**The Roman Eastern Frontier and the Persian Wars AD 226-363** Michael H. Dodgeon, Samuel N. C. Lieu, 2002-11 Collects and translates such diverse sources as Zosimus John Malalas Al Tabari and Moses of Chorene to give us a picture of this complex fraught period of Roman history *Rome in the East* Warwick Ball, 2002-01-04 From Rome's legendary foundation by Aeneas and the Trojan heroes as the New Troy through installing Arabs as Roman emperors to the eventual foundation of the new Rome by a latter day Aeneas at Constantinople the East took over Rome and Rome ultimately ditched Europe to the Barbarians Through this obsession Near Eastern civilisation most of all Christianity went West to transform Europe Warwick Ball argues that the story of Rome is the story of the East more than the story of the West Jacket *The Cambridge Ancient History* Peter Garnsey, Averil Cameron, 1928

**Representations of Empire** Alan K. Bowman, Hannah M. Cotton, Martin Goodman, Simon Price, 2002-10-10 The essays in this volume cover the whole of the period in which Rome dominated the Mediterranean world The belief shared by all the contributors is that the Roman empire is best understood from the standpoint of the Mediterranean world looking in to Rome rather than from Rome looking out The papers focus on the development of political institutions in Rome itself and in her empire and on the nature of the relationship between Rome and her provincial subjects They also discuss historiographical approaches to different kinds of source material literary and documentary including the major Roman historians the evidence for the pre Roman near east and the Christian writers of later antiquity This volume reflects the immense complexity of the political and cultural history of the ancient Mediterranean from the late Republic to the age of Augustine *The Archaeology of Imperial Landscapes* Bleda S. Düring, Tessa D. Stek, 2018-03-29 This book examines the poorly understood transformations in rural landscapes and societies that formed the backbone of ancient empires

*Driven by the Monsoons* Barry Cunliffe, 2025-03-14 The Silk Road may be one origin of globalization but the Indian Ocean is another Barry Cunliffe examines the beginning of maritime trade using the evidence of archaeology and the tales of great travellers such as Marco Polo Ibn Battuta and the Chinese Admiral Zheng He This story complements that of the land routes showing how humans have been driven across thousands of years to create and maintain networks whatever the difficulties *Driven by the Monsoons* illuminates maritime connections between the Indian Ocean and its surrounding water routes the Arabian Gulf and the Red and China Seas It begins with the movement of humans into South East Asia and ends about 1600 CE when European companies emerge to takeover It is tale of exotic goods material needs adventure and desire While conditions at sea and the abilities of the maritime communities provided a degree of stability the direction and intensity of trade and the types of commodities on the move was determined by the fortunes and aspirations of distant empires those of China in the east and South West Asia and the Mediterranean in the west This ever changing pressure provided the dynamic situation in which society and economies in East Africa India and South East Asia flourished *Driven by the Monsoons* explores the birth of the modern connected world

**By Steppe, Desert, and Ocean** Barry Cunliffe, 2015-09-24 By Steppe Desert and Ocean is nothing less than the story of how humans first started building the globalized world we know today Set on a huge continental stage from Europe to China it is a tale covering over 10 000 years from the origins of farming around 9000 BC to the expansion of the Mongols in the thirteenth century AD An unashamedly big history it charts the development of European Near Eastern and Chinese civilizations and the growing links between them by way of the Indian Ocean the silk Roads and the great steppe corridor which crucially allowed horse riders to travel from Mongolia to the Great Hungarian Plain within a year Along the way it is also the story of the rise and fall of empires the development of maritime trade and the shattering impact of predatory nomads on their urban neighbours Above all as this immense historical panorama unfolds we begin to see in clearer focus those basic underlying factors the acquisitive nature of humanity the differing environments in which people live and the dislocating effect of even slight climatic variation which have driven change throughout the ages and which help us better understand our world today

De Giorgi, A. Asa Eger, 2021-05-30 Winner of ASOR s 2022 G Ernest Wright Award for the most substantial volume dealing with archaeological material excavation reports and material culture from the ancient Near East and Eastern Mediterranean This is a complete history of Antioch one of the most significant major cities of the eastern Mediterranean and a crossroads for the Silk Road from its foundation by the Seleucids through Roman rule the rise of Christianity Islamic and Byzantine conquests to the Crusades and beyond Antioch has typically been treated as a city whose classical glory faded permanently amid a series of natural disasters and foreign invasions in the sixth and seventh centuries CE Such studies have obstructed the view of

Antioch's fascinating urban transformations from classical to medieval to modern city and the processes behind these transformations. Through its comprehensive blend of textual sources and new archaeological data reanalyzed from Princeton's 1930s excavations and recent discoveries, this book offers unprecedented insights into the complete history of Antioch, recreating the lives of the people who lived in it and focusing on the factors that affected them during the evolution of its remarkable cityscape. While Antioch's built environment is central, the book also utilizes landscape archaeological work to consider the city in relation to its hinterland and numismatic evidence to explore its economics. The outmoded portrait of Antioch as a sadly perished classical city par excellence gives way to one in which it shines as brightly in its medieval, Islamic, Byzantine, and Crusader incarnations. **Antioch: A History** offers a new portal to researching this long-lasting city and is also suitable for a wide variety of teaching needs, both undergraduate and graduate, in the fields of classics, history, urban studies, archaeology, Silk Road studies, and Near Eastern/Middle Eastern studies. Just as importantly, its clarity makes it attractive for and accessible to a general readership outside the framework of formal instruction.

**Rome and the Enemy** Susan P. Mattern, 2023-04-28. How did the Romans build and maintain one of the most powerful and stable empires in the history of the world? This illuminating book draws on the literature, especially the historiography composed by the members of the elite who conducted Roman foreign affairs. From this evidence, Susan P. Mattern reevaluates the roots, motivations, and goals of Roman imperial foreign policy, especially as that policy related to warfare. In a major reinterpretation of the sources, **Rome and the Enemy** shows that concepts of national honor, fierce competition for status, and revenge drove Roman foreign policy, and though different from the highly rationalizing strategies often attributed to the Romans, dictated patterns of response that remained consistent over centuries. Mattern reconstructs the world view of the Roman decision makers, the emperors, and the elite from which they drew their advisers. She discusses Roman conceptions of geography, strategy, economics, and the influence of traditional Roman values on the conduct of military campaigns. She shows that these leaders were more strongly influenced by a traditional, stereotyped perception of the enemy and a drive to avenge insults to their national honor than by concepts of defensible borders. In fact, the desire to enforce an image of Roman power was a major policy goal behind many of their most brutal and aggressive campaigns. **Rome and the Enemy** provides a fascinating look into the Roman mind, in addition to a compelling reexamination of Roman conceptions of warfare and national honor. The resulting picture creates a new understanding of Rome's long mastery of the Mediterranean world. How did the Romans build and maintain one of the most powerful and stable empires in the history of the world? This illuminating book draws on the literature, especially the historiography composed by the members of the elite who conducted Roman foreign
