Reenchantment Everyday:

The Enchantment of Modern Life Jane Bennett, 2001-08-05 It is a commonplace that the modern world cannot be experienced as enchanted that the very concept of enchantment belongs to past ages of superstition Jane Bennett challenges that view She seeks to rehabilitate enchantment showing not only how it is still possible to experience genuine wonder but how such experience is crucial to motivating ethical behavior A creative blend of political theory philosophy and literary studies this book is a powerful and innovative contribution to an emerging interdisciplinary conversation about the deep connections between ethics aesthetics and politics As Bennett describes it enchantment is a sense of openness to the unusual the captivating and the disturbing in everyday life She guides us through a wide and often surprising range of sources of enchantment showing that we can still find enchantment in nature for example but also in such unexpected places as modern technology advertising and even bureaucracy She then explains how everyday moments of enchantment can be cultivated to build an ethics of generosity stimulating the emotional energy and honing the perceptual refinement necessary to follow moral codes Throughout Bennett draws on thinkers and writers as diverse as Kant Schiller Thoreau Kafka Marx Weber Adorno and Deleuze With its range and daring *The Enchantment of Modern Life* is a provocative challenge to the centuries old narrative of disenchantment one that presents a new alter tale that discloses our profound attachment to the human and nonhuman world

The Re-enchantment of Everyday Life Thomas Moore, 1997-02-27 Starting from the premise that we can no longer afford to live in a disenchanted world Moore shows that a profound enchanted engagement with life is not a childish thing to be put away with adulthood but a necessity for one's personal and collective survival With his lens focused on specific aspects of daily life such as clothing food furniture architecture ecology language and politics Moore describes the renaissance these can undergo when there is a genuine engagement with beauty craft nature and art in both private and public life Millions of readers who found comfort and substance in Moore's previous bestsellers will discover in this book ways to restore the heart and soul of work home and creative endeavors through a radical fresh return to ancient ways of living the soulful life

The Philosophy of Reenchantment Michiel Meijer, Herbert De Vriese, 2020-10-27 This book presents a philosophical study of the idea of reenchantment and its merits in the interrelated fields of philosophical anthropology ethics and ontology It features chapters from leading contributors to the debate about reenchantment including Charles Taylor John Cottingham Akeel Bilgrami and Jane Bennett The chapters examine neglected and contested notions such as enchantment transcendence interpretation attention resonance and the sacred or reverence worthy notions that are crucial to human self understanding but have no place in a scientific worldview

They also explore the significance of adopting a reenchancing perspective for debates on major concepts such as nature naturalism God ontology and disenchantment Taken together they demonstrate that there is much to be gained from working with a more substantial and affirmative concept of reenchancement understood as a fundamental existential orientation towards what is seen as meaningful and of value The Philosophy of Reenchancement will be of interest to scholars and advanced students in philosophy especially those working in moral philosophy metaphysics philosophy of religion theology religious studies and sociology

School Reform and the Arts of Re-enchancement David Kalim Diehl, 2011 Disenchantment has been a consistent trope in sociology since Weber's appropriation of the term nearly a century ago In this work I argue that in contrast to the standard modernization story organizations have long been subject to countervailing forces other than that of rationalization This has been especially true in schools institutions that exist at the intersection of the logics of bureaucracy democracy and expressive youth cultures In this dissertation I identify a uniquely contemporary organizational response to these tensions one I associate with the notion of re-enchancement I use this term to refer to reforms that identify emotional and intellectual alienation as the primary institutional problems to be overcome and find a solution in the reinvigoration of organizational practices with imagination creativity and collaboration The result is a genre of reform that accepts the logic of standardized and rationalized outcomes but attempts to transform the process of achieving these goals by re-enchancing organizational experience with a sense of connectedness and creativity In this dissertation I discuss small school reform generally and a particular instance of it at Mill Town high specifically as examples of organizational re-enchancement More than just introducing new practices or structures small school reform entails an effort to reshape the tactic and practical modes of coordination what I call ways of being These are social conventions that allow actors to coordinate with each other and their environment in a way that is grounded in a shared practical understanding of the proper ordering of people and things In contrast to standard account that locate the barrier to change in the minds of organizational actors utilizing a mixed methods approach I show that much of the failure of the reform at Mill Town was not the result of beliefs attitudes or values of teachers but rather concerned the complexity of changing culturally disposed and intersubjectively sustained modes of coordination in the organization

Living the Magical Life Suzi Gablik, 2002-01-01 This is a compelling account of one woman's journey to reclaim the magical oracular and spiritual dimensions of life After building a personal altar to the Black Madonna art critic Suzi Gablik finds herself immersed in a world of oracles and synchronicities Adopting an attitude of openness trust and curiosity she experiments with the reality of divine intervention relying on oracular signs numinous clues guided inspiration and moments of meaningful coincidence as another way of knowing and appreciating the world Confronting the challenges of a powerful experience that is filled with paradox and ambiguity she arrives at a very special place of being able to enjoy accept and trust the ultimate inscrutability of the universe Today many of us live without access to the visionary part of our psyche We tend to think of life as being unpredictable and
