Redefining Equality:

Redefining Equality Neal Devins, Davison M. Douglas, 1998 These essays present an array of views about the meaning of equality and provide perspectives on the on going debates about it The collection presents a range of opinions and insights that speak to America's ability to define and deal with the politics of equality *Rethinking equality* Chris Armstrong, 2013-07-19 Although formally equal relations between citizens are actually characterised by many and varied forms of inequality Do contemporary theories of equality provide an adequate response to the inequalities that afflict contemporary societies And what is the connection between theories of equality and the contemporary politics of citizenship Accessible and comprehensive Rethinking equality provides a clear critical and very up to date account of the most important contemporary egalitarian theories Unusually it also relates these theories to contemporary political practice assessing them in relation to the impact of neoliberalism on contemporary welfare states and the shift from social to active forms of citizenship As well as representing a significant intervention within academic debates on equality and citizenship this book represents essential reading for students of contemporary political theory **The American and British Debate Over Equality, 1776-1920** James L. Huston, 2017-10-16 Historians have long contested the degree to which the central tenet of the Declaration of Independence that all men are created equal has manifested itself in American society and national policy According to James L. Huston many historians have focused too intently on class differences slavery and inequalities arising from ethnicity sexuality and gender while overlooking important areas where notions of equality flourished during the century and a half after the Declaration's signing In *The American and British Debate Over Equality 1776 1920* Huston examines the egalitarian communities in rural northern America particularly those enclaves that differed from the openly aristocratic cities and towns of the British Isles In the aftermath of the American Revolution British and American writers alike recognized that a growing philosophical rift divided the two nations whereas Great Britain continued to embrace the inequality of its hierarchical class system the United States professed allegiance to democratic ideals of equality limited though these were by racial and gender norms of the day Huston argues that the two countries engaged in an intellectual debate during the next century and a half over which ideal equality or inequality worked best in promoting social stability political hegemony and economic success Exploring the effects of equality and inequality on many aspects of American life he examines civil behavior social customs treatment of others politics education religion economic opportunity and general public optimism Drawing from decades of publications by American and British writers Huston reveals the rhetorical strategies contemporary observers employed in defending or rejecting the organization of a society around broader notions of human equality *The American and British Debate Over Equality 1776 1920* informs the modern debate over equality and inequality not by theorizing and philosophizing but by offering a glimpse into the practical applications of a functioning egalitarian society as compared to one that extolled monarchy and institutionalized inequality *C# Web Development with*

How to Think Like a Woman Regan Penaluna, 2023-03-14 From a bold new voice in nonfiction an exhilarating account of the lives and works of influential 17th and 18th century feminist philosophers Mary Wollstonecraft and her predecessors who have been written out of history and a searing look at the author's experience of patriarchy and sexism in academia As a young woman growing up in small town Iowa Regan Penaluna daydreamed about the big questions Who are we and what is this strange world we find ourselves in In college she fell in love with philosophy and chose to pursue it as an academician the first step she believed to becoming a self determined person living a life of the mind What Penaluna didn't realize was that the Western philosophical canon taught in American universities as well as the culture surrounding it would slowly grind her down through its misogyny its harassment its devaluation of women and their intellect Where were the women philosophers One day in an obscure monograph Penaluna came across Damaris Cudworth Masham's name The daughter of philosopher Ralph Cudworth and a contemporary of John Locke Masham wrote about knowledge and God and the condition of women Masham's work led Penaluna to other remarkable women philosophers of the era Mary Astell who moved to London at age twenty one and made a living writing philosophy Catharine Cockburn a philosopher novelist and playwright and the better known Mary Wollstonecraft who wrote extensively in defense of women's minds

Together these women rekindled Penaluna's love of philosophy and awakened her feminist consciousness In *How to Think Like a Woman* Regan Penaluna blends memoir biography and criticism to tell the stories of these four women weaving throughout an alternative history of philosophy as well as her own search for love and truth Funny honest and wickedly intelligent this is a moving meditation on what philosophy could look like if women were treated equally **Points of**

Disruption in the Music Education Curriculum, Volume 1 Marshall Haning, Jocelyn A. Stevens, Brian N.

Weidner, 2024-05-15 For decades scholars in the field of music education have recognized the need for growth and change in our approach to teaching music yet despite these calls for change the music education curriculum today remains remarkably similar to that of a century ago *Points of Disruption in the Music Education Curriculum Volume 1 Systemic Changes* is one of two volumes that bring together applied suggestions analyses and best practices for disrupting cycles of replication in the curriculum of K 12 and collegiate music education programs in the United States and beyond considering disruption as a force for positive change Identifying specific strategies for interrupting or reimagining traditional practices the contributors provide music teachers and music educators with a variety of potential practical approaches to creating changes that foster a better musical education at all levels of the curriculum This first volume focuses on systemic changes including topics like professional development hiring practices ableism and universal design rhizomatic learning and how to implement disruption across the music education profession Each chapter contains specific action steps and suggestions for implementation Bringing together five thought provoking chapters this concise volume offers a diverse set of concrete strategies that will be useful to a wide range of music education stakeholders including teachers administrators and curriculum designers

Dismantling the Public Sphere John E. Buschman, 2003-08-30 This work presents a thorough examination of librarianship and the social and economic contexts in which the profession and its institutions operate As a basis of analysis Buschman employs critical education scholarship and the research of German philosopher Jurgen Habermas whose seminal work on the public sphere the arena in which the public organizes itself and formulates public opinion serves as a meta framework for Buschman's study of librarianship Buschman asserts that a significant shift has occurred from the library as a contributor to the public good to a model where economic rationality directs policy He challenges much of the current thinking and assumptions guiding libraries exploring the circumstances in which librarians and libraries operate and linking the profession back to democratic and public purposes as the core essence of the field Chapters include Crisis Culture and the Need for a Defense of Librarianship in the Public Sphere The New Public Philosophy and Critical Educational Analysis The Public Sphere Rounding Out the Context of Librarianship Studies in Librarianship and the Dismantling of the Public Sphere Follow the Money Library Funding and Information Capitalism Follow the Leader Library Management and the New Public Philosophy On Customer Driven Librarianship Drifting Toward the Corporate Model ALA Notes on Postmodern Technology Technocracy and Libraries The Public Sphere and Democratic Possibility Highly recommended for courses in

policy and librarianship as well as for academic and public library directors this work will also be of interest to theorists in the social sciences
