Bullies and Mean Girls in Popular Culture Patrice A. Oppliger, 2013-10-03 The numerous anti bullying programs in schools across the United States have done little to reduce the number of reported bullying instances One reason for this is that little attention has been paid to the role of the media and popular culture in adolescents bullying and mean girl behavior This book addresses media role models in television film picture books and the Internet in the realm of bullying and relational aggression It highlights portrayals with unproductive strategies that lead to poor resolutions or no resolution at all Young viewers may learn ineffective even dangerous ways of handling aggressive situations Victims may feel discouraged when they

are unable to handle the situation as easily as in media portrayals They may also feel their experiences are trivialized by comic portrayals Entertainment programming aimed particularly at adolescents often portray adults as incompetent or uncaring and include mean spirited teasing In addition overuse of the term bully and defining all bad behavior as bullying may dilute the term and trivialize the problem *Neo-Feminist Cinema* Hilary Radner,2010-11-01 What lies behind current feminist discontent with contemporary cinema Through a combination of cultural and industry analysis Hilary Radner's *Neo Feminist Cinema* *Girly Films* *Chick Flicks* and *Consumer Culture* shows how the needs of conglomerate Hollywood have encouraged an emphasis on consumer culture within films made for women By exploring a number of representative girly films including *Pretty Woman* *Legally Blonde* *Maid in Manhattan* *The Devil Wears Prada* and *Sex and the City* The Movie Radner proposes that rather than being post feminist as is usually assumed such films are better described as neo feminist Examining their narrative format as it revolves around the story of an ambitious unmarried woman who defines herself through consumer culture as much as through work or romance Radner argues that these films exemplify neo liberalist values rather than those of feminism As such *Neo Feminist Cinema* offers a new explanation as to why feminist oriented scholars and audiences who are seeking more than labels and love from their film experience have viewed recent girly films as a betrayal of second wave feminism and why on the other hand such films have proven to be so successful at the box office

Modern variations: casual friends, close friends, best friends are described along with the growing phenomena of virtual friendships and cyber socialization in the Internet age. Inspired in part by Bertrand Russell's *The Conquest of Happiness*, the authors propose that conquering unhappiness is key to achieving the self-satisfaction Russell called *zest* and Aristotle called *eudaimonia* or thriving by our own efforts      Screen World 1998 John Willis, Barry Monush, 1999-02-01 Covers American and foreign films released in the United States each year with listings of credits and profiles of screen personalities and award winners

**Education in Popular Culture** Roy Fisher, Ann Harris, Christine Jarvis, 2008-05-06 *Education in Popular Culture* explores what makes schools, colleges, teachers, and students an enduring focus for a wide range of contemporary media. What is it about the school experience that makes us wish to relive it again and again? The book provides an overview of education as it is represented in popular culture together with a framework through which educators can interpret these representations in relation to their own professional values and development. The analyses are contextualised within contemporary historical and ideological frameworks and make connections between popular representations and professional and political discourses about education. Through its examination of film, television, popular lyrics, and fiction, this book tackles educational themes that recur in popular culture and demonstrates how they intersect with debates concerning teacher performance, the curriculum, and young people's behaviour and morality. Chapters explore how experiences of education are both reflected and constructed in ways that sometimes reinforce official and professional educational perspectives and sometimes resist and oppose them. *Education in Popular Culture* will stimulate critical reflection on the popular myths and professional discourses that surround teachers and teaching. It will serve to deepen analyses of teaching and learning and their associated institutional and societal contexts in a creative and challenging way      Making Faces, Playing God Thomas Morawetz, 2013-04-01 Wearing a mask, putting on another face, embodies a fundamental human fantasy of inhabiting other bodies and experiencing other lives. In this extensively illustrated book, Thomas Morawetz explores how the creation of transformational makeup for theatre, movies, and television fulfills this fantasy of self-transformation and satisfies the human desire to become the other. Morawetz begins by discussing the cultural role of fantasies of transformation and what these fantasies reveal about questions of personal identity. He next turns to professional makeup artists and describes their background, training, careers, and especially the techniques they use to create their art. Then, with numerous before, during, and after photos of transformational makeups from popular and little-known shows and movies, ads, and artists' demos and portfolios, he reveals the art and imagination that go into six kinds of mask-making: representing demons, depicting aliens,

inventing disguises transforming actors into different older heavier disfigured versions of themselves and creating historical or mythological characters

**Performing Queer Female Identity on Screen** Jamie Stuart, 2008-07-15 Film audiences have grown used to seeing female characters in performance roles singing or dancing on stages in nightclubs musical arenas or theaters performing their femaleness for the fictional audience as well as the film viewing audience But queer women in film perform on yet another level In addition to performing their gender for the world they also perform their sexuality for either a general or an insider audience in ways that can be read to establish a queer visibility to establish a sense of community or to show romantic lesbian interest This work examines performance spaces for lesbian identities in films evaluating how queer femaleness is signified in contemporary cinema It studies five films in particular When Night Is Falling Better Than Chocolate Tipping the Velvet Slaves to the Underground and Prey for Rock and Roll Through close textual analysis evaluations of the conditions under which each film was produced and received and dozens of audience surveys it reveals much about both the story worlds of the films and the ways that queer women react to and feel about them

**The Scope and Limits of Partiality** Diane Jeske,2024 The Scope and Limits of Partiality takes as its starting point the fact that we demonstrate partiality toward those to whom we stand in intimate relationships a fact which presents both theoretical and practical challenges At the theoretical level Diane Jeske argues that we have fundamental reasons to care for our intimates but that that fact alone does not justify our practices of partiality This is because we also have fundamental reasons to care for persons in need be they intimates or strangers At the normative level she argues that our intimate relationships be they to other persons or to non human animals add great value to our lives and that public policy ought to acknowledge the great diversity of intimate relationships rather than emphasizing romance and marriage in

the way that it does In the theoretical half of the book Jeske defends the relationships view of reasons of intimacy against its primary competitors First Jeske argues that consequentialist attempts to accommodate partiality fail to address the fundamental issues regarding our reasons to care for intimates Second she argues that the main non consequentialist alternatives to the relationships view the projects view and the individuals view fail to present compelling cases against the relationships view In the normative half of the book Jeske offers a detailed picture of the intimate relationship of friendship arguing against views that over intellectualize or romanticize friendship by drawing upon her own lived experience of friendship She then considers our relationships to our companion dogs and cats showing that these relationships are unique sites for intimacy and thus for value Finally she turns to consider how intimacy is treated in the public sphere focusing on the special cultural and legal attention given to marriage and to how we ought to approach our intimate relationships and our reasons to care for our intimates in a highly imperfect world where so many people are deprived of the basic necessities of life The Scope and Limits of Partiality presents a comprehensive account of intimacy and partiality in both theory and reality
