P. Allison, 1997 These efforts have shed light not only on the history of the villa itself but also on the shifting focus of power over the course of a millennium at the sites associated with Castle Copse in the immediate region the Iron Age hillfort of Chisbury a post Roman settlement and a Saxon village destined to become an urban center *The Art of Roman Britain* Martin Henig, 2002-11 With the help of over 100 illustrations many of them little known Martin Henig shows that the art produced in Britannia rivals that of other provinces and deserves comparison with the art of metropolitan Rome British and Irish Archaeology, 1994 **Villas, Sanctuaries and Settlement in the Romano-British Countryside** Martin Henig, Grahame Soffe, Kate Adcock, Anthony King, 2023-03-02 This volume brings together a range of papers on buildings that have been categorised as villas mainly in Roman Britain from the Isle of Wight to Shropshire It comprises the first such survey for almost half a century **Raman Spectroscopy in Archaeology and Art History** Peter Vandenabeele, Howell G. M. Edwards, 2018 Volume 1 Raman spectroscopy allows the non destructive examination of objects of archaeological and historical importance to characterise their chemical composition and structure and help determine their provenance The authors give an explanation of Raman spectroscopy and an introduction to the techniques used Seventeen case studies are given to show work on dyes and pigments artefacts biological materials and degradation and jewellery and precious stones It also describes a database of 74 Raman spectra of standard minerals of relevance to metal corrosion stained glass and prehistoric rock art **Wall-painting in Roman Britain** Norman Davey, Roger Ling, 1982 *Cardiff* John R. Kenyon, Diane M. Williams, 2020-07-16 This book acts as a stimulus to further debate and discussion about the archaeology and architecture of the medieval diocese of Llandaff It presents work at Cardiff and Skenfrith castles and focuses on buildings at Caldicot and Raglan Cultural Identity in the Roman Empire Dr Joanne Berry, Joanne Berry, Ray Laurence, 2002-09-11 This provocative and often controversial volume examines concepts of ethnicity citizenship and nationhood to determine what constituted cultural identity in the Roman Empire The contributors draw together the most recent research and use diverse theoretical and methodological perspectives from archaeology classical studies and ancient history to challenge our basic assumptions of Romanization and how parts of Europe became incorporated into a Roman culture *Cultural Identity in the Roman Empire* breaks new ground arguing that the idea of a unified and easily defined Roman culture is over simplistic and offering alternative theories and models This well documented and timely book presents cultural identity throughout the Roman empire as a complex and diverse issue far removed from the previous notion of a dichotomy between the Roman invaders and the Barbarian conquered *Romano-British Mosaic Pavements* Thomas

Morgan,1886 *The Roman Villa in Britain* A.L.F. Rivet,2024-08-28 *The Roman Villa in Britain* 1969 is a comprehensive examination of Roman villas in Romano Britain in a series of essays by six specialists H C Bowen well known for his work on early field systems examines the evidence for the native Celtic agriculture which was practised in pre Roman Britain and continued to form the basis of the country s economy after the conquest The ground plans of the villas and their implications are discussed by Sir Ian Richmond while David Smith considers the mosaic pavements both as implications of the wealth of their owners and as evidence for the existence of distinct local schools of mosaicists Joan Liversidge deals with internal decoration and furnishing A L F Rivet reflects on the social and economic implications of the changing fortunes of the villas and Graham Webster discusses the future of villa studies from the standpoint of the modern excavator **The Early Modern Grotesque** Liam Semler,2018-10-26 *The Early Modern Grotesque English Sources and Documents 1500 1700* offers readers a large and fully annotated collection of primary source texts addressing the grotesque in the English Renaissance The sources are arranged chronologically in 120 numbered items with accompanying explanatory Notes Each Note provides clarification of difficult terms in the source text locating it in the context of early modern English and Continental discourses on the grotesque The Notes also direct readers to further English sources and relevant modern scholarship This volume includes a detailed introduction surveying the vocabulary form and meaning of the grotesque from its arrival as a word concept and aesthetic in 16th century England to its early maturity in the 18th century The Introduction Items and Notes complemented by illustrations and a comprehensive bibliography provide an unprecedented view of the evolving complexity and diversity of the early modern English grotesque While giving due credit to Wolfgang Kayser and Mikhail Bakhtin as masters of grotesque theory this ground breaking book aims to provoke new evidence based approaches to understanding the specifically English grotesque The textual archive from 1500 1700 is a rich and intriguing record that offers much to interested readers and researchers in the fields of literary studies theatre studies and art history [Sacred Landscapes in Antiquity](#) Ralph Haussler,Gian Franco Chiai,2020-07-31 From generation to generation people experience their landscapes differently Humans depend on their natural environment it shapes their behavior while it is often felt that deities responsible for both natural benefits and natural calamities such as droughts famines floods and landslides need to be appeased We presume that in many societies lakes rivers rocks mountains caves and groves were considered sacred Individual sites and entire landscapes are often associated with divine actions mythical heroes and etiological myths Throughout human history people have also felt the need to monumentalize their sacred landscape But this is where the similarities end as different societies had very different understandings believes and practices The aim of this new thematic appraisal is to scrutinize carefully our evidence and rethink our methodologies in a multi disciplinary approach More than 30 papers investigate diverse sacred landscapes from the Iberian peninsula and Britain in the west to China in the east They discuss how to interpret the intricate web of ciphers and symbols in the landscape and how people might have experienced it We see the

