Redressing The Emperor Improving Our Childrens Public Mental Health System:

Redressing the Emperor John Lyons, 2004-07-30 Lyons provides a fresh and thought provoking understanding of the children's public mental health system as well as the need to foster its evolution and improvement. He presents the history of child mental health systems including the U.S. system's roots and the early 19th century case of the Wild Boy of Aveyron which demonstrated the potentially therapeutic effects of environment. He shows us why modern leaders and presidents have issued calls for improvements to the U.S. child mental health system and what barriers have slowed or even halted this evolution. Such barriers Lyons explains can be removed with community development and better clinical outcomes management. In addition to providing information for parents, family members and advocates for improving the lives of children needing mental health care, this work will also interest clinicians, policy makers and students in social work, clinical psychiatry, public health and public policy.

Parenting Mentally Ill Children Craig Winston LeCroy, 2011-03-03 This in depth exploration uses individual portraits to show what parents face as they love and care for their mentally ill children and cope with how the mental health system has failed them. The Surgeon General has identified children's mental illness as a national problem that creates a burden of suffering so serious as to be considered a health crisis. Yet what it means to be the parent of a mentally ill child has not been adequately considered until now. *Parenting Mentally Ill Children: Faith, Caring Support and Survival* captures the essence of caring for these youngsters, providing resources and understanding for parents and an instructive lesson for society. Author Craig Winston LeCroy uses in depth interviews to chronicle the experiences of parents of mentally ill children as they attempt to survive each day, obtain needed help and reach out for support, and he lets them share their misunderstood emotions of shame, anger, fear, guilt and powerlessness in the face of stigma from professionals, family and friends. The book concludes with a critical appraisal of the social policies that must be implemented to help and the reasons we should feel obligated to initiate them.
