The Roots of Separatism in Palestine

British Economic Policy, 1920-1929

BARBARA J. SMITH

"A first-rate scholarly treatment of a neglected aspect of the history of mandatory Palestine. . . . It is the first study that I know of that, based on archival sources, analyses British economic policies regarding a wide range of economic issues. In addition, the work develops a cogent, fresh, and non-partisan interpretation. No scholar of the Palestine problem, the Yishuv, the Palestinians and Israel can ignore this work."

—Philip Matson, Executive Director,
The Institute for Palestine Studies

A thorough analysis of the economic development of Palestine during the first years of British mandatory rule and, in particular, of the British government's preferential policy regarding Jewish settlement and enterprise sets the tone for this groundbreaking study.

The Zionist settler movement, unable to make much headway under Ottoman rule, was nurtured by, and eventually thrived within, the British Mandate, which was inaugurated in 1920. The British policy of actively encouraging Zionist economic development through preferential treatment also contributed to the economic division of the country along ethnic lines, leading ultimately to the division of Palestine and to the establishment of the state of Israel. Thus the true roots of separatism between the Zionists and the Palestinian Arabs were economic, not political.

Roots Of Separatism In Palestine:

The Roots of Separatism in Palestine Barbara J. Smith, 1993-07-01 A thorough analysis of the economic development of Palestine during the first years of British mandatory rule and in particular of the British government's preferential policy regarding Jewish settlement and enterprise sets the tone for this groundbreaking study Using a wealth of previously unpublished documentation the author proves that British mandatory policy provided the perfect environment for the growth of a largest and more homogeneous Zionist enclave which in turn led to the inevitable split in Palestine's economy

The Iron Cage Rashid Khalidi, 2024-01-18 A brilliant and sobering critique of the Palestinian failure to achieve statehood by a major Palestinian historian and political commentator At a time when a lasting peace between Palestinians and Israelis seems virtually unattainable understanding the roots of the longest running conflict in the Middle East is an essential step in restoring hope to the region In *The Iron Cage* Rashid Khalidi one of the most respected historians and political observers of the Middle East examines the Palestinian's struggle for statehood presenting a succinct and insightful history of the people and their leadership throughout the twentieth century Ranging from the Palestinian struggle against colonial rule and the establishment of the State of Israel through the eras of the PLO the Palestinian Authority and Hamas this is an unflinching and sobering critique of the Palestinian failure to achieve statehood as well as a balanced account of the odds ranged against them Lucid yet challenging Rashid Khalidi's engrossing narrative of this tortuous history is required reading for anyone concerned about peace in the Middle East

Palestine's Christians and the Nationalist Cause Erik Freas, 2024-12-23 This book provides an historical overview of Palestine's Christian communities and their role in the Palestinian nationalist movement during the late Ottoman and British mandatory periods More than being a history of Palestine's Christian Arabs the book focuses on Palestine's Christians during the formative period of Palestinian Arab national identity attentive to the broader topic of the relationship between nationalism and religion in this case between Arab identity and Islam Whereas until recently historians have tended to assume that national and religious identities are distinct and mostly mutually exclusive things more recent scholarship has addressed the fact that often there exists considerable overlap between the two though it should be noted often in ways that are not by any means inherently exclusive of those not belonging to the majority faith as is the case here The relationship is also an ever changing one hence the final chapter of the book which functions as something of an epilogue regarding the current status of Palestine's Christians vis vis their place in the nationalist cause and relationship with the broader Muslim population The book will be of interest to historians and scholars focused on the modern Middle East Palestinian history Muslim Christian inter communal relations and the relationship between nationalism and religion

The Israeli Palestinians Alexander Bligh, 2004-08-02 One of the most crucial issues to affect national policy in the state of Israel is that of relations between its Jewish and Arab citizens This edited collection offers a comprehensive analysis of the most significant factors to have contributed to current conditions

The Politics of Mass Violence in the

Middle East Laura Robson,2020-09-17 The Middle East today is characterized by an astonishingly bloody civil war in Syria an ever more highly racialized and militarized approach to the concept of a Jewish state in Israel and the Palestinian territories an Iraqi state paralyzed by the emergence of class and region inflected sectarian identifications a Lebanon teetering on the edge of collapse from the pressures of its huge numbers of refugees and its sect bound political system and the rise of a wide variety of Islamist paramilitary organizations seeking to operate outside all these states The region s emergence as a zone of violence characterized by a viciously dystopian politics of identity is a relatively recent phenomenon developing only over the past century but despite these shallow historical roots the mass violence and dispossession now characterizing Syria Lebanon Israel Palestine and Iraq have emerged as some of the twenty first century s most intractable problems In this study Laura Robson uses a framework of mass violence encompassing the concepts of genocide ethnic cleansing forced migration appropriation of resources mass deportation and forcible denationalization to explain the emergence of a dystopian politics of identity across the Eastern Mediterranean in the modern era and to illuminate the contemporary breakdown of the state from Syria to Iraq to Israel

