in dealing with different types of disasters e g earthquakes floods and hurricanes in twenty countries and communities around the world **Protecting Seniors Against Environmental Disasters** Michael R Greenberg, 2014-07-11 The baby boom generation were born between 1946 and 1964 and are the largest population cohort in US history They should number about 90 million by mid century more than doubling their current size The massive increase in seniors and relative decline of those of working age in the US is mirrored in almost all the world s most populous countries This book connects the dots between the US baby boom generation and the marked increase in natural and human caused disasters It evaluates options available to seniors their aids for and not for and for profit organizations and government to reduce vulnerability to hazard events These include coordinated planning risk assessment regulations and guidelines education and other risk management efforts Using interviews with experts cases studies especially of Superstorm Sandy and literature it culls best practice and identify major gaps It is original and successful in making the connection between the growing group of vulnerable US seniors environmental events and risk management practices in order to isolate the most effective lessons learned Floods Dennis J. Parker, 2014-08-27 Floods occur in most parts of the world and range from being welcomed annual occurrences to natural disasters which have countless physical and societal impacts Floods presents the most comprehensive collection to date of new research providing a rich body of theory and experience and drawing together contributions from over fifty leading international researchers in the field An extensive range of case studies covering major floods and regions prone to flooding worldwide are included

Disaster Resiliency Naim Kapucu, Christopher V. Hawkins, Fernando I. Rivera, 2013-05-02 Natural disasters in recent years have brought the study of disaster resiliency to the forefront The importance of community preparedness and sustainability has been underscored by such calamities as Hurricane Katrina in 2005 and the Japanese tsunami in 2011 Natural disasters will inevitably continue to occur but by understanding the concept of resiliency as well as the factors that lead to it communities can minimize their vulnerabilities and increase their resilience In this volume editors Naim Kapucu Christopher V Hawkins and Fernando I Rivera gather an impressive array of scholars to provide a much needed re think to the topic disaster resiliency Previous research on the subject has mainly focused on case studies but this book offers a more systematic and empirical assessment of resiliency while at the same time delving into new areas of exploration including

vulnerabilities of mobile home parks the importance of asset mapping and the differences between rural and urban locations Employing a variety of statistical techniques and applying these to disasters in the United States and worldwide this book examines resiliency through comparative methods which examine public management and policy community planning and development and on the individual level the ways in which culture socio economic status and social networks contribute to resiliency The analyses drawn will lead to the development of strategies for community preparation response and recovery to natural disasters Combining the concept of resiliency the factors that most account for the resiliency of communities and the various policies and government operations that can be developed to increase the sustainability of communities in face of disasters the editors and contributors have assembled an essential resource to scholars in emergency planning management and policy as well as upper level students studying disaster management and policy
