**Rome's Ruin by Lead Poison** S. Colum Gilfillan,1990      *The Plight of Rome in the Fifth Century AD* Mark Merrony,2017-07-06 *The Plight of Rome in the Fifth Century AD* argues that the fall of the western Roman Empire was rooted in a significant drop in war booty agricultural productivity and mineral resources Drawing on literary and archaeological data this volume establishes a correspondence between booty in the form of slaves and precious metals from foreign campaigns and public building programmes and how this equilibrium was upset after the Empire reached its full expansion and began to contract in the third century Merrony explores how Rome was weakened and divided unable to pay its army feed its people or support the imperial bureaucracy and how this contributed to its administrative collapse      [The Shocking History of Electric Fishes](#) Stanley Finger,Marco Piccolino,2011-09-08 This beautifully illustrated and scholarly book examines the importance of electric fishes in science and medicine and how three species in particular shaped neurophysiology Anchored in the philosophy and science of past epochs it is the story of one of Nature s greatest puzzles Over a long and tortuous path it focuses on how some numbing fishes helped to make physiology modern      [The Lives of George Frideric Handel](#) David Hunter,2015 This book aims not only to re examine the life of the great composer Handel but also to explore the very concepts of biography With an introduction bibliography and index Figures Tables      [The Home Office and the Dangerous Trades](#) P.W.J. Bartrip,2016-08-22 This book is the first in depth study of occupational health in nineteenth and early twentieth century Britain As such it is an important contribution to the burgeoning literature on the history of health in the workplace It focuses on the first four diseases to receive bureaucratic and legislative recognition lead arsenic and phosphorus poisoning and anthrax As such it traces the emergence of medical knowledge and growth in public concern about the impact of these diseases in several major industries including pottery manufacture matchmaking wool sorting and the multifarious trades in which arsenic was used as a raw material It considers the process of state intervention taking due account of the influence of government inspectors moral entrepreneurs and various interest groups

environment Provides critical information on the properties use biological monitoring dose response relationships diagnosis treatment and prevention of 38 metallic elements and their compounds      **Brush with Death** Christian Warren,2000 Winner of the Arthur Visel tear Award for Outstanding Book in the History of Public Health from the American Public Health Association Selected by Choice Magazine as an Outstanding Academic Title During the twentieth century lead poisoning killed thousands of workers and children in the United States Thousands who survived lead poisoning were left physically crippled or were robbed of mental faculties and years of life In **Brush with Death** social historian Christian Warren offers the first comprehensive history of lead poisoning in the United States Focusing on lead paint and leaded gasoline Warren distinguishes three primary modes of exposure occupational pediatric and environmental This threefold perspective permits a nuanced exploration of the regulatory mechanisms medical technologies and epidemiological tools that arose in response to lead poisoning Today many children undergo aggressive chelating treatments when their blood lead levels are well below the average blood lead levels found in urban children in the 1950s Warren links the repeated redefinition of lead poisoning to changing attitudes toward health safety and risk The same changes that transformed the social construction of lead poisoning also transformed medicine and health care giving rise to modern environmentalism and fundamentally altered jurisprudence      **Toxic Truth** Lydia Denworth,2018-07-19 They didn't start out as environmental warriors Clair Patterson was a geochemist focused on determining the age of the Earth Herbert Needleman was a pediatrician treating inner city children But in the chemistry lab and the hospital ward they met a common enemy lead It was literally everywhere in gasoline and paint of course but also in water pipes and food cans toothpaste tubes and toys ceramics and cosmetics jewelry and batteries Though few people worried about it at the time lead was also toxic In **Toxic Truth** journalist Lydia Denworth tells the little known stories of these two men who were among the first to question the wisdom of filling the world with such a harmful metal Denworth follows them from the ice and snow of Antarctica to the schoolyards of Philadelphia and Boston as they uncovered the enormity of the problem and demonstrated the irreparable harm lead was doing to children In heated conferences and courtrooms the halls of Congress and at the Environmental Protection Agency the scientist and doctor were forced to defend their careers and reputations in the face of incredible industry opposition It took courage passion and determination to prevail against entrenched corporate interests and politicized government bureaucracies But Patterson Needleman and their allies did finally get the lead out since it was removed from gasoline paint and food cans in the 1970s the level of lead in Americans bodies has dropped 90 percent Their success offers a lesson in the dangers of putting economic priorities over public health and a reminder of the way science and individuals can change the world The fundamental questions raised by this battle what constitutes disease how to measure scientific independence and how to quantify acceptable risk echo in every environmental issue of today from the plastic used to make water bottles to greenhouse gas emissions And the most basic question how much do we need to know about what we put in our environment is perhaps more

