Tibor Eckhardt in His Own Words Tibor Eckhardt, 2004 Tibor Eckhardt was a powerful and influential figure in the political life of Hungary from the end of World War I until 1941 when he emigrated to the United States Eckhardt's career included personal contact with some of the most controversial and important figures of the first half of the twentieth century among them Adolf Hitler Franklin Roosevelt Dr Otto von Habsburg Paul Teleki Edvard Benes and Winston Churchill He recounts these first hand personal meetings and impressions in vivid detail in this autobiography

"A" Force Whitney Bendeck, 2013-10-15 June 1940 The Italians declared war on the British Completely unprepared for war the British had only 35 000 troops to defend Egypt Opposing them the Italian army in Libya numbered at least 215 000 in East Africa the Italians could muster another 200 000 men against a meager 19 000 British and commonwealth troops positioned in the Sudan and East Africa Out numbered and unlikely to receive sizable reinforcements of men or desperately needed supplies it is surprising that the British survived But they did How They got creative Under the leadership of General Archibald P Wavell the commander in chief of the Middle East the British set out to greatly exaggerate the size of their forces supply levels and state of battle readiness When their deceitful charades proved successful Wavell turned trickery into a profession and created an entirely new agency dedicated to carrying out deception A Force The Origins of British Military Deception during the Second World War looks at how and why the British first employed deception in WWII More specifically it traces the development of the A Force organization the first British organization to practice both tactical and strategic deception in the field Formed in Cairo in 1941 A Force was headed by an unconventional colonel named Dudley Wrangel Clarke Because there was no precedent for Clarke's A Force it truly functioned on a trial and error basis The learning curve was steep but Clarke was up for the challenge By the Battle of El Alamein British deception had reached maturity Moreover it was there that the deceptionists established the deception blueprint later used by the London planners used to plan and execute Operation Bodyguard the campaign to conceal Allied intentions regarding the well known D day landing at Normandy In contrast to earlier deception histories that have tended to focus on Britain's later deception coups Bodyguard thus giving the impression that London masterminded Britain's deception efforts this work clearly shows that British deception was forged much earlier in the deserts of Africa under the leadership of Dudley Clarke not London Moreover it was born not out of opportunity but out of sheer desperation A Force explores an area of deception history that has often been neglected While older studies and documentaries focused on the D day deception campaign and Britain's infamous double agents this work explores the origins of Britain's deception activities to reveal how the British became such masterful deceivers

World War II Alan

Warren,2016-08-12 In the First World War many battles on the Western Front had lasted weeks or months All too often they degenerated into glacial and indecisive campaigns of attrition By the 1930s however military science had recreated the possibility of a decisive battle An unprecedented rate of technological change meant that a stream of new inventions were readily at hand for military innovators to exploit Aircraft armoured vehicles and new forms of motorised transport became available to make possible a fresh style of offensive warfare when the next European war began in 1939 A belief in the importance of effective war fighting was vital to the Nazi vision of Germany's future Nazi Germany's political and military leaders aimed for rapid and decisive victory in battle From 1939 45 new ideologies and new machines of war carried destruction across the globe Alan Warren chronicles the sixteen most decisive battles of the Second World War from the Blitzkrieg of Poland to the fall of Berlin

The Germans in Normandy Richard Hargreaves,2006-11-06 This account of the D Day invasion from the German point of view includes maps and photos The Allied invasion of Northern France was the greatest combined operation in the history of warfare Up until now it has been recorded from the attackers point of view whereas the defenders angle has been largely ignored While the Germans knew an invasion was inevitable no one knew where or when it would fall Those manning Hitler's mighty Atlantic Wall may have felt secure in their bunkers but they had no conception of the fury and fire that was about to break After the initial assaults of June established an Allied bridgehead a state of stalemate prevailed The Germans fought with great courage hindered by lack of supplies and overwhelming Allied control of the air This book describes the catastrophe that followed in a unique look at the war from the losing side

In Rommel's Backyard Alistair Timpson,Andrew Gibson-Watt,2010-07-28 This WWII journal takes readers inside an elite reconnaissance and raiding unit operating behind enemy lines in the North African campaign As a young man entering the maelstrom of World War II Alastair Timpson had the good fortune to find his way into the most romantic of special force units the Long Range Desert Group In *Rommel's Backyard* describes the various roles of the LRDG all of which involved great daring and endurance deep behind enemy lines They were the eyes and ears of the Eighth Army reporting enemy movement they destroyed enemy aircraft supply dumps and vehicles and they transported other special forces and agents to their objectives Timpson kept a meticulous record of all his activities with the LRDG Only after his death did his son

Fredriksen, 2001-12-05 This work chronicles the lives and accomplishments of over 200 enemies who have fought plotted spied on and in some instances defeated U S forces over the past three centuries Books on American military heroes abound But this book is the first to focus on America's talented enemies the generals admirals Indian chiefs and warriors submarine captains fighter pilots and spies who opposed the United States with military force or other means Often these military leaders were among the best minds of their times For more than two centuries the new nation's most constant military opponents were the Native Americans led by such capable chiefs as American Horse and Little Wolf Under D Iberville Canada's French colonialists became formidable foes but they were soon surpassed by the rigorously disciplined redcoats of Great Britain under Howe and Cornwallis Ironically the most effective enemies in the history of the United States were not the leaders of foreign military forces like Mexico's Santa Anna Japan's Yamamoto or Vietnam's Vo Nguyen Giap They arose from among its own citizens during the Civil War the bloodiest conflict in American history **Normandy '44** James Holland, 2019-06-04 A history of World War II's Operation Overlord from the campaign's planning to its execution as Allied forces battled to take France back from Germany D Day June 6 1944 and the seventy six days of bitter fighting in Normandy that followed the Allied landing have become the defining episode of World War II in the west the object of books films television series and documentaries Yet as familiar as it is as James Holland makes clear in his definitive history many parts of the Overlord campaign as it was known are still shrouded in myth and assumed knowledge Drawing freshly on widespread archives and on the testimonies of eye witnesses Holland relates the extraordinary planning that made Allied victory in France possible indeed the story of how hundreds of thousands of men and mountains of materiel were transported across the English Channel is as dramatic a human achievement as any battlefield exploit The brutal landings on the five beaches and subsequent battles across the plains and through the lanes and hedgerows of Normandy a campaign that in terms of daily casualties was worse than any in World War I come vividly to life in conferences where the strategic decisions of Eisenhower Rommel Montgomery and other commanders were made and through the memories of paratrooper Lieutenant Dick Winters of Easy Company British corporal and tanker Reg Spittles Thunderbolt pilot Archie Maltbie German ordnance officer Hans Heinze French resistance leader Robert Leblanc and many others For both sides the challenges were enormous The Allies confronted a disciplined German army stretched to its limit which nonetheless caused tactics to be adjusted on the fly Ultimately ingenuity determination and immense materiel strength delivered with operational brilliance made the difference A stirring narrative by a pre eminent historian *Normandy 44* offers important new perspective on one of history's most dramatic military engagements and is an invaluable addition to the literature of war Praise for *Normandy 44* An Amazon Best Book of the Month History An Amazon Best History Book of the Year Detail and scope are the twin strengths of *Normandy 44* Mr Holland effectively balances
