Paul Baker and the Integration of Abilities Robert Flynn, Eugene McKinney, 2003 Irritating arrogant nuts and a genius That's what Charles Laughton said of Paul Baker He also said Paul Baker is one of the most important minds in the world theater today He seems to have invented new ways of doing things and I think something big will come out of it Something big did come out of it Stage productions such as Othello Hamlet and A Cloud of Witnesses brought critics including Henry Hewes of Saturday Review and photographers such as Eliot Elisofon of Life magazine to Baylor Theater in Waco Baker's production of Eugene McKinney's A Different Drummer received an invitation from CBS TV's cultural program Omnibus to present the play live from their New York studio Baker's production of As I Lay Dying Robert Flynn's adaptation of William Faulkner's novel brought an invitation to present the play at the Theater of Nations in Paris the first non Broadway production to compete there where it won a Special Jury Award That was Paul Baker the theater director Equally important was Baker's role as teacher and mentor in the arts Architect Arthur Rogers stated No single person has contributed more to theater architecture development than Paul Baker Baker's architectural visions at Baylor Theater the Dallas Theater Center and Trinity University's Ruth Taylor Theater have inspired similar constructions not only in the United States but in places such as Manila and Seoul Baker's teaching philosophy based on his famous class The Integration of Abilities has been inspirational In education Baker has been founder mentor or

Yes You Can Arthur G. Affleck, III, 2008-11-26 YES YOU CAN Finish High School and go to College is a book about possibility At its best it seeks to motivate inspire and empower young people to achieve their goal of going to college This book will be useful and helpful to any student but it will be especially useful to those students who have what it takes to finish high school and go to college but who may be experiencing doubts and lack of motivation The first chapter is titled Why you must go to college It makes a strong argument that any young person wishing to retain the slimmest hope of financial security or even a decent standard of living must get some form of education or training beyond high school The book opens with a quote from Dorothy J Hulst which says in part there are efforts and results and the strength of the effort is the measure of the result I truly believe that dreams can come true and goals can be achieved In fact I know that any young person can finish high school and go to college if that is what they truly desire to do and if they are willing to make some

sacrifices and do the work I know that this is possible because there are those of us who faced significant life challenges and who had similar fears and yet we persisted and succeeded With the help of family friends and many caring adults we finished high school enrolled in college and managed to graduate It can happen for young people today as well They really don't know what they are capable of until they commit themselves to a goal and begin working towards its fulfillment In the United States the richest country in the world over one million students drop out of high school each and every year Retired General Colin Powell founder of America's Promise Alliance said this state of affairs is more than a problem it's a catastrophe This book is in part my small attempt to help to change the odds of students dropping out of high school by getting them to think about the consequences of their actions Today we know that the number one predictor of a young person's future success is whether they graduate from high school And for those who go on to college they will earn a million dollars more than the average high school graduate during their lifetime A college education is even more important today as we see major problems in the U.S. economy In 2008 over 700 000 Americans lost their jobs Many of these jobs went to workers in other countries like India and China More job losses are projected for 2009 In recent months major banks and other financial institutions have failed or had to be rescued by the Federal Government Across the country many American families have lost their homes to foreclosure I share these facts to underscore the point that young people and adults simply must have some marketable skills to have any chance of getting and keeping a job and making a decent wage in this rapidly changing economy So it is vitally important that teens give themselves a chance in life by finishing high school and by going to college They can do it and this book will help
