**Roman and Christian Imperialism** John Westbury-Jones,1939      **Roman and Christian Imperialism, Reissued J.**  
Westbury-Jones,1971      *Acts of the Apostles and the Rhetoric of Roman Imperialism* Drew W. Billings,2017      **Paul's**  
**Letter to the Romans and Roman Imperialism** Ian E Rock,2017-05-25 Ian E Rock demonstrates that the Letter to the  
Romans may be seen as an attempt by a subordinate group to redress actual and potential issues of confrontation with the  
Empire and to offer hope even in the face of death Paul demonstrates that it is God s peace and not Rome s peace that is  
important that loyalty to the exalted Jesus as Lord and to the kingdom of God not Jupiter and Rome leads to salvation that  
grace flows from Jesus as Christ and Lord and not from the benefactions of the Emperor If the resurrection of Jesus the  
crucified criminal of the Roman Empire demonstrates God s power over the universe and death the very instrument of Roman  
control then the Christ believer is encouraged to face suffering and death in the hope of salvation through this power Paul s  
theology emerges from and is inextricably bound to the politics of his day the Scriptures of his people and to the critical fact  
that the God who is One and Lord of all is still in charge of the world      Roman Defeat, Christian Response, and the Literary  
Construction of the Jew David M. Olster,2015-09-28 Olster explores Byzantine Christian reactions to the catastrophic Persian  
and Arab invasions challenging long held assumptions that divided religious from secular literature and exempted religion  
from contemporary social political and intellectual discourse      Roman Imperialism Sir John Robert Seeley,1871  
**Journal of Greco-Roman Christianity and Judaism, Volume 15** Stanley E. Porter,Matthew Brook O'Donnell,Wendy  
Porter,2020-11-19 Volume 15 2019 This is the fifteenth volume of the hard copy edition of a journal that has been published  
online www.jgrchj.net since 2000 As they appear the hard copy editions replace the online materials The scope of JGRChJ is  
the texts language and cultures of the Greco Roman world of early Christianity and Judaism The papers published in JGRChJ  
are designed to pay special attention to the larger picture of politics culture religion and language engaging as well with  
modern theoretical approaches      *Christianity, Empire, and the Making of Religion in Late Antiquity* Jeremy M.  
Schott,2013-04-23 In *Christianity Empire and the Making of Religion in Late Antiquity* Jeremy M Schott examines the ways in  
which conflicts between Christian and pagan intellectuals over religious ethnic and cultural identity contributed to the  
transformation of Roman imperial rhetoric and ideology in the early fourth century C E During this turbulent period which  
began with Diocletian s persecution of the Christians and ended with Constantine s assumption of sole rule and the  
consolidation of a new Christian empire Christian apologists and anti Christian polemicists launched a number of literary  
salvos in a battle for the minds and souls of the empire Schott focuses on the works of the Platonist philosopher and anti  
Christian polemicist Porphyry of Tyre and his Christian respondents the Latin rhetorician Lactantius Eusebius bishop of  
Caesarea and the emperor Constantine Previous scholarship has tended to narrate the Christianization of the empire in  
terms of a new religion s penetration and conquest of classical culture and society The present work in contrast seeks to

suspend the static essentializing conceptualizations of religious identity that lie behind many studies of social and political change in late antiquity in order to investigate the processes through which Christian and pagan identities were constructed Drawing on the insights of postcolonial discourse analysis Schott argues that the production of Christian identity and in turn the construction of a Christian imperial discourse were intimately and inseparably linked to the broader politics of Roman imperialism

**Orality, Literacy, and Colonialism in Antiquity** Jonathan A. Draper, 2004 Essays in this collection explore the complex relationship between text and orality in colonial situations of antiquity from Homer Plato and Mithras to the Hebrew and Christian scriptures and rabbinic tradition Orality could be a deliberate decision by highly literate people who chose not to put certain things in writing either to exercise control over the tradition or to preserve the secrecy of ritual performance Exploring both theoretical issues and historical questions the book demonstrates the role of text as a form of imperial control over against oral tradition as a means of resistance by the marginalized peasantry or marginalized elite of Israel and the early Church Paperback edition is available from the Society of Biblical Literature [www.sbl-site.org](http://www.sbl-site.org) [The Oxford Handbook of Postcolonial Biblical Criticism](#) R. S. Sugirtharajah, 2023 The Oxford Handbook of Postcolonial Biblical Criticism is a comprehensive treatment of a relatively new form of scholarship Generally speaking postcolonialism aims to critique and dismantle hegemonic worldviews and power structures while giving voice to previously marginalized peoples and systems of thought This approach has inevitably engaged with the text and reception of the Bible a scripture that Western colonizers introduced to and often imposed upon their colonial subjects With a globally diverse list of contributors the Handbook aims to cover the perspective and context of the authors of the Bible as well as the modern experiences of imperialism resistance decolonization and nationalism *Christianity, The Other, and The Holocaust* Michael R.

