Expert ASP.NET 2.0 Advanced Application Design Tom Barnaby, Dominic Selly, Andrew Troelsen, 2006-11-22 Expert ASP NET 2 0 Advanced Application Design will help you derive maximum performance and reliability from the distributed applications you create with ASP NET 2 0 The book first looks at some of the non functional requirements that

impact the design of a distributed application. It then relates them to the servers and services available in the .NET 2.0 Framework. ASP.NET 2.0 is the central process for use in distributed .NET applications and the book closely examines the ASP.NET 2.0 Framework and its hosting environment, Internet Information Services (IIS). The book looks at how ASP.NET 2.0 is used by different packages within .NET, like Web Services, and explores how it can be extended to meet your own custom requirements. The second part of the book drills down and examines some of the common architectural challenges encountered when developing application designs. The book walks through the tiers of the .NET Framework, starting at the client level and exploring the internals of the page type, enhancements to ViewState, client script generation, and new out-of-band callbacks. At the middle tier, the book examines Web Services, Remoting, COM+, MSMQ, and mix-and-match communication options to suit your own requirements. This section wraps up by previewing Windows Communication Foundation, which aims to unify these technologies. The third part of the book examines the data layer of your distributed applications. This includes enhancements to the Managed Providers in 2.0, the new transactional model, and a preview of usage guidelines for SQL Server 2005. By the book's conclusion, you will be able to select with confidence the most appropriate design elements for your purposes, elegantly connecting them and ensuring you get the very best from the ASP.NET 2.0 Framework.

The Abrahamic Christian Tithing: Workbook Dr. Samuel Kirk Mills, 2012-08-22 This is your companion workbook to your study book titled *The Abrahamic Christian Tithing* A Study book for the Church The study delves into the cause of Abrahams tithing to Melchizedek in order to indicate the fundamental spiritual benefits of Christian tithing to every individual member of a local church and its overall importance to the Church of Christ in general The study establishes the following lessons concerning the tithing of Abraham God had planned that Abraham will tithe before the creation of the

universe As the father of the Christian faith God had worked in Abraham to tithe to Melchizedek to establish it as a unique type of giving by the church to the High Priestly Ministry of Christ Affirming the fact that Abraham did not know and was not relating to Gods personal nature when he was initially brought to Canaan the study also establishes the following lessons The tithing of Abraham was an indicator of Gods work in him for the patriarch to know and to relate to His personal nature In working in Abraham to tithe as an act of knowing and relating to Him personally God was also establishing the fundamental principle of Christian tithing that it will be by the principle of knowing and relating to God personally Thus the study benchmarks the spiritual growth that occurred in the life of Abraham following his tithing as the fundamental benefit of the practice of Christian tithing to the individual members of a local church It shows us that Christian tithing is essentially a standardize way of giving by divine establishment that the church would utilize to cultivate personal relationship with God with the goal of growth in trust love and holiness to God With its unique perspective concerning the tithing of Abraham the study comprehensively brings out unexplored spiritual benefits that God had ordained in the patriarch for the Church of Christ through tithing
