Myers, 2023-04-28 Born in 70 BCE the Roman poet Vergil came of age during a period of literary experimentalism among Latin authors These authors introduced new Greek verse forms and metres into the existing repertoire of Latin poetic genres and measures foremost among them being elegy a genre that the ancients thought originated in funeral lament but which in classical Rome became first person poetry about the poet lover's amatory vicissitudes Despite the influence of notable elegists on Vergil's early poetry his critics have rarely paid attention to his engagement with the genre across his body of work This collection is devoted to an exploration of Vergil's multifaceted relations with elegy Contributors shed light on Vergil's interactions with the genre and its practitioners across classical medieval and early modern periods The book investigates Vergil's hexameter poetry in relation to contemporary Latin elegy by Gallus Tibullus and Propertius and the subsequent reception of Vergil's radical combination of epic with elegy by later Latin and Italian authors Filling a striking gap in the scholarship Vergil and Elegy illuminates the famous poet's wide ranging engagement with the genre of elegy across his oeuvre      [T. **Time, History, and Literature** Erich Auerbach,2021-08-10 Important essays from one of the giants of literary criticism including a dozen published here in English for the first time Erich Auerbach 1892-1957 best known for his classic literary study *Mimesis* is celebrated today as a founder of comparative literature a forerunner of secular criticism and a prophet of global literary studies Yet the true depth of Auerbach's thinking and writing remains unplumbed *Time History and Literature* presents a wide selection of Auerbach's essays many of which are little known outside the German speaking world Of the twenty essays culled for this volume from the full length of his career twelve have never appeared in English before and one is being published for the first time Foregrounded in this major new collection are Auerbach's complex relationship to the Judaeo-Christian tradition his philosophy of time and history and his theory of human ethics and responsible action Auerbach

effectively charts out the difficult discovery in the wake of Christianity of the sensuous the earthly and the human and social worlds A number of the essays reflect Auerbach s responses to an increasingly hostile National Socialist environment These writings offer a challenging model of intellectual engagement one that remains as compelling today as it was in Auerbach s own time

**The Gospels and Homer** Dennis R. MacDonald,2014-11-05 These two volumes of The New Testament and Greek Literature are the magnum opus of biblical scholar Dennis R MacDonald outlining the profound connections between the New Testament and classical Greek poetry MacDonald argues that the Gospel writers borrowed from established literary sources to create stories about Jesus that readers of the day would find convincing In The Gospels and Homer MacDonald leads readers through Homer s Iliad and Odyssey highlighting models that the authors of the Gospel of Mark and Luke Acts may have imitated for their portrayals of Jesus and his earliest followers such as Paul The book applies mimesis criticism to show the popularity of the targets being imitated the distinctiveness in the Gospels and evidence that ancient readers recognized these similarities Using side by side comparisons the book provides English translations of Byzantine poetry that shows how Christian writers used lines from Homer to retell the life of Jesus The potential imitations include adventures and shipwrecks savages living in cages meals for thousands transfigurations visits from the dead blind seers and more MacDonald makes a compelling case that the Gospel writers successfully imitated the epics to provide their readers with heroes and an authoritative foundation for Christianity

*Preposterous Virgil* Juan Christian Pellicer,2022-06-02 This study in reception develops close readings of English literature as means of interrogating Virgil s texts Through four case studies bookended by wide ranging introductory and concluding chapters this book shows how interpreting the Eclogues Georgics and Aeneid through modern responses can serve to focus on aspects of Virgil that would otherwise be differently perceived or else escape notice altogether Juan Christian Pellicer probes our perceptions of the three Virgilian genres pastoral georgic and epic and analyzes the ways in which modern reconfigurations of these genres can inform our readings of Virgil s works as well as help us realize how our own ideas about Virgil reflect the literary receptions through which we approach his texts This book offers a practical demonstration of classical reception and its value as a critical procedure By testing the value of modern responses to Virgil as means by which to read his texts Pellicer critically examines a central tenet of reception studies of classical authors namely that our understanding of their work can benefit from the receptions through which we perceive them The reader will find Virgil s texts reconfigured in challenging new ways and will find new appreciations of the classical traditions that inform key texts in the English canon

Finding Italy Kristopher Fletcher, 2014-11-24 Finding Italy explores the journey of the Romans ancestor Aeneas and his fellow Trojans from their old home Troy to their new country Italy narrated in Vergil's epic poem Aeneid K F B Fletcher argues that a main narrative theme is patriotism specifically the problem of how one comes to love one's new country The various directions Aeneas receives throughout the first half of the poem are meant to create this love explaining both to Aeneas and to Vergil's readers how they should respond to the new unified Italy synonymous with Rome These directions come from the gods or from people close to Aeneas who have divine connections and they all serve to instill an emotional connection to the land creating a mental image of Italy that tells him far more about his destination than merely its location and ultimately making him fall in love with Italy enough to fight for it soon after his arrival The poem thus dramatizes the birth of nationalism as Italy is only a concept to Aeneas throughout his trip these directions do not describe Italy as it is at the time of Aeneas journey but as an ideal to be realized by Aeneas and his descendants reaching its final perfect form under Augustus Caesar Finding Italy provides a very detailed reading of the directions Aeneas receives by situating them within their relevant contexts ancient geography Greek colonization narratives prophecy and ancient views of wandering Vergil draws on all of these concepts to craft instructions that create in Aeneas an attachment to Italy before he ever arrives a process that dramatizes a key emotional problem in the late first century BCE in the wake of the Social and Civil Wars how to balance the love of one's modest birthplace with the love of Rome the larger city that now encompasses it
