Kingdoms in the Heart of Africa Duone Ekane,2024-07-19

The book Kingdoms in the Heart of Africa constitutes a thrilling tale of four fictitious prominent kingdoms that dominated the region called the heart of Africa The four kingdoms Mbantuu kingdom Utanne kingdom Shanaba kingdom and Manaka kingdom were in constant competition with each other The book explores the power dynamics that dominated the relations between these kingdoms as they compete for the position of dominance in the region Each of the kingdoms was headed by a powerful king except for the kingdom of Shanaba kingdom which was headed by queen Edonge who was considered to be the goddess of Africa There was constant rivalry between the kingdoms as each sought to assert itself as the most powerful kingdom in the region Due to this suspicion prevailed amongst the kingdoms resulting in secret plots and alliances forming between the different kingdoms Despite the tension division and conflict that beset the region in these kingdoms vast masses of minerals that had never been discovered before in other parts of the world were found This attracted foreign interest in the region whose sole quest was to conquer the region an issue the kingdoms were oblivious to The rise of these kingdoms propelled Africa to a place of prominence in the world

The Motif of Hope in African American Preaching during Slavery and the Post-Civil War Era Wayne E. Croft Sr., 2017-10-16 The Motif of Hope in African American Preaching during Slavery and the Post Civil War Era There's a Bright Side Somewhere explores the use of the motif of hope within African American preaching during slavery 1803 1865 and the post Civil War era 1865 1896 It discusses the presentation of the motif of hope in African American preaching from an historical perspective and how this motif changed while in some instances remained the same with the changing of its historical context Furthermore this discussion illuminates a reality that hope has been a theme of importance throughout the history of African American preaching **Vitoria: Political Writings** Francisco de Vitoria, 1991-10-31 Francisco Vitoria was the earliest and arguably the most important of the Thomist political philosophers of the Counter Reformation Not only did he write important essays on civil and ecclesiastical power but he became celebrated for his defence of the new world Indians against the imperialism of his own master the King of Spain Vitoria's political works are thus of great importance for an understanding both of the rise of modern absolutism and the debate about the emergent imperialism of the European powers His works are also unusually accessible since they survive mainly in the form of relectiones or summaries delivered at the end of his lecture courses on law and theology at the University of Salamanca Translated here into English for the first time these texts comprise the core of Vitoria's thought and will be of interest to specialists in political theory and the history of ideas ecclesiastical history and the history of early modern Spain A comprehensive introduction a chronology and a bibliography accompany the texts William of Ockham: A Short Discourse on Tyrannical Government William (of Ockham), 1992-08-20 William of Ockham c 1285 c 1347 was the most eminent and influential theologian and philosopher of
