Other Kingdom

David Kirk

Other Kingdom:

An Other Kingdom Peter Block, Walter Brueggemann, John McKnight, 2016-01-19 Our seduction into beliefs in competition scarcity and acquisition are producing too many casualties We need to depart a kingdom that creates isolation polarized debate an exhausted planet and violence that comes with the will to empire The abbreviation of this empire is called a consumer culture We think the free market ideology that surrounds us is true and inevitable and represents progress We are called to better adapt be more agile more lean more schooled more more more Give it up There is no such thing as customer satisfaction We need a new narrative a shift in our thinking and speaking An Other Kingdom takes us out of a culture of addictive consumption into a place where life is ours to create together This satisfying way depends upon a neighborly covenant an agreement that we together will better raise our children be healthy be connected be safe and provide a livelihood The neighborly covenant has a different language than market hype It speaks instead in a sacred tongue Authors Peter Block Walter Brueggemann and John McKnight invite you on a journey of departure from our consumer market culture with its constellations of empire and control Discover an alternative set of beliefs that have the capacity to evoke a culture where poverty violence and shrinking well being are not inevitable a culture in which the social order produces enough for all They ask you to consider this other kingdom To participate in this modern exodus towards a modern community To awaken its beginnings are all around us An Other Kingdom outlines this journey to construct a future outside the systems world of solutions

Portugal's Other Kingdom Dan Stanislawski, 2014-11-06 A land of long ago on the brink of tomorrow That is the Algarve the southernmost province of Portugal a land that knew the Phoenicians Carthaginians Greeks Romans Visigoths Moslems and yet retained its own distinctive personality In the 1950s it first felt the impact of industrialization and from that situation the author developed this book In presenting this descriptive geography of the Algarve Dan Stanislawski offers no thesis except that geographers economists politicians humanists all those interested in the way the world is developing should watch the small culturally disparate areas of the world to learn what they have of value to teach to enjoy the qualities of their independent ways of living and to observe and evaluate their reaction to modern change This book the result of detailed observation of one such region is a valuable contribution to the knowledge necessary to form sound value judgments on the future development of these areas From this account the charm of the Algarve emerges in all of its picturesqueness With the aid of Stanislawski's vivid descriptions his eighteen helpful maps and graphs and his more than ninety photographs the reader moves leisurely through this appealing but unpublicized region along roadways bordered by rock walls and blooming almonds traveled by sturdy burros bearing their loads of produce through colorful landscapes of the Lower Algarve with their pastel calcimined dwellings and their intensively cultivated plots of olives figs carobs grain and vegetables along the rugged cliff coast near Portimão and the boat filled port of Faro past the canyon gardens of the Caldeirão along the Arade River with its cork barges northward past Cape S Vicente to the area of wind sheared trees Guided by

Stanislawski the reader comes to understand Algarvian problems inherent in soils topography climate location and history He sees the Algarvians following the occupational practices that have produced for them in the midst of difficult conditions a stable culture fishing netmaking shipbuilding farming herding and so on He realizes that these people with their unique cultural background and environment desire to live and to change in their own way Finally he learns how it is possible to communicate effectively with the Algarvians and with millions of other people whose peculiar problems tend to isolate them from the rest of the world

Cosmic Initiative Jack R. Taylor, 2017-01-17 Jesus never said Seek first about any pursuit or purpose except the kingdom of God But the church has essentially abandoned this central message so that kingdom realities have become lost to us Our neglect has been costly because God's kingdom on earth His cosmic initiative has the authority and power to revolutionize our culture This transformation occurs first within us and then around us igniting the world with forgiveness healings miracles righteousness and peace The reason most people today do not seek the kingdom is that they have not seen it Once they truly see it they seek and follow the remarkable vision they have glimpsed This is because discovering the kingdom is not just information but an adventure in revelation and transformation Well known speaker and kingdom seeker Jack Taylor invites us to be reintroduced to the kingdom of God and to experience the recovery of the kingdom gospel leading to kingdom power kingdom love and the greatest kingdom harvest the world has ever seen
