Reflections of the Ordinary Man Michael Williams, 2006-01-01 In writing my second book of poetry I again put down my recollections of life past and present and hope that the reader will identify with my words and understand where I am coming from As in my first book the theme is about life with its many twists and turns which lead us to the places we find ourselves today I fervently hope you enjoy my work and in some way understand its meaning against the modern way of life today Mike Williams

The Philosophical Reflection of Man in Literature Anna-Teresa Tymieniecka, 2012-12-06

A Study of Ethical Principles ... Third Edition, Revised and Enlarged James SETH, 1898

Self-Reflection for the Opaque Mind T. Parent, 2016-12-01 This volume attempts to solve a grave problem about critical self reflection The worry is that we critical thinkers are all in epistemic bad faith in light of what psychology tells us After all the research shows not merely that we are bad at detecting ego threatening thoughts la Freud It also indicates that we are ignorant of even our ordinary thoughts e g reasons for our moral judgments of others Haidt 2001 and even mundane reasons for buying one pair of stockings over another Nisbett Wilson 1977 However reflection on one s thoughts requires knowing what those thoughts are in the first place So if ignorance is the norm why attempt self reflection The activity would just display naivety about psychology Yet while respecting all the data this book argues that remarkably we are sometimes infallible in our self discerning judgments Even so infallibility does not imply indubitability and there is no Cartesian ambition to provide a foundation for empirical knowledge The point is rather to explain how self reflection as a rational activity is possible

Aids to Reflection : And the Confessions of an Inquiring Spirit Samuel Taylor Coleridge, 2014

Aids to Reflection And the Confessions of an Inquiring Spirit If then it be our prerogative as rational beings and our duty as Christians to think as well as to act rationally to see that our convictions of truth rest on the grounds of right reason and if it be one of the clearest dictates of reason that we should endeavour to shun and on discovery should reject whatever is contradictory to the universal laws of thought or to doctrines already established I know not by what means we are to avoid the application of philosophy at least to some extent in the study of theology For to determine what are the grounds of right reason what are those ultimate truths and those universal laws of thought which we cannot rationally contradict and by reflection to compare with these whatever is proposed for our belief is in fact to philosophize and whoever does this to a greater or less extent is so far a philosopher in the best and highest sense of the word To this extent we are bound to philosophize in theology as well as in every other science For what is not rational in theology is of course irrational

and cannot be of the household of faith and to determine whether it be rational in the sense already explained or not is the province of philosophy. It is in this sense that the Work before us is to be considered a philosophical work namely that it proves the doctrines of the Christian Faith to be rational and exhibits philosophical grounds for the possibility of a truly spiritual religion. The reality of those experiences or states of being which constitute experimental or spiritual religion rests on other grounds. It is incumbent on the philosopher to free them from the contradictions of reason and nothing more and who will deny that to do this is a purpose worthy of the ablest philosopher and the most devoted Christian. Is it not desirable to convince all men that the doctrines which we affirm to be revealed in the Gospel are not contradictory to the requirements of reason and conscience. Is it not on the other hand vastly important to the cause of religious truth and even to the practical influence of religion on our own minds and the minds of the community at large that we should attain and exhibit views of philosophy and doctrines in metaphysics which are at least compatible with if they do not specially favour those views of religion which on other grounds we find it our duty to believe and maintain. For I beg it may be observed as a point of great moment that it is not the method of the genuine philosopher to separate his philosophy and religion and adopting his principles independently in each to leave them to be reconciled or not as the case may be. He has and can have rationally but one system in which his philosophy becomes religious and his religion philosophical. Nor am I disposed in compliance with public opinion to limit the application of this remark as is usually done to the mere external evidences of revelation. The philosophy which we adopt will and must influence not only our decision of the question whether a book be of divine authority but our views also of its meaning.

Persuasion, Reflection, Judgment Rodolphe Gasché, 2017-04-03

Gasché expounds on Aristotle, Heidegger and Arendt in a major interpretative achievement that underscores what is at stake in political thought. Notre Dame Philosophical Reviews. As one of the most respected voices of Continental philosophy today, Rodolphe Gasché pulls together Aristotle's conception of rhetoric, Martin Heidegger's debate with theory and Hannah Arendt's conception of judgment in a single work on the centrality of these themes as fundamental to human flourishing in public and political life. Gasché's readings address the distinctively human space of the public square and the actions that occur there and his valorization of persuasion, reflection and judgment reveals new insight into how the philosophical tradition distinguishes thinking from other faculties of the human mind. Here Rodolphe Gasché is at his best: rigorous, scholarly, creative, forceful, laser-focused on the issues at stake, learned, thoughtful and original. He demands much of his readers but reading his work is rewarding in ways that can be profoundly affecting. Dennis J. Schmidt, author of *Between Word and Image*. Rodolphe Gasché has long been one of the most meticulous readers of texts on the philosophical scene and here he once again offers a master class in how to do philosophy through interpretation. Robert Bernasconi, author of *How to Read Sartre*.