relevant today than it has ever been      **Handbook on the Toxicology of Metals** Gunnar F. Nordberg, Bruce A. Fowler, Monica Nordberg, 2014-08-07 Handbook on the Toxicology of Metals Fourth Edition bridges the gap between established knowledgebase and new advances in metal toxicology to provide one essential reference for all those involved in the field This book provides comprehensive coverage of basic toxicological data emphasizing toxic effects primarily in humans but also those of animals and biological systems in vitro The fourth edition also contains several new chapters on important topics such as nanotoxicology metals in prosthetics and dental implants gene environment interaction neurotoxicology metals in food renal cardiovascular and diabetes effects of metal exposures and more Volume I covers General Considerations and Volume II is devoted to Specific Metals A multidisciplinary resource with contributions from internationally recognized experts the fourth edition of the Handbook on the Toxicology of Metals is a prominent and indispensable reference for toxicologists physicians pharmacologists engineers and all those involved in the toxicity of metals Contains 61 peer reviewed chapters dealing with the effects of metallic elements and their compounds on biological systems Includes information on sources transport and transformation of metals in the environment and on certain aspects of the ecological effects of metals to provide a basis for better understanding of the potential for adverse effects on human health Covers the toxicology of metallic nanomaterials in a new comprehensive chapter Metal toxicology in developing countries is dealt with in another new chapter emphasizing the adverse effects on human health by the inadequate handling of ewaste Other new chapters in the 4th edition include Toxic metals in food Toxicity of metals released from medical devices Gene environment interactions Neurotoxicology of metals Cardiovascular disease Renal effects of exposure to metals Gold and gold mining Iridium Lanthanum Lithium and Rhodium      *Doctor Franklin's Medicine* Stanley Finger, 2012-12-21 Selected by Choice magazine as an Outstanding Academic Title Among his many accomplishments Benjamin Franklin was instrumental in founding the first major civilian hospital and medical school and in the American colonies He studied the efficacy of smallpox inoculation and investigated the causes of the common cold His inventions including bifocal lenses and a long arm that extended the user s reach made life easier for the aged and afflicted In *Doctor Franklin s Medicine* Stanley Finger uncovers the instrumental role that this scientist inventor publisher and statesman played in the development of the healing arts enhancing preventive and bedside medicine hospital care and even personal hygiene in ways that changed the face of medical care in both America and Europe As Finger shows Franklin approached medicine in the spirit of the Enlightenment and with the mindset of an experimental natural philosopher seeking cures for diseases and methods of alleviating symptoms of illnesses He was one of the first people to try to use electrical shocks to help treat paralytic strokes and hysteria and even suggested applying shocks to the head to treat depressive disorders He also strove to topple one of the greatest fads in eighteenth century medicine mesmerism *Doctor Franklin s Medicine* looks at these and the many other contributions that Franklin made to the progress of medical knowledge including a look at how Franklin approached his own chronic illnesses

of painful gout and a large bladder stone Written in accessible prose and filled with new information on the breadth of Franklin s interests and activities Doctor Franklin s Medicine reveals the impressive medical legacy of this Founding Father

Lost Legion Rediscovered Donald O'Reilly,2014-07-19 In AD383 according to Bishop Eucherius of Lyon flooding caused part of the bank of the River Rhone to collapse revealing a massed grave of thousands of bodies Eucherius identified these as a legion recruited for the Roman army from the Christians of the Theban district in Egypt whom he claimed had been massacred nearly a century previously near the modern village of St Maurice en Valais in southwestern Switzerland for refusing to obey orders they considered immoral This incident asserted by Eucherius as matter of fact is unrecorded elsewhere Even the existence of this Theban legion is unclear

**The Family in Past Perspective** Ellen J. Kendall,Ross Kendall,2021-05-30 This volume takes a more comprehensive view of past familial dynamics than has been previously attempted By applying interdisciplinary perspectives to periods ranging from the Prehistoric to the Modern it informs a wider understanding of the term family and the implications of family dynamics for children and their social networks in the past Contributors drawn from across the humanities and social sciences present research addressing three primary themes modes of kinship and familial structure the convergence and divergence between the idealised image and realities of family life and the provision of care within families These themes are interconnected as the idea and image of family shapes familial structure which in turn defines the type of care and protection that families provide to their members The papers in this volume provide new research to challenge assumptions and provoke new ways of thinking about past families as functionally adaptive socially connected and ideologically powerful units of society just as they are in the present A broad focus on the networks created by familial units also allows the experiences of historically underrepresented women and children to be highlighted in a way that underlines their interconnectedness with all members of past societies The Family in Past Perspective builds a much needed bridge across disciplinary boundaries The wide scope of the book hmakes important contributions and informs fields ranging from bioarchaeology to women s history and childhood studies

Vaupel,2019-08-01 Although poisonous substances have been a hazard for the whole of human history it is only with the development and large scale production of new chemical substances over the last two centuries that toxic manmade pollutants have become such a varied and widespread danger Covering a host of both notorious and little known chemicals the chapters in this collection investigate the emergence of specific toxic pathogenic carcinogenic and ecologically harmful chemicals as well as the scientific cultural and legislative responses they have prompted Each study situates chemical hazards in a long term and transnational framework and demonstrates the importance of considering both the natural and the social contexts in which their histories have unfolded Worlds at War Anthony Pagden,2009-07-16 The differences that divide West from East go deeper than politics deeper than religion argues Anthony Pagden To understand this volatile relationship and how it has played out over the centuries we need to go back before the Crusades before the birth of Islam before the birth of Christianity to the fifth century BCE Europe was born out of Asia and for centuries the two shared a single history But when the Persian emperor Xerxes tried to conquer Greece a struggle began which has never ceased This book tells the story of that long conflict First Alexander the Great and then the Romans tried to unite Europe and Asia into a single civilization With the conversion of the West to Christianity and much of the East to Islam a bitter war broke out between two

universal religions each claiming world dominance By the seventeenth century with the decline of the Church the contest had shifted from religion to philosophy the West's scientific rationality in contrast to those sought ultimate guidance in the words of God The eighteenth and nineteenth centuries witnessed the disintegration of the great Muslim empires the Ottoman the Mughal and the Safavid in Iran and the increasing Western domination of the whole of Asia The resultant attempt to mix Islam and Western modernism sparked off a struggle in the Islamic world between reformers and traditionalists which persists to this day The wars between East and West have not only been the longest and most costly in human history they have also formed the West's vision of itself as independent free secular and now democratic They have shaped and continue to shape the nature of the modern world
