Regaining Paradise Englishness And The Early Garden City Movement:

Regaining Paradise Standish Meacham, Professor Standish Meacham, 1999-01-01 A consideration of the British social reform movement at the beginning of the 20th century through the lens of the Garden City Movement This was a plan to build new communities on open land to provide a healthy aesthetically pleasing environment free from overcrowding and pollution
Physical Culture and the Biopolitics of the International Garden City Movement Samuel M.

Clevenger, 2025-05-25 This book revisits the history of the international garden city town planning movement in the early twentieth century focusing on the significance of various forms of physical culture sport recreation leisure and other active body practices within garden city planning discourse and the development of some of the first garden city communities in the United Kingdom and United States
Storied Ground Paul Readman, 2018-02-22 The relationship between landscape and identity is explored to reveal how Englishness encompasses the urban and rural and the north and south

Ebenezer Howard Frances Knight, 2023 Ebenezer Howard 1850 1928 is famous worldwide for founding the Garden City movement and interest in him remains strong This is the first full scale biography to be published since the 1980s It explains the remarkable sequence of events that led from the publication of his ideas to the foundation of Letchworth as the world's First Garden City just five years later and it explores other neglected aspects of Howard's life particularly his religious views Shaped in the world of London Congregationalism he became a keen seeker after unity and peace He grafted new religious ideas particularly from Spiritualism and later from Theosophy into his biblically informed Protestant faith Prone to spiritual epiphanies he believed that he had been raised up to preach the gospel of the garden city and to tackle the housing crisis by beginning to build the New Jerusalem in the Hertfordshire countryside Although he sometimes appeared naive he was astute and highly skilled at combining different and sometimes conflicting ideas in a way that built consensus and gained support from people across the social and political spectrum Howard wanted his garden cities to be places of spiritual exploration and as this book shows early Letchworth certainly lived up to those expectations
Guano and the Opening of the

Pacific World Gregory T. Cushman, 2013-03-25 This book traces the history of bird guano demonstrating how this unique commodity helped unite the Pacific Basin with the industrialized world
Masques, Mayings and Music-dramas Roger Savage, 2014 *Masques Mayings and Music Dramas* comprises a sequence of in depth case studies of significant aspects of early twentieth century English music theatre Vaughan Williams forms a central thread in this discussion and Stratford upon Avon serves as a geographical focus point for mediating conflicting visions of an English musical tradition But the reach of the book is much wider shedding new light on English Wagnerism at Glastonbury especially and on the reception of Wagner's ideas as a point of emulation and resistance No less significant is the discussion of Purcell and the seventeenth century masque one of the primary sources for re-imagining an English dramatic tradition and the more familiar images of the May festival the Mummers play and the pageant play which are tellingly re-contextualised The book also looks at the associations

between Vaughan Williams the theatre artist Edward Gordon Craig and the impresario Serge Diaghilev The sequence is framed by the image of the pilgrim vagabond Vaughan Williams's setting of the poetry of Matthew Arnold and Robert Louis Stevenson as a metaphor and paradigm for his creative career and personal progress The book not only sheds light on the activities and ambitions of principal agents but also illuminates a particularly dynamic moment in the re-emergence of a distinctively English music theatrical practice one especially concerned with calling on aspects of the past to help to secure a worthwhile future Notions of Englishness turn out to be less insular than sometimes thought and the idea of a musical renaissance more complex when the case studies are understood in their proper historical context Scholars and students of twentieth century English music theatre and opera will find this volume indispensable Roger Savage is Honorary Fellow in English Literature at the University of Edinburgh He has published widely on theatre and its interface with music from the baroque to the twentieth century in leading journals and books

Cities of Affluence and Anger Peter J. Kalliney, 2007 Providing a compact literary history of the twentieth century in England *Cities of Affluence and Anger* studies the problematic terms of national identity during England's transition from an imperial power to its integration in the global cultural marketplace While the countryside had been the dominant symbol of Englishness throughout the previous century modern literature began to turn more and more to the city to redraw the boundaries of a contemporary cultural polity The urban class system paradoxically still functioned as a marker of wealth status and hierarchy throughout this long period of self examination but it also became a way to project a common culture and mitigate other forms of difference Local class politics were transformed in such a way that enabled the English to reframe a highly provisional national unity in the context of imperial disintegration postcolonial immigration and later globalization Kalliney plots the decline of the country house novel through an analysis of Forster's *Howards End* and Waugh's *Brideshead Revisited* each ruthless in its sabotage of

the trope of bucolic harmony The traditionally pastoral focus of English fiction gives way to a high modernist urban narrative exemplified by Woolf s Mrs Dalloway and later to realists such as Osborne and Sillitoe through whose work Kalliney explores postwar urban expansion and the cultural politics of the welfare state Offering fresh new readings of Lessing s The Golden Notebook and Rushdie s The Satanic Verses the author considers the postwar appropriation of domesticity the emergence of postcolonial literature and the renovation of travel narratives in the context of globalization Kalliney suggests that it is largely one city London through which national identity has been reframed How and why this transition came about is a process that Cities of Affluence and Anger depicts with exceptional insight and originality **City and Regional Planning**

Richard LeGates,2022-12-30 City and Regional Planning provides a clearly written and lavishly illustrated overview of the theory and practice of city and regional planning With material on globalization and the world city system and with examples from a number of countries the book has been written to meet the needs of readers worldwide who seek an overview of city and regional planning Chapters cover the history of cities and city and regional planning urban design and placemaking comprehensive plans planning politics and plan implementation planning visions and environmental transportation and housing planning The book pays special attention to diversity social justice and collaborative planning Topics include current practice in resilience transit oriented development complexity in planning spatial equity globalization and advances in planning methods It is aimed at U S graduate and undergraduate city and regional planning geography urban design urban studies civil engineering and other students and practitioners It includes extensive material on current practice in planning for climate change Each chapter includes a case study a biography of an important planner lists of concepts and important people and a list of books articles videos and other suggestions for further learning
