John G Pedley, 2012 If Indiana Jones had relied on trains      **Latin Inscriptions in the Kelsey Museum** Steven Tuck, 2010-03-23 The Latin inscriptions in the Kelsey Museum are among the best primary sources we have for documenting the lives of the lower classes in the Roman world They provide unique evidence of the details of Roman daily life including beliefs occupations families and attitudes toward death The 400 entries in this volume include all of the Latin inscriptions on stone or metal in the Kelsey Museum of Archaeology at the University of Michigan they represent the largest and arguably the most important collection of Latin inscriptions in the Western Hemisphere The collection is notable not just for its size but for the fact that almost all the inscriptions were acquired by purchase for their scholarly and educational value to the members of the university community Because of this the collection is also an important testimony to a seminal phase in the development of the study of Classics at the University of Michigan For the first time ever this project makes the Latin inscriptions of the Kelsey available in one volume and has provided an opportunity to reexamine some texts that have not been edited in over a century The commentaries for this edition have benefited from a wealth of recent scholarship resulting in some amended readings and reidentification of texts Steven L Tuck is Assistant Professor of Classics at Miami University of Ohio The Kelsey Museum Studies series edited by University of Michigan professors Elaine Gazda Margaret Cool Root and

John Pedley is designed to publish unusual material in the Museum's collections together with reports of current and past archaeological expeditions sponsored by the University of Michigan      Brickstamps of Constantinople Jonathan Bardill, 2004  
Brickstamps of Constantinople is the first major catalogue and analysis of stamped bricks manufactured in Constantinople and its vicinity in the Late Roman and Early Byzantine periods. The text discusses the organization of the brickmaking industry, the purpose of brickstamping and establishes for the first time a chronology for the brickstamps. On the basis of the conclusions, dates are proposed for previously undated buildings in the city and revised dates are given for other monuments.

The Beginning of Understanding Marti Lu Allen, 1991      The Cambridge Manual of Latin Epigraphy Alison E. Cooley, 2012-09-13  
This book advances our understanding of the place of Latin inscriptions in the Roman world. It enables readers, especially those new to the subject, to appreciate both the potential and the limitations of inscriptions as historical source material by considering the diversity of epigraphic culture in the Roman world and how it has been transmitted to the twenty-first century. The first chapter offers an epigraphic sample drawn from the Bay of Naples illustrating the dynamic epigraphic culture of that region. The second explores in detail the nature of epigraphic culture in the Roman world, probing the limitations of traditional ways of dividing up inscriptions into different categories and offering examples of how epigraphic culture developed in different geographical, social and religious contexts. It examines the life cycle of inscriptions: how they were produced, viewed, reused and destroyed. Finally, the third provides guidance on deciphering inscriptions, face to face and handling specialist epigraphic publications.      Pen, Print and Communication in the Eighteenth Century Caroline Archer-Parré, Malcolm Dick, 2020  
This volume considers writing and printing in parallel; it highlights the intersections between the two methods of communication, considers how writing and printing were deployed in the construction of personal and cultural identities and explores the production, distribution and consumption of private and public letters, words and texts during the eighteenth century.      **Epigraphic Evidence** John Bodel, 2012-11-12  
Epigraphic Evidence is an accessible guide to the responsible use of Greek and Latin inscriptions as sources for ancient history. It introduces the types of historical information supplied by inscriptional texts and the methods with which they can be used. It outlines the limitations as well as the advantages of the different types of evidence covered. Epigraphic Evidence includes a general introduction, a guide to the arrangement of the standard corpora, inscriptions and individual chapters on local languages and native cultures, epitaphs and the ancient economy, amongst others.      **Dolia** Caroline Cheung, 2024-04-23  
The story of the Roman Empire's enormous wine industry told through the remarkable ceramic storage and shipping containers that made it possible. The average resident of ancient Rome drank two hundred and fifty liters of wine a year, almost a bottle a day, and the total annual volume of wine consumed in the imperial capital would have overflowed the Pantheon. But Rome was too densely developed and populated to produce its own food, let alone wine. How were the Romans able to get so much wine? The key was the dolium, the ancient world's largest type of ceramic wine and food storage and shipping container, some of which could

hold as much as two thousand liters In *Dolia* classicist and archaeologist Caroline Cheung tells the story of these vessels from their emergence and evolution to their major impact on trade and their eventual disappearance Drawing on new archaeological discoveries and unpublished material *Dolia* uncovers the industrial and technological developments the wide variety of workers and skills and the investments behind the Roman wine trade As the trade expanded potters developed new techniques to build large standardized *dolia* for bulk fermentation storage and shipment *Dolia* not only determined the quantity of wine produced but also influenced its quality becoming the backbone of the trade As *dolia* swept across the Mediterranean and brought wine from the far reaches of the empire to the capital s doorstep these vessels also drove economic growth from rural vineyards and ceramic workshops to the wine shops of Rome Placing these unique containers at the center of the story *Dolia* is a groundbreaking account of the Roman Empire s Mediterranean wide wine industry *The Lives and Deaths of Women in Ancient Pompeii* Brenda Longfellow,2025 A study of women s lives in the public sphere of the ancient city of Pompeii ***The Routledge Companion to Women and Monarchy in the Ancient Mediterranean World*** Elizabeth D.
