meaning and function can be even more malleable and deceiving as new developments in technology are altering how we perceive reality In *Reel Photos Balancing Art and Truth in Contemporary Film* Wendy Sterba examines the use of photographs in cinema to explore issues of objectivity subjectivity fabrication and fact This study first looks at the traditional use of the photograph in films such as *Blow Up* and then considers similar issues as they relate to the search for truth in detective films like *Along Came a Spider* *The Bone Collector* and *Forgotten Subsequent* chapters explore ambivalence and photographic objectification in films about art photography including *The Governess* *Fur and Closer* Other movies discussed include *Inception* *Paparazzi* *Under Fire* and *Somebody Has to Shoot the Picture* By examining the function of the photograph in movies rather than the role of film photography as art Sterba provides an innovative approach to cinema studies Utilizing theory in an intelligent but easily understandable way this book allows readers to re examine the role of authorship and the value of authentic art *Reel Photos* will appeal to students and scholars of cinema as well as anyone interested in the aesthetics of art and truth in film
