interpretation of quantum mechanics Release a Man for Combat Michaela Hampf, 2010 Die etwa 150 000 Frauen die im Zweiten Weltkrieg im Women's Army Corps Dienst taten waren die ersten regulären Soldatinnen der US Armee Um männliche Soldaten für den Kampf freizusetzen arbeiteten sie auch in traditionellen Männerbereichen etwa als Mechanikerinnen oder Pilotinnen in den USA Afrika Europa und Südostasien Die Autorin geht den Erfahrungen dieser Frauen nach den militärischen und zivilen Diskursen über Soldatinnen im Militär und dem Umgang der Armee mit soldatischer Weiblichkeit und weiblicher Sexualität Anhand von Regierungsdokumenten Kriegsgerichtsprozessen aber auch Selbstzeugnissen Gedichten und Songs zeigt M Michaela Hampf wie umkämpft die Konstruktion der Soldatin im Amerika der vierziger Jahre war und bis heute ist Conradian Contracts Tamas Juhasz, 2011-04-28 This book treats Joseph Conrad's simultaneous interests in exchange contracts and the condition of displacement The central hypothesis is that the novelist's characters face the option of signing or rejecting what might with some generalization be called a social covenant These individuals conduct a lonely or marginal existence and to ease their isolation they would like to re-enter a community For this reason they are ready to contribute to larger collective causes and comply with those restrictions that social life in its contractual aspect requires As Julia Kristeva puts it The foreigner is the one who works yet engagement in transactions in order to earn a social position is fraught with difficulties In return for their contribution these hard working characters do not always receive the compensation that they had in mind especially when their definition of companionship violates the boundaries of legality and social propriety Their private illicit interests are bound to clash with communal ones and the ensuing negotiating readjustment or compromise seeking either crush the individual party or result in a redefinition of the notion of contract This link between exchange and displacement is explored in nine narratives Just as the concept of exile is used in a broad often metaphorical sense ranging from characters who are actual migrants through individuals who occupy a marginal position within their native community to individuals who are caught between conflicting cultural economic models the trade or contractual alliance that can create or at least promise a sense of communal belonging and personal recognition is also manifold in its definition Although it always includes if to varying degrees the transference of economic goods or entering a specific agreement exchange is never limited to legal material procedures **On the Turn** Bárbara Arizti, Silvia Martínez-Falquina, 2009-05-05 On the Turn The Ethics of Fiction in Contemporary Narrative in English is an attempt to listen to the various voices that participate in the current dialogue on the relationship between fiction and ethics The editors' introduction investigates the current state of affairs on the return to ethics in critical and literary consideration and it opens up the way for the variety of approaches that follows Participants include internationally recognized scholars like Andrew Gibson Patricia Waugh or Native American fiction writer and poet Gordon Henry winner of the American Book Award in 1995 All in all contributors cover a significant geographical diversity and their approaches also vary from general theory to particular examples from traditional interpretations to post deconstruction ethics Authors analyze texts both mainstream and

marginal colonial and postcolonial they examine the ethics of race gender and sexuality the ethics of self positioning and orientation the ethics of style the ethics of reception the ethics of mode and genre the ethics of extreme situations of evil disease and fascism In its search for a better understanding of the global nationalistic world of today On the Turn therefore moves beyond the scope of literary criticism into issues of wider more urgent relevance What should I ought I may I must I do if anything on the basis of reading when I have read a literary work What does reading a literary work authorize or even command me to do Writing an essay about the work would be one response On the Turn is a wonderfully diverse learned challenging provocative even sometimes controversial collection of essays on the ethical dimensions of literature This book is testimony to the continued lively interest in the ethical turn in literary studies The authors are for the most part concerned with ethical theory and with ethically charged situations in postmodern novels in English as they shape readers values and judgments Poetry and non print media are however also discussed J Hillis Miller UCI Distinguished Research Professor of Comparative Literature and English University of California at Irvine The Ethics of Fiction is an important and exciting volume that explores with energy and rigour the connections between ethics and literature Relating literature to philosophy neurobiology politics religion deconstruction and psychoanalysis the twenty two contributors richly advance the ethical turn recently embraced by many critics Works by authors such as Ian McEwan A S Byatt Charles Palliser Hanif Kureishi J M Coetzee David Malouf George Orwell E L Doctorow Flannery O Connor Toni Morrison and Paul Auster are presented in a new light and complex topics such as territoriality the nature of love Islamophobia and the politics of representation are tackled with imagination and intellectual integrity This book is essential reading for anyone interested in the dialogue between ethics and literature Avril Horner Professor of English Kingston University

Deleuze and the Genesis of Representation Joe Hughes, 2011-10-20 Deleuze and the Genesis of Representation is a systematic study of three of Deleuze's central works Difference and Repetition The Logic of Sense and with Guattari Anti Oedipus Hughes shows how each of these three works develops the Husserlian problem of genetic constitution After an innovative reading of Husserl's late work Hughes turns to a detailed study of the conceptual structures of Deleuze's three books He demonstrates that each book is surprisingly similar in its structure and that all three function as nearly identical accounts of the genesis of representation In a highly original and crucial contribution to Deleuze Studies this book offers a provocative perspective on many of the questions Deleuze's work has raised What is the status of representation Of subjectivity What is a body without organs How is the virtual produced and what exactly is its function within Deleuze's thought as a whole By contextualizing Deleuze's thought within the radicalization of phenomenology Hughes is able to suggest solutions to these questions that will be as compelling as they are controversial