Western Imperialism in the Middle East 1914-1958 D. K. Fieldhouse,2006-04-06 The term Fertile Crescent is commonly used as shorthand for the group of territories extending around the Rivers Tigris and Euphrates Here it is assumed to consist of Syria Lebanon Jordan Iraq and Palestine Much has been written on the history of these countries which were taken from the Ottoman empire after 1918 and became Mandates under the League of Nations For the most part the histories of these countries have been handled either individually or as part of the history of Britain or France In the first instance the emphasis has normally been on the development of nationalism and local resistance to alien control in a particular territory leading to the modern successor state In the second most studies have concentrated separately on how either France or Britain handled the great problems they inherited seldom comparing their strategies The aim of this book is to see the region as a whole and from both the European and indigenous points of view The central argument is that the mandate system failed in its stated purpose of establishing stable democratic states out of what had been provinces or parts of provinces within the Ottoman empire Rather it generated basically unstable polities and in the special case of Palestine one totally unresolved and possibly unsolvable conflict The result was to leave the Middle East as perhaps the most volatile part of the world in the later twentieth century and beyond The main purpose of the book is to examine why this was so

The Lost Orchard Mustafa Kabha,Nahum Karlinsky,2021-06-30 The Palestinian Nakba catastrophe of 1948 devastated Palestinian lives and shattered Palestinian society culture and economy It also nipped in the bud a nascent grassroots binational alliance between Arab and Jewish citrus growers This significant and unprecedented partnership was virtually erased from the collective memory of both Israelis and Palestinians when the Nakba decimated villages and populations in a matter of months In The Lost Orchard Kabha and Karlinsky tell the story of the Palestinian citrus industry from its inception until 1950 tracing the shifting

relationship between Palestinian Arabs and Zionist Jews Using rich archival and primary sources as well as on a variety of theoretical approaches Kabha and Karlinsky portray the industry s social fabric and stratification detail its economic history and analyze the conditions that enabled the formation of the unique binational organization that managed the country s industry from late 1940 until April 1948 **Palestinian Rituals of Identity** Awad Halabi,2023-01-17 An innovative approach to modern Palestinian history as viewed through a study of the Prophet Moses festival from the mid nineteenth to the mid twentieth century **Jewish Consumer Cultures in Nineteenth and Twentieth-Century Europe and North America** Paul Lerner,Uwe Spiekermann,Anne Schenderlein,2022-01-22 This book investigates the place and meaning of consumption in Jewish lives and the roles Jews played in different consumer cultures in modern Europe and North America Drawing on innovative original research into this new and challenging field the volume brings Jewish studies and the history and theory of consumer culture into dialogue with each other Its chapters explore Jewish businesspeople s development of niche commercial practices in several transnational contexts the imagining marketing and realization of a Jewish national homeland in Palestine through consumer goods and strategies associations between Jews luxury and gender in multiple contexts and the political dimensions of consumer choice Together the essays in this volume show how the study of consumption enriches our understanding of modern Jewish history and how a focus on consumer goods and practices illuminates the study of Jewish religious observance ethnic identities gender formations and immigrant trajectories across the globe The Zionist Masquerade J. Renton,2007-10-17 This book offers a new interpretation of a critical chapter in the history of the Zionist Palestine conflict and the British Empire in the Middle East It contends that the Balfour Declaration was one of many British propaganda policies during the World War I that were underpinned by misconceived notions of ethnicity ethnic power and nationalism *The Middle East and the Making of the Modern World* Cyrus Schayegh,2017-08-28 How do historians make sense of the spatial layeredness of the past Cyrus Schayegh argues that the modern world s ultimate socio spatial feature is not the oft studied processes of globalization or state formation or urbanization but rather the fast paced mutually transformative intertwinements of cities regions states and global circuits **The War of the Zionist Giants** Nick Reynold,2018-11-16 Two major forces in the creation of the State of Israel in May 1948 were David Ben Gurion and Chaim Weizmann While each giant led very different lives their paths crossed or often clashed as they became major influencers on the world stage They worked together to bring about an independent Jewish state while simultaneously clashing over different political styles and beliefs Weizmann became the President of the Zionist Organization while Ben Gurion worked to oppose him as much as possible This book describes the battle between two very strong and determined giants which took place over 32 years The author explores the lives of each man and what factors led to their differing political beliefs Reynold also examines the specific instances in which the two clashed or worked together to bring about change **Settler Economies in World History** Christopher Lloyd,Jacob Metzger,Richard Sutch,2013-01-08 Settler Economies in World

