Ned Blackhawk

Rediscovering Mcgills Heritage:

This is Our Place, this is Our Home Joan Edward, 2006 This collection of revealing journal entries and biographical sketches describes some of the island's most colourful inhabitants Interspersed with line drawings it reflects the land's rugged grandeur and the people's enduring strength

The Rediscovery of America Ned Blackhawk, 2023-04-25 A sweeping and overdue retelling of U S history that recognizes that Native Americans are essential to understanding the evolution of modern America The most enduring feature of U S history is the presence of Native Americans yet most histories focus on Europeans and their descendants This long practice of ignoring Indigenous history is changing however with a new generation of scholars insists that any full American history address the struggle survival and resurgence of American Indian nations Indigenous history is essential to understanding the evolution of modern America Ned Blackhawk interweaves five centuries of Native and non Native histories from Spanish colonial exploration to the rise of Native American self determination in the late twentieth century In this transformative synthesis he shows that European colonization in the 1600s was never a predetermined success Native nations helped shape England's crisis of empire the first shots of the American Revolution were prompted by Indian affairs in the interior California Indians targeted by federally funded militias were among the first casualties of the Civil War the Union victory forever recalibrated Native communities across the West twentieth century reservation activists refashioned American law and policy Blackhawk's retelling of U S history acknowledges the enduring power agency and survival of Indigenous peoples yielding a truer account of the United States and revealing anew the varied meanings of America

Rediscovered Self Ronald Niezen, 2009-05-18 In a series of thematically linked essays Ronald Niezen discusses the ways new rights standards and networks of activist collaboration facilitate indigenous claims about culture adding coherence to their histories institutions and group qualities Drawing on historical legal and ethnographic material on aboriginal communities in northern Canada Niezen illustrates the ways indigenous peoples worldwide are identifying and acting upon new opportunities to further their rights and identities He shows how within the constraints of state and international legal systems activist lobbying strategies and public ideas and expectations indigenous leaders are working to overcome the injuries of imposed change political exclusion and loss of identity Taken together the essays provide a critical understanding of the ways in which people are seeking cultural justice while rearticulating and at times re dignifying the collective self The Rediscovered Self shows how through the processes and aims of justice distinct ways of life begin to be expressed through new media formal procedures and transnational collaborations

Repatriation of Sacred Indigenous Cultural Heritage and the Law Vanessa Tümsmeyer, 2022-01-25 This book examines the ways in which law can be used to structure the return of indigenous sacred cultural heritage to

indigenous communities referred to as repatriation in this volume. In particular, it aims at developing legal structures that align repatriation with contemporary international human rights standards. To do so, it gathers the most valuable lessons learned from different repatriation laws and frameworks adopted in the United States and Canada. In both countries, very different ways of approaching repatriation have been used for several decades, highlighting the context-dependent nature of repatriation. The volume is divided into four parts: looking first at international law, then at the national legal landscape in the United States, followed by Canada, before the different repatriation models are evaluated against the backdrop of human rights law standards. Emphasis is placed not only on repatriation-specific legislation but also on the legal context in which it was developed and operates. In turn, the fourth part develops various models on the basis of these experiences that can be aligned with contemporary indigenous and cultural rights. The book ends by considering the models' suitability for international repatriation and the lessons that can be learned from them. The primary audience includes those addressing the legal hurdles to repatriation, be they researchers, policymakers, communities, or museums.

McGill University Stanley Brice Frost, 1984-05-01. The appointment of John William Dawson as principal in 1855 brought modern ideas of education to Montreal, and he imparted to the emerging institution his own deep commitment to science. The Molson Hall in 1862, the first Medical School on campus in 1872, the Redpath Museum in 1882, the Macdonald Physics Building, the Redpath Library, and the Macdonald Workman Engineering Building, all in 1893, were the major external evidences of the great intellectual advances that had been made. Equally, the admission of women students in 1884 marked the immense social developments in Montreal society. An early contribution to elementary teaching through the work of the McGill Normal School was followed by the institution of examinations for a far-flung network of affiliated secondary schools, and by the encouragement and supervision of local colleges. By the time Dawson retired in 1893, McGill's influence was already reaching across the new Dominion of Canada, and the university was ready to make the transition into the twentieth century.

Heritage as an action word: Uses beyond communal memory Susan Shay, Kelly M. Britt, 2024-04-16. There is no limit to what constitutes heritage. By definition, heritage is the use of the past for present purposes. Yet to any given group or population, heritage can be a multitude of things and can serve a variety of purposes. Based on shared memory, heritage can be tangible or intangible, boundless in variety and scope. It can be, for example, objects, landscapes, food, or clothing; music or dance; sites or statues; monuments or buildings. Importantly, however, heritage also has many and varied uses and powers. It can be used to control, to unite, to engage, and to empower people, communities, and nations. In this interdisciplinary volume, authors from around the world explore how different communities, nations, and groups intentionally and creatively use heritage, both tangible and intangible, in a wide variety of ways to positively address social and environmental issues. Significantly, these studies demonstrate how heritage can be an exceptionally valuable tool for political, economic, and social change. Insightful studies are presented pertaining to heritage as social memory, including the nationalistic political use of heritage, heritage as

resistance to political powers traditional knowledge as environmental science heritage for legal and community action heritage for building peace heritage for Indigenous and minority empowerment and heritage for exploring the past through phenomenological methods The goal of this volume is to move beyond seeing heritage as only social memory a mere interpretation of static past events people or places and instead explores critically the variety of ways heritage is engaged in the present and can be in the future *The Black Baptist Experience in Canada* Gordon L. Heath, Dudley A.

Brown, 2025-04-08 This groundbreaking book is a history of the Black Baptist experience in Canada It includes diverse and informative chapters on events themes and organizations such as the underground railway gender architecture literature civil rights empire and associations It also focuses on several key early churches from the West Coast to the East Coast along with important personages such as Washington Christian Jennie Johnson David George William White William Troy and William M Mitchell
