Repertory Matthew Wood,2016-11-01 Discover the healing applications of a wide variety of medicinal plants with this first comprehensive herbal repertory from an internationally known herbalist Expert herbalist Matthew Wood takes the guesswork out of the application of medicinal plants Here he provides an invaluable cross reference of constitutional types energetic categories and specific systems so herbalists can more easily identify the right remedies for a specific condition Unlike many reference books in which medicinal plants are defined simply by condition or disease name this book offers tools for differentiating between remedies and analyzing each case in a holistic fashion While this system of cross referencing is well known to homeopaths it is less frequently used by herbalists The Earthwise Herbal Repertory seeks to bridge the gap between different healing systems incorporating knowledge from ancient Greek and traditional Native American medicine nineteenth century botanical medicine homeopathy and modern biomedical research This definitive repertory proves useful for homeopaths and herbalists professionals and home practitioners alike **Prescriber and Clinical Repertory of**