Traces of History Patrick Wolfe,2016-01-12 Traces of History presents a new approach to race and to comparative colonial studies Bringing a historical perspective to bear on the regimes of race that colonizers have sought to impose on Aboriginal people in Australia on Blacks and Native Americans in the United States on Ashkenazi Jews in Western Europe on Arab Jews in Israel Palestine and on people of African descent in Brazil this book shows how race marks and reproduces the different relationships of inequality into which Europeans have coopted subaltern populations territorial dispossession enslavement confinement assimilation and removal Charting the different modes of domination that engender specific regimes of race and the strategies of anti colonial resistance they entail the book powerfully argues for cross racial solidarities that respect these historical differences

Fleeing from History Ylana N. Miller,2025-10-01 Chronicles the history of Zionism Israel and the United States Fleeing from History offers an understanding of Zionism not as ideology or movement but rather as a multidimensional cosmopolitan arena for Jewish

political debate and argument Drawing on conversations in currently developing literature on colonialism and decolonization exile and diaspora studies as well as comparative history Ylana N Miller argues that Zionism must be seen through a multinational lens that illuminates the historical process by which it was reduced from a broad diverse generative arena of Jewish political creativity to an exclusionary nationalism Central to the history of this process is the gradual transformation of the American political environment within which Zionism came to be identified with the state of Israel A key and abiding insight that this history advances is that Jewish history cannot be told without recognition of parallel developments among other groups for this study Palestinian Arabs and Algerians The shift in the diaspora Zionist center of gravity from European dominance to that of the United States should be understood as representing a break and change rather than continuity The US Israel relationship that appears unquestionable today was not inevitable It was the result of the gradual winnowing of dissenting voices and the embrace of a specific version of state identity *Boycotts Past and Present* David

Feldman, 2018-12-29 In this book historians and social scientists examine boycotts from the eighteenth century to the present day Employed in struggles against British rule in the American colonies against racial discrimination in the United States during the Civil Rights movement and Apartheid in South Africa today it is Israel that is the focus of a campaign for Boycott Divestment and Sanctions BDS Boycotts have featured in campaigns undertaken by labour consumer and nationalist movements Jews were the focus of some boycotts instigated by nationalist movements in Central and Eastern Europe and Jewish businesses were targeted by the National Socialist regime in Germany In this collection contributors explore the history of past boycott movements and examine the different narratives put forward by proponents and opponents of the current BDS movement directed against Israel one which places the movement within a history of struggles for human rights the other which regards BDS as the latest manifestation of an antisemitic tradition *Landmark Cases in Public*

International Law Eirik Bjorge, Cameron Miles, 2017-12-28 The past two hundred years have seen the transformation of public international law from a rule based extrusion of diplomacy into a fully fledged legal system *Landmark Cases in Public International Law* examines decisions that have contributed to the development of international law into an integrated whole whilst also creating specialised sub systems that stand alone as units of analysis The significance of these decisions is not taken for granted with contributors critically interrogating the cases to determine if their reputation as landmarks is deserved Emphasis is also placed on seeing each case as a diplomatic artefact highlighting that international law while unquestionably a legal system remains reliant on the practice and consent of states as the prime movers of development The cases selected cover a broad range of subject areas including state immunity human rights the environment trade and investment international organisations international courts and tribunals the laws of war international crimes and the interface between international and municipal legal systems A wide array of international and domestic courts are also considered from the International Court of Justice to the European Court of Human Rights World Trade Organization

Appellate Body US Supreme Court and other adjudicative bodies The result is a three dimensional picture of international law what it was what it is and what it might yet become Israeli Settlements Martin Blecher, 2018-10-15 Most research and analyses of Israel's settlement enterprise has focused on the usage of particular paragraphs in the Geneva Convention For over 50 years Israel has refuted the usage of the Geneva Convention with regards to its settlements Doing so the more relevant question arises on what laws governance and regulations is of importance in understanding Israel's behavior If one accepts the premise that Israel is occupying some areas and as an occupying force is forbidden to change laws from previous sovereign it becomes relevant as to what the laws are and how are they being followed The aim with this book is to go deeper to understand the rationale behind Israeli land policies This book is not necessarily a full rejection of the arguments that have been advocated by different scholars that seek to brand Israel's settlement enterprise as illegal nor is it to be understood as a full acceptance of those arguments at hand Rather I want this book to show nuances in an infective question The idea is to give the reader an insight into the arguments made by Israel and its judiciary which has not been properly addressed nor researched about through earlier scholars By including stories about personalities such as Rabbi Menachem Froman Shabtay Bendet this book aims to fulfill its purpose of not politicizing the Israeli settlement enterprise through one particular understanding
