ROMANTIC MOVEMENT: A Journey to Nature, Beauty and Imagination, Idealization of Women and Rejection of Industrialization Rakesh Rathod (MA English, 2019-01-01 In vain I have struggled It will not do My feelings will not be repressed You must allow me to tell you how ardently I admire and love you Pride and Prejudice by Jane Austen Changes in society beginning in the 18th century and continuing into our own time underlie the Romantic Movement It starts as a reaction against the intellectualism of the Enlightenment against the rigidity of social structures protecting privilege and against the materialism of an age which in the first stirring of the Industrial Revolution already shows signs of making workers the slaves of machinery and of creating squalid urban environments The Romantic Movement and Methodism Frederick C. Gill, 2016-07-21 As to the main subject Methodism is still a rich quarry Time far from obliterating its memory serves only to emphasize more clearly neglected aspects and accentuate main features No evangel can live if cut from its roots It is wise therefore to recall that early Methodist faith and practice were rooted and grounded in a rich cultural and devotional tradition From the preface

Petru Golban,2024-11-26 It appears that literary work possesses eternal temporal validity due to its autonomous aesthetic value whereas criticism provides points of view having temporary and transitory significance Despite such claims the vector of methodology in our series of books dealing with the history of English literature relies on Viktor Shklovsky T S Eliot Mikhail Bakhtin and especially Yuri Tynyanov whose main reasoning would be that literature is a system of dominant central and peripheral marginalized elements to us tradition centre versus innovation margin engaged in a battle for supremacy demarginalization and the right to form a new literary system and the development or historical advancement of literature is the substitution of systems Roman Jakobson and French structuralism on the whole later Linda Hutcheon with her system and constant and Bran Nicol with the dominant to say nothing about Itamar Even Zohar and his theory of polysystem to a certain extent Julia Kristeva and even Homi Bhabha as well as our humble contribution we would like to believe maintain Tynyanov s line of thinking and concepts alive which have developed and emerged nowadays more like a kind of neo formalism Focusing on literary practice applying critical theory and emerging from within our own teaching experience the books in the present series are theoretical and surveyistic like a monograph whereas their more practical and text oriented aspect should appeal as a student handbook for didactic purposes in which certain literary works belonging to various writers of different trends movements and periods are analysed and compared with regard to their source form thematic arrangements ideas motifs character representation strategies intertextual perspectives structural or narrative techniques and other aspects

Science in the Romantic Era David Knight,2016-03-31 First published in 1998 The Romantic Era was a time when society religion and other beliefs and science were all in flux The idea that the universe was a great clock and that men were little clocks all built by a divine watchmaker was giving way to a more dynamic and pantheistic way of thinking A new language was invented for chemistry replacing metaphor with algebra and scientific illustration came to play the role of a visual language deeply involved with theory A scientific community came gradually into being as the 19th century wore on The papers which compose this book have appeared in a wide range of books and journals together with the new introduction they illuminate science and its context in the Romantic Era and follow its effects in the 19th century
