The Roman Wall (Illustrations) Rev. John Collingwood Bruce,2015-11-03 The famous Roman Wall which in former times protected southern Britain from the ravages of the northern tribes exhibits at this day remains more entire and forms a subject of study more interesting than is generally supposed Two authors of great learning have treated of this renowned structure Horsley in the *Britannia Romana* and Hodgson in the last volume of his *History of Northumberland* Both are treatises of considerable size and both are to a certain extent rare The *Britannia Romana* moreover describes the Wall not as it is but as it was more than a century ago Hodgson's work is of recent date and forms a valuable storehouse of nearly all that is known upon the subject The mind however of that amiable man and zealous antiquary was at the time of its preparation bending under the weight of his ill requited labours and he has failed to present his ample materials to the reader in that

condensed and well arranged form which distinguishes his previous volumes and without which a book on antiquities will not arrest the attention of the general reader The following work may be regarded as introductory to the elaborate productions of Horsley and Hodgson The reader is not assumed to be acquainted with the technicalities of arch ology and at each advancing step the information is supplied which may render his course easy I have not attempted in the last part of the work to enumerate all the altars and inscribed stones which have been found upon the line of the Wall but have made a selection of those which are most likely to interest the general reader and to give him a correct idea of the nature and value of these remains In the body of the work I have endeavoured to furnish a correct delineation of the present condition of the Wall and its outworks All my descriptions are the result of personal observation To secure as great accuracy as possible I have read over many of my proof sheets on the spot which they describe The pictorial illustrations have been prepared with care and will give the reader who is not disposed to traverse the ground a correct idea of the state of the Barrier The wood cuts and plates illustrative of the antiquities found on the line have with the exception of a few coins introduced into the first Part of the volume and copied from the Monumenta Historica been prepared from original drawings taken for this work from the objects themselves I am not without hope that the well read antiquary will value these delineations for their beauty and accuracy To be continue in this ebook **Handbook to the Roman Wall (Classic Reprint)** J. COLLINGWOOD.
