Romantic Journey:

Our Romantic Journey Through the Days Emmanuel Goka, 2020-11-13 This is a conversational novel that gives a vivid description of the awesomeness of a couple's seemingly unending romantic relationship. The love spanned from pledges of commitment through words and acts which made it seem as though it was meant to be until death. *The Romantic Journey* Anne Tedlock Brooks, 1948 Romantic Journey Stephanie Howard, 1992 *Romantic Journey* by Stephanie Howard released on Mar 25 1992 is available now for purchase Romantic Travel Through Bartlett's Engravings Hussein I. El-Mudarris, Olivier Salmon, 2007 French Romantic Travel Writing Christopher W. Thompson, 2012 A pioneering overview of the travel books produced by fourteen French Romantic writers including Chateaubriand Stendhal Hugo Nerval Sandrime Dumas and Tristan whose journeys ranged from Peru to Russia and from North America to North Africa and the Near East *Travel and Colonialism in 21st Century Romantic Historical Fiction* Paloma Fresno-Calleja, Hsu-Ming Teo, 2024-12-16 Romantic fiction has often involved stories of travel. In narratives of the journey towards love, romance often involves encounters with exotic places and peoples. When history is invoked in such stories, the past itself is exoticised and treated as other to the present to serve the purposes of romanticisation, a narrative strategy by which all manner of things, settings, characters, costumes, customs, consumables are made to perform a luxuriant otherness that amplifies the experience of love. This volume questions the reparative function of Anglophone romantic historical fiction to ask: can plots of travel and discourses of tourism empower women while narrating stories of healing for the wounds of the past? This is the first volume to consider how romanticised and exoticised women's historical fiction not only serves the purposes of armchair travel but may also replicate colonial discourse unintentionally positioning readers as neocolonial neo-Orientalist cultural voyeurs as well as voyagers.

The Romantic Movement Alan Menhennet, 2018-10-24 First published in 1981. This study concentrates on the exponents of the central period of German Romanticism regarding as characteristic the mode in which the poet's self becomes active only in response to external stimuli, most notably those of landscape. The author traces the main strands of thought and interests that preoccupy Romantic writers: the revolutionary attitude that is yet differentiated from that of writers like Byron by the lack of emphasis on individualism; the dualism of the bourgeois world and the inner self; the interest in language as an agency for the regeneration of the German spirit; and the concentration on folk themes and the idea of *Wanderung*. This title will be of interest to students of literature.

Nonfictional Romantic Prose Steven P. Sondrup, Virgil Nemoianu, Gerald Gillespie, 2004 *Nonfictional Romantic Prose: Expanding Borders* surveys a broad range of expository, polemical, and analytical literary forms that came into prominence during the last two decades of the eighteenth century and the first half of the nineteenth. They stand in contrast to better-known romantic fiction in that they endeavor to address the world of daily empirical experience rather than that of more explicitly self-referential fanciful creation. Among them are genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the

psychological case study others flourished and enjoyed wide spread popularity during the nineteenth century but are much less well known today like the almanac and the diary Travel narratives pamphlets religious and theological texts familiar essays autobiographies literary critical and philosophical studies and discussions of the visual arts and music all had deep historical roots when appropriated by romantic writers but prospered in their hands and assumed distinctive contours indicative of the breadth of romantic thought SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age
