Room Full Of Balloons:

The Mighty Odds (The Odds Series #1) Amy Ignatow, 2016-09-13 From the renowned author/illustrator of the Popularity Papers series Amy Ignatow comes the first installment in a new series about a diverse crew of middle school kids who develop very limited superhero powers after a strange accident and manage to become unlikely friends on the adventure of a lifetime. When a sweet nerd, an artsy cartoonist, a social outcast, and the most popular girl in school are involved in a mysterious bus accident, this seemingly random group of kids starts to notice some very strange abilities they did not have before. Artsy Martina can change her eye color. Nerdy Nick can teleport four inches to the left. Outcast Farshad develops super strength but only in his thumbs. And Cookie, the It Girl of school's most popular clique, has suddenly developed the ability to read minds when those minds are thinking about directions. They are oddly mighty, especially together. This group, who would never hang out under normal circumstances, must now combine all of their strengths to figure out what happened during the bus accident. With alternating narratives from each of the heroes, including illustrated pieces from Martina, and featuring bold female superheroes and a multicultural cast, *The Mighty Odds* is *The Breakfast Club* for a new generation. Through the stories our oldest son Riley told us about seeing angels and his encounter with Jesus the night that Justin went to Heaven, we have been able to find joy in our every day lives. *The Mighty Odds 3-Book Collection* Amy Ignatow, 2024-10-29 With the captivating 3-book *Mighty Odds* collection, follow the extraordinary adventures of a group of unlikely heroes who discover they have superpowers after a mysterious bus accident. A Different View of Curriculum and Assessment for Severe, Complex and Profound Learning Disabilities Peter Imray,Lila Kosyvaki,Michael Sissons,2023-12-01 A Different View of Curriculum and Assessment links a theoretical pedagogical model with a sympathetic practical model of curriculum and assessment difference for those with PMLD CLD and SLD Split into two parts this accessible resource combines theoretical explanations with first hand accounts of how this works in educational establishments through the analysis of evidence based practice carried out in a number of English special specialist schools The expert authors challenge the notion that a national or common core standards curriculum however expertly differentiated is fit for purpose for the PMLD CLD and SLD populations in any country A Different View offers cogent and reasoned arguments for considering that irrespective of age such learners learn differently to their neuro typical conventionally developing peers If they learn differently this book shows how we should be teaching them differently Reflecting the centrality of process over product this book will clearly explain how each individual learner might be enabled and facilitated to become the best they can be and do the best they can do in order to fully realise their potential as equal and independent citizens
