Rooms Of Their Own:

Rooms of Their Own Alex Johnson, 2022-04-19 Rooms of Their Own travels around the world examining the unique spaces in which famous writers created their most notable work Rooms of Their Own Alex Johnson, 2022-04-19 Rooms of Their Own travels around the world examining the unique spaces habits and rituals in which famous writers created their most notable works The perennial question asked of all authors is How do you write What do they require of their room or desk Do they have favourite pens paper or typewriters And have they found the perfect daily routine to channel their creativity Crossing centuries continents and genres Alex Johnson has pooled 50 of the best writers and transports you to the heart of their writing rooms from attics and studies to billiard rooms and bathtubs Discover the ins and outs of how each great writer penned their famous texts and the routines and habits they perfected Meet authors who rely on silence and seclusion and those who need people music and whisky Meet novelists who travel half way across the world to a luxury writing retreat and others who just need an empty shed at the bottom of the garden Some are particular about pencils inks paper and typewriters and some will scribble on anything including the furniture But whether they write in the library or in cars under trees private islands hotel rooms or towers each of these stories confirms that there is no best way to write From James Baldwin writing in the small hours of the morning in his Paris apartment to DH Lawrence writing at the foot of a towering Ponderosa pine tree to the Bront sisters managing in a crowded co working space this book takes us into the lives of some of history s greatest ever writers with each writing space illustrated in evocative watercolour by James Osos In looking at the working lives of our favourite authors bibliophiles will be transported to other worlds aspiring writers will find inspiration and literature fans will gain deeper insight into their most loved authors *Rooms of Our Own* Susan Gubar, 2006-10-30 With a little help from Virginia Woolf Susan Gubar contemplates startling transformations produced by the women s movement in recent decades What advances have women made and what still needs to be done Taking Woolf s classic *A Room of One s Own* as her guide Gubar engages these questions by recounting one year in the life of an English professor A meditation on the teaching of literature and on the state of the humanities today her chapters also provide a crash course on the challenges and changes in feminist intellectual history over the past several decades the influence of post structuralism and of critical race postcolonial and cultural studies scholarship the stakes of queer theory and the institutionalization of women s studies and the effects of globalism and bioengineering on conversations about gender sex and sexuality Yet *Rooms of Our Own* eschews a scholarly approach Instead through narrative criticism it enlists a thoroughly contemporary cast of characters who tell us as much about the comedies and tragedies of campus life today as they do about the sometimes contentious but invariably liberating feminisms of our future **A Space of Their Own** Katie Baker, Naomi Walker, 2023-03-31 This collection explores how nineteenth and twentieth century women writers incorporated the idea of place into their writing Whether writing from a specific location or focusing upon a particular geographical or imaginary

place women writers working between 1850 and 1950 valued a space of their own in which to work The period on which this collection focuses straddles two main areas of study nineteenth century writing and early twentieth century modernist writing so it enables discussion of how ideas of space progressed alongside changes in styles of writing It looks to the many ways women writers explored concepts of space and place and how they expressed these through their writings for example how they interpreted both urban and rural landscapes and how they presented domestic spaces A Space of Their Own will be of interest to those studying Victorian literature and modernist works as it covers a period of immense change for women's rights in society It is also not limited to just one type or definition of space Therefore it may also be of interest to academics outside of literature for example in gender studies cultural geography place writing and digital humanities

Inside the NDP War Room James S. McLean, 2012-11-01 The federal election campaign of 2005-06 offered the usual mix of lofty rhetoric competing interests and skullduggery Nonetheless this campaign laid the foundation for a major shift in Canadian politics bringing the Conservative Party to power and changing the balance of opposition parties Inside the NDP War Room takes readers behind the scenes to investigate the nature of credibility in the complex communicative game of election campaigns James McLean considers the ways in which the idea of credibility is used to explain how messages are crafted and articulated how journalists are implicated and what the Canadian public needs to know about what is at stake in the competition for votes He talks to insiders about their communication practices and strategies and reflects upon the grand narratives and small opportunistic moments brought before the Canadian public when power is up for grabs A vivid first hand account of campaign strategizing Inside the NDP War Room offers insights into the NDP breakthroughs of 2011 the full meaning of Quebec's orange wave and the future of a party preparing for a new reality

Tartu in Your Pocket, Art and Authority in Renaissance Milan Evelyn S. Welch, 1995-01-01 Milan was one of the largest and most important cities in Renaissance Italy Controlled by the Visconti and Sforza dynasties from 1277 until 1500 its rulers were generous patrons of the arts responsible for commissioning major monuments throughout the city and for supporting artists such as Giovanni di Balduccio Filarete Bramante and Leonardo da Vinci But the city was much more than its dukes Milan had a distinct civic identity one that was expressed above all through its neighbourhood religious and charitable associations This book moves beyond standard interpretations of ducal patronage to explore the often overlooked city itself showing how the allegiances of the town hall and the parish related to those of the servants and aristocrats who frequented the Visconti and Sforza court In this original and stimulating interdisciplinary study Evelyn Welch illustrates the ways in which the myths of Visconti and Sforza supremacy were created Newly discovered material for major projects such as the cathedral hospital and castle of Milan permits a greater understanding of the political economic and architectural forces that shaped these extraordinary buildings The book also explores the wider social networks of the artists themselves Leonardo da Vinci for example is de-mythologised far from being an isolated highly prized court artist he spent his almost eighteen years in the city working within the wider Milanese community of painters sculptors goldsmiths and embroiderers The broad perspective of the book ensures that any future study of the Renaissance will have to re-evaluate the place of Milan in Italian cultural history
