Andrew Gerstle, Chikamatsu, 2002-09-04 Chikamatsu Monzaemon 1653 1725 often referred to as Japan's Shakespeare and a god of writers was arguably the most famous playwright in Japanese history and wrote more than 100 plays for the kabuki and bunraku theaters Today the plays of this major literary figure are performed on kabuki and bunraku stages as well as in the modern theater and forty nine films of his plays have been made thirty one of them from the silent era Translations of Chikamatsu's plays are available but we have few examples of his late work in which he increasingly incorporated stylistic elements of his shorter contemporary dramas into

his longer period pieces Translator C Andrew Gerstle argues that in these mature history plays Chikamatsu depicted the tension between the private and public spheres of society by combining the rich character development of his contemporary pieces with the larger political themes of his period pieces In this volume Gerstle translates five plays four histories and one contemporary piece never before available in English that complement other collections of Chikamatsu's work revealing new dimensions to the work of this great Japanese playwright and artist *Mao's Road to Power* Stuart Schram, 2018-10-24 By 1939 Mao Zedong was a leader in the Chinese Communist Party through his political acumen his organizing energy and his executive ability At the same time his abilities to shift register to maintain a sense of the whole and also of the particular and to absorb seemingly contradictory realities in the social political and military arenas he *Auction Catalogs, Hodgson's Rooms* Sotheby Parke Bernet & Co, 1972 **DAYS** Tsuyoshi Yasuda, 2017 Growing up Tsukushi Tsukamoto never had an athletic bone in his body but now in his first year at the prestigious Seiseki High School he finds himself in their world class soccer club At his first inter high school training camp Tsukushi's characteristic can-do spirit finds him leading the way for Seiseki Little by little he wins them over and earns their acceptance as one of their own Then at the Japan Inter High School Championship regional preliminaries the official blows the whistle and the game starts along with Tsukushi's life as a true soccer player *Fact in Fiction* Kristin Stapleton, 2016-08-17 Historical novels can be windows into other cultures and eras but it's not always clear what's fact and what's fiction Thousands have read Ba Jin's influential novel *Family* but few realize how much he shaped his depiction of 1920s China to suit his story and his politics In *Fact in Fiction* Kristin Stapleton puts Ba Jin's bestseller into full historical context both to illustrate how it successfully portrays human experiences during the 1920s and to reveal its historical distortions Stapleton's attention to historical evidence and clear prose that directly addresses themes and characters from *Family* create a book that scholars students and general readers will enjoy She focuses on Chengdu China Ba Jin's birthplace and the setting for *Family* which was also a cultural and political center of western China The city's richly preserved archives allow Stapleton to create an intimate portrait of a city that seemed far from the center of national politics of the day but clearly felt the forces of and contributed to the turbulent stream of Chinese history *China's Governance Puzzle* Jonathan R. Stromseth, Edmund J. Malesky, Dimitar D. Gueorguiev, 2017-02-27 China is widely viewed as a global powerhouse that has achieved a remarkable economic transformation with little political change Less well known is that China's leaders have also implemented far-reaching governance reforms designed to promote government transparency and increase public participation in official policymaking What are the motivations behind these reforms and more importantly what impact are they having This puzzle lies at the heart of Chinese politics and could dictate China's political trajectory for years to come This extensive collaborative study not only documents the origins and scope of these reforms across China but offers the first systematic assessment by quantitatively and qualitatively analyzing the impact of participation and transparency on important governance outcomes Comparing across provinces and over time the authors

argue that the reforms are resulting in lower corruption and enhanced legal compliance but these outcomes also depend on a broader societal ecosystem that includes an active media and robust civil society

Revolutionary States, Leaders, and Foreign Relations Houman A. Sadri, 1997-04-16 This book compares and contrasts the foreign relations strategies of China, Cuba, and Iran in the first decade of their post revolutionary periods. Among a variety of explanatory variables, leadership, particularly the type of revolutionary leaders, played a significant role in explaining the outcome of the policymaking process in each case. Three distinct patterns of foreign relations strategies are evident among all three revolutionary regimes in the ten year period: Two Track, Conflictual, and Conciliatory. This book is a valuable source for both experts and non experts alike in providing insight into the foreign relations of revolutionary regimes in developing countries and in helping U.S. policymakers anticipate behaviors of future revolutionary leaders. A focal point of this book is the examination of the nonalignment strategies of these prominent developing countries during the infancy of their regimes. Each state's particular strategy is described and explained in detail and then contrasted and compared. Although there are differences among their foreign policies, considering their geographic locations, size, wealth, military capabilities, leadership characteristics, and political institutions, there are significant similarities regarding their foreign policy goals and trends in their foreign relations with the Great Powers. Among explanatory factors, leadership played a significant role in the policy making process, although the foreign relations strategies of these revolutionary regimes were fed by a combination of national and international variables. In all three states, the tone of foreign policy was set by revolutionary leaders who were either idealists or realists. Idealists tended to take a more active and conflictual approach toward one or both of the superpowers, while Realists were more cautious and less willing to resort to a conflictual posture. This book also investigates the gap between the theoretical and practical nonalignment stance of each state. This cross regional study provides policy analysts with clues about the foreign policies of other revolutionary developing countries in similar situations. Finally, it makes suggestions about how a Great Power may relate to a developing country during its first post revolution decade.