Steele, 2003-02-28 According to the author Christianity offers a powerful system of rewards and incentives to create cultural uniformity Those who do not join in this cultural uniformity become anathematized oppressed marginalized and ultimately removed from the Christian circle of moral obligation Using culture studies as a framework for analysis Steele investigates the ways in which Christianity created cultural conditions based on a theology of violence and the use of sacred violence to foster behaviors that would lead to the involvement of millions of perpetrators and bystanders during the many instances of extreme violence used against the Other over the centuries As the original Disconfirming Other in the Christian cultural world Jews often served as the primary target Thus there was a system of definitions rewards incentives and victims already in place when the Nazis came to power Calling for a re evaluation of the cultural practices and values that have developed within Christianity over time this important new book helps account for the phenomenon of the Nazi perpetrators and bystanders during the Holocaust Framing the Holocaust as a late but logical development in a long series of violent responses by Christianity to the Other those who stand outside the Christian world either by geographical accident religious tradition or some other factor the author attempts to show how the Holocaust while not a specifically Christian event was

nevertheless sanctioned and conditioned by other events in the history of Christianity Using culture studies to frame his analysis Steele focuses on historical antecedents that help account for the apathy of bystanders and point to the preexistence of a moral framework supporting and empowering the perpetrators of the Holocaust This unique perspective concludes that the Nazis invented almost nothing with regard to the Shoah and that instead a long standing insistence on cultural hegemony played a much bigger role in the attempted destruction of the Jewish community *Primitive Catholicism* Pierre Batiffol, 1911 **Survivals in Christianity** Charles James Wood, 1893 **Desiring Martyrs** Harry O. Maier, Katharina Waldner, 2020-12-16 Martyrs create space and time through the actions they take the fate they suffer the stories they prompt the cultural narratives against which they take place and the retelling of their tales in different places and contexts The title *Desiring Martyrs* is meant in two senses First it refers to protagonists and antagonists of the martyrdom narratives who as literary characters seek martyrs and the way they inscribe certain kinds of cultural and social desire Second it describes the later celebration of martyrs via narrative martyrdom acts monuments inscriptions martyria liturgical commemoration pilgrimage etc Here there is a cultural desire to tell or remember a particular kind of story about the past that serves particular communal interests and goals By applying the spatial turn to these ancient texts the volume seeks to advance a still nascent social geographical understanding of emergent Christian and Jewish martyrdom It explores how martyr narratives engage pre existing time space configurations to result in new appropriations of earlier traditions **Survivals in Christianity: studies in the theology of divine immanence, lectures** Charles James Wood, 1893 **The Oxford Handbook of the Hellenistic and Roman Near East** Rubina Raja, 2025 The Near East during the Hellenistic and Roman periods has been studied for centuries This Handbook includes fifty chapters written by experts from a variety of disciplines archaeology including classical near eastern and Islamic ancient history anthropology art history data and network science epigraphy and historiography Together these chapters shed a fresh light on the vast regions that made up Hellenistic and later Roman Syria and the Near East The material and written evidence from the region is considered side by side with historical sources as well as scientific data coming out of archaeological science and network science and shows how new knowledge about the region can be brought to the forefront of current literature on the subject The dynamic volatile diverse and culturally rich regions that this volume focuses on have left an abundant cultural heritage and in many places these regions are under constant threat In this Handbook knowledge about the newest research on a myriad of these regions sites and locations is highlighted together with overviews of the centuries long history of research The Handbook is essential for students scholars and the archaeologically inclined reader and constitutes the definitive collection of current research in the field Ambrose of Milan and Community Formation in Late Antiquity Ethan Gannaway, Robert L. Grant, 2021-03-08 Ambrose the first patrician bishop and a prolific writer of a broad range of works presents numerous opportunities for interdisciplinary research His participation in many social groups sometimes at odds with each other and sometimes

overlapping demanded flexibility The result is a protean figure whose motives are not always clear His own works and those of the scholars who contribute to this volume are accordingly multidisciplinary Fields such as theology especially historical theology history classics philosophy linguistics and aesthetics among others and the recent international research that belongs to them nuance the volume s investigation of Ambrose s actions and motivations The reader will find that Ambrose s efforts to create and to strengthen social cohesion included building relationships and erecting social structures set on the foundations of Nicaean Christianity against heresy and paganism A fusion of Graeco Roman and Judeo Christian intellectual traditions reinforced the solidarity Ambrose promoted These endeavors met with success then and continue to do so now as indicated by the modern community of scholars found within this book
