Sustainable Development in the Southeastern Coastal Zone F. John Vernberg,Winona B. Vernberg,Thomas Siewicki,1996 Rapid population growth in the southeastern coastal zone has had an important influence on both resource management policy at the federal state regional and local levels and the findings of environmental impact studies These twenty six papers represent a variety of disciplines and such topics as policy in its broadest sense environmental resources and population trends Jacket The Bulldozer in the Countryside Adam Rome,2001-04-16 The concern today about suburban sprawl is not new In the decades after World War II the spread of tract house construction changed the nature of millions of acres of land and a variety of Americans began to protest against the environmental costs of suburban development By the mid 1960s indeed many of the critics were attempting to institutionalize an urban land ethic The Bulldozer in the Countryside was the first scholarly work to analyze the successes and failures of the varied efforts to address the environmental consequences of suburban growth from 1945 to 1970 For scholars and students of American history the book offers a compelling insight into two of the great stories of modern times the mass migration to the suburbs and the rise of the environmental movement The book also offers a valuable historical perspective for participants in contemporary

debates about the alternatives to sprawl **Mining Industry Association at Multiple Levels of Governance** Aynsley Kellow, Marian Simms, 2021-12-14 Many books on interest groups study how they conduct themselves in politics and rather take for granted their existence Unusually this book examines the reasons why for many years there was no global level group representing the mining and non ferrous metals industry and how the sector found a basis for association at the turn of the millennium in response to the globalisation of environmental policy and the emerging focus on sustainable development The associated reconfiguration of competences at the national and state levels in Australia is also shown to have had important consequences for sector associability at those levels In short it examines the changing associability of a business sector at what Theodore Lowi described as three levels of governance macro meso and micro The book draws on interviews with key participants and extensive archival research **The Urban Growth Machine** Association of American Geographers. Meeting, 1999-08-12 Two decades after Harvey Molotch's city as a growth machine this book offers a unique critical assessment of his thesis *Keep Out* Sidney Plotkin, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987 **A London Bibliography of the Social Sciences**, 1931 Vols 1-4 include material to June 1 1929 **Economics and Land Use Planning** Alan W. Evans, 2008-04-15 The book's aim is to draw together the economics literature relating to planning and set it out systematically It analyses the economics of land use planning and the relationship between economics and planning and addresses questions like What are the limits of land use planning and the extent of its objectives Is the aim aesthetic Is it efficiency Is it to ensure equity Or sustainability And if all of these aims how should one be balanced against another
