Global Dangers Sean M. Lynn-Jones, Steven E. Miller, 1995 Analyses some of the new

issues that are raising the temperature of contemporary world politics Environmental scarcity international migration and nationalism *Africans on the Move* Fassil Demissie, 2016-03-17 The 20th century witnessed the large scale displacement and dispersal of populations across the world because of major political upheavals among them the two European wars decolonization and the Cold War These major events were followed by globalization which accelerated free trade and the mobility of capital new technologies of communication and the movement of people commodities ideas and cultures across the world This book explores the complexity of African migration and diaspora the discourse of diaspora engagement and new models of citizenship and transnationalism in the context of these issues This book was originally published as a special issue of *African and Black Diaspora An International Journal* *The UNHCR and World Politics* Gil Loescher, 2001-05-25 Over fifty years ago governments established the Office of the United Nations High Commissioner for Refugees UNHCR to protect the world's refugees The UNHCR was created to be a human rights and advocacy organization But governments also created the agency to promote regional and international stability and to serve the interests of states Consequently the UNHCR has always trod a perilous path between its mandate to protect refugees and asylum seekers and the demands placed upon it by states to be a relevant actor in world politics This is the first independent history of the UNHCR Gil Loescher one of the world's leading experts on refugee affairs draws upon decades of personal experience and research to examine the origins and evolution of the UNHCR as well as to identify many of the major challenges facing the organization in the years ahead A key focus is to examine the extent to which the evolution of the UNHCR has been framed by the crucial events of international politics during the past half century and how in turn the actions of the eight past High Commissioners have helped shape the course of world history Each chapter tells the story of an individual High Commissioner and examines the unique contributions made to the development of the Office The history of the last fifty years shows how the UNHCR has initiated and capitalized on international political developments to progressively expand its scope and authority as an important actor in world politics The book argues that the UNHCR has overstretched itself in recent decades and has strayed from its central human rights protection role The protection of refugees remains a litmus test of the international community's commitment to defend human rights and to uphold liberal democratic values Loescher offers a series of bold policy recommendations aimed at making the agency a more effective and accountable advocate for the millions of refugees in the world today **Migrant Health and Resilience** Peter H. Koehn, Phyllis Bo-Yuen Ngai, Juha I. Uitto, Diana M. Diaków, 2023-07-31 In an era of escalating conflict induced and climate induced migration and cross border interaction transnational competence TC preparation for displaced persons members of their host communities humanitarian responders and health care professionals is increasingly critical Building on insights from those engaged with a range of humanitarian crises and global justice contexts along with multidisciplinary research findings this cutting edge volume provides practical guidelines for preparing stakeholders for effective short term and long term responses to challenges arising in the wake of

population dislocation generated by armed conflict persecution and climate change Addressing the need to equip humanitarian care givers and care receivers with valuable skills for working together across barriers and boundaries the guidance presented in the book enables educators trainers and field based multinational and local responders to enhance and evaluate the quality and sustainability of humanitarian efforts that promote and bolster resilience and belonging and augment well being justice and sustainable development It features comprehensive TC teaching and learning strategies coupled with tailored on site and remote approaches and methods Authoritative and insightful Migrant Health and Resilience will be essential reading for the staff of NGOs international organizations national and local governments and professional bodies working in development and humanitarian crisis contexts as well as for students higher education instructors scholars and evaluators

Immigration Judges and U.S. Asylum Policy Banks Miller,Linda Camp Keith,Jennifer S. Holmes,2015 Although there are legal norms to secure the uniform treatment of asylum claims in the United States anecdotal and empirical evidence suggest that strategic and economic interests also influence asylum outcomes Previous research has demonstrated considerable variation in how immigration judges decide seemingly similar cases which implies a host of legal concerns not the least of which is whether judicial bias is more determinative of the decision to admit those fleeing persecution to the United States than is the merit of the claim These disparities also raise important policy considerations about how to fix what many perceive to be a broken adjudication system With theoretical sophistication and empirical rigor Immigration Judges and U S Asylum Policy investigates more than 500 000 asylum cases that were decided by U S immigration judges between 1990 and 2010 The authors find that judges treat certain facts about an asylum applicant more objectively than others facts determined to be legally relevant tend to be treated similarly by judges of different political ideologies while facts considered extralegal are treated subjectively Furthermore the authors examine how local economic and political conditions as well as congressional reforms have affected outcomes in asylum cases concluding with a series of policy recommendations aimed at improving the quality of immigration law decision making rather than trying to reduce disparities between decision makers
