Roman Gaul And Germany:

Roman Gaul and Germany Anthony King, 1990-01-01 Looks at Roman ruins in France and Germany including recent finds and describes what life was like under the reign of the Roman Empire Roman Gaul Charles River Charles River Editors, 2018-08-23 Includes pictures Includes ancient accounts Includes online resources and a bibliography for further reading In the minds of most people today Gaul equates to modern France However the vast geographical area that Caesar named Gaul in fact was made up of a number of very distinct regions and covered in addition to modern day France Belgium Luxembourg parts of the Netherlands Germany Switzerland and Northern Italy The Romans called the northern area of the Italian peninsula which is now part of modern Italy Cisalpine Gaul or Gaul on this side of the Alps Early Romans did not even consider this region as part of Italy and repeated incursions southwards and the sacking of Rome itself in 390 BCE resulted in Rome taking full control of the area in 221 BCE and thoroughly Romanizing it to the extent that even the Celtic language totally disappeared and was replaced by Latin The region was initially a province but by the beginning of the 1st century BCE it had become fully integrated into the Roman heartland and became an administrative region of Italy rather than a province Ironically the Roman Republic's development from a city state into a world power that controlled large swathes of modern Italy Gaul and Spain as well as other parts of Europe is seen by many as being the direct result of Roman fear of the Celtic Threat The sacking of Rome by the Gauls in 386 BCE became indelibly imprinted into the Roman psyche and with this fear came a desire to put as much distance as possible between the city of Rome and any potential enemy The result was the gradual acquisition of buffer zones that became provinces of an empire that grew without any particular thought out or deliberate strategy of expansion The Gallic Wars the series of campaigns waged by Caesar on behalf of the Roman Senate between 58-50 BCE were among the defining conflicts of the Roman era Not only was the expansion of the Republic's domains unprecedented especially when considering it was undertaken under the auspices of a single general it had a profound cultural impact on Rome itself as well The Roman Republic so dynamic in the wake of the destruction of their ancient enemy Carthage had recently suffered a series of dramatic upheavals from the great slave rebellion of Spartacus to the brutal and bloody struggle for power of Marius and Sulla Rome had been shaken to its very core and a victory was essential both to replenish the dwindling national coffers and to instill in the people a sense of civic pride and a certainty in the supremacy of the Republic Augustus and his successors then began a program of Romanization that in a remarkably short period of time transformed Gaul into four provinces All of these locales added enormously to the Roman Empire in terms of manpower material goods and wealth Even today historians are amazed at how such a large population that was not without its own systems of administration and vibrant culture and tradition could so easily succumb to Rome's pacification process and to such an extent that within short periods of time the indigenous language and traditions of the Celtic peoples of Gaul were totally supplanted The reasons why Rome was able to subjugate and then transform what was for that time an

immense population of over 10 million people lie not only in its military superiority but its system of organization and its conscious program of Romanization Roman Gaul The History of Gaul as a Province of the Ancient Roman Empire looks at Caesar's famous conquest and what Gaul was like for the next 5 centuries until the dissolution of history's most famous empire Along with pictures depicting important people places and events you will learn about Roman Gaul like never before

The World from 1000 BCE to 300 CE Stanley Mayer Burstein, 2017 This book provides the first comprehensive history of Afro Eurasia during the first millennium BCE and the beginning of the first millennium CE The history of these 1300 plus years can be summed up in one word connectivity The growth in connectivity during this period was marked by increasing political economic and cultural interaction throughout the region and the replacement of the numerous political and cultural entities by a handful of great empires at the end of the period In the process local cultural traditions were replaced by great traditions rooted in lingua francas and spread by formalized educational systems This process began with the collapse of the Bronze Age empires in the east and west widespread population movements and almost chronic warfare throughout Afro Eurasia while the cavalry revolution transformed the nomads of the central Asian steppes into founders of tribal confederations assembled by charismatic leaders and covering huge territories At the same time new artistic and intellectual movements appeared including the teachings of Socrates Confucius the Buddha and Laozi Increased literacy also allowed people from a wide range of social classes such as the Greek soldier Xenophon the Indian Buddhist emperor Ashoka the Roman emperor Marcus Aurelius and elite women such as the poetess Sappho the Christian martyr Perpetua and the scholar Ban Zhao to create literary works When the period ended in 300 CE conditions had changed dramatically Temperate Afro Eurasia from the Atlantic to the Pacific was dominated by a handful of empires Rome Sassanid Persia and Jin Empire that ruled more than half the world's population while an extensive network of trade routes bound them to Southeast and Central Asia and Sub Saharan Africa and made possible the spread of new book based religions including Christianity Manichaeism Zoroastrianism and Buddhism thereby setting the stage for the next millennium of Afro Eurasian history