role of performance ritual orality textuality and memory in people's sacred landscapes A diachronic view allows us to study how landscapes were rewritten adapted and redefined in the course of time to suit new cultural political and religious understandings not to mention the impact of urbanism on people's understandings A key question is how was the landscape manipulated transformed and monumentalized especially the colossal investments in monumental architecture we see in certain socio historic contexts or the creation of an alternative humanmade seemingly non natural landscape with perfectly astronomically aligned buildings that define a cosmological order Sacred Landscapes therefore aims to analyze the complex links between landscape religiosity and society developing a dialectic framework that explores sacred landscapes across the ancient world in a dynamic holistic contextual and historical perspective **An Imperial Possession** David

Mattingly, 2008-05-27 Part of the Penguin History of Britain series An Imperial Possession is the first major narrative history of Roman Britain for a generation David Mattingly draws on a wealth of new findings and knowledge to cut through the myths and misunderstandings that so commonly surround our beliefs about this period From the rebellious chiefs and druids who led native British resistance to the experiences of the Roman military leaders in this remote dangerous outpost of Europe this book explores the reality of life in occupied Britain within the context of the shifting fortunes of the Roman Empire *Ancient Greece and Rome* Keith Hopwood, 1995 Sir Thomas Fairfax not Oliver Cromwell was creator and

commander of Parliament's New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax's relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally **The Art of Empire** Lee

M. Jefferson, Robin M. Jensen, 2015-10-01 In recent years art historians such as Johannes Deckers *Picturing the Bible* 2009 have argued for a significant transition in fourth and fifth century images of Jesus following the conversion of Constantine Broadly speaking they perceive the image of a peaceful benevolent shepherd transformed into a powerful enthroned Jesus mimicking and mirroring the dominance and authority of the emperor The powers of church and state are thus conveniently synthesized in such a potent image This deeply rooted position assumes that ante pacem images of Jesus were uniformly humble while post Constantinian images exuded the grandeur of power and glory The Art of Empire contends that the art and imagery of Late Antiquity merits a more nuanced understanding of the context of the imperial period before and after Constantine The chapters in this collection each treat an aspect of the relationship between early Christian art and the rituals

practices or imagery of the Empire and offer a new and fresh perspective on the development of Christian art in its imperial background

The Roman House in Britain Dominic Perring, 2002-09-11 This authoritative and original work sets the results of recent archaeological research in the context of classical scholarship as it explores three main aspects of Romano British buildings general characteristics of form and structure the ways in which they were built and decorated the range of activities for which they were designed This evidence is then used to discuss the social practices and domestic arrangements that characterised Romano British elite society Fully illustrated this volume is the essential guide to how houses were built used and understood in Roman Britain
