Russia In War And Revolution:

War and Revolution in Russia, 1914-1917 Basil Gourko, 1919 **Passage Through Armageddon** W. Bruce Lincoln, 1994

Invaded by foreign armies and threatened by the terrors of civil strife Russia's leaders mobilized more than fifteen million fighting men between 1914 and 1918 only to find that at least a quarter of them had no boots rifles or ammunition With field casualties soaring into the millions scourges of starvation and disease joined the enemy's guns to double and treble Russia's human losses Never in modern history had war so devastated a nation Recounting the tale of the Russians passage through the shattering experience of the First World War and the revolutions of 1917 W Bruce Lincoln offers a profoundly intelligent and detailed chronology of the watershed events and devastating hardships that led to the Bolshevik Revolution Mining an abundance of resources including letters diaries memoirs government reports military dispatches and testimony given to the revolution's first Supreme Commission of Inquiry he allows the reader to step directly into army headquarters state council chambers boudoirs trenches and underground revolutionary hideaways of the men and women who shaped the events of this crucial era

Russia in Flames Laura Engelstein, 2017-09-01

October 1917 heralded as the culmination of the Russian Revolution remains a defining moment in world history Even a hundred years after the events that led to the emergence of the world's first self proclaimed socialist state debate continues over whether as historian E H Carr put it decades ago these earth shaking days were a landmark in the emancipation of mankind from past oppression or a crime and a disaster Some things are clear After the implosion of the three hundred year old Romanov dynasty as a result of the First World War Russia was in crisis one interim government replaced another in the vacuum left by imperial collapse In this monumental and sweeping new account Laura Engelstein delves into the seven years of chaos surrounding 1917 the war the revolutionary upheaval and the civil strife it provoked These were years of breakdown and brutal violence on all sides punctuated by the decisive turning points of February and October As Engelstein proves definitively the struggle for power engaged not only civil society and party leaders but the broad masses of the population and every corner of the far reaching empire well beyond Moscow and Petrograd Yet in addition to the bloodshed they unleashed the revolution and civil war revealed democratic yearnings even if ideas of what constituted democracy differed dramatically Into that vacuum left by the Romanov collapse rushed long suppressed hopes and dreams about social justice and equality But any possible experiment in self rule was cut short by the October Revolution Under the banner of true democracy and against all odds the Bolshevik triumph resulted in the ruthless repression of all opposition The Bolsheviks managed to harness the social breakdown caused by the war and institutionalize violence as a method of state building creating a new society and a new form of power Russia in Flames offers a compelling narrative of heroic effort and brutal disappointment revealing that what happened during these seven years was both a landmark in the emancipation of Russia from past oppression and a world shattering disaster As regimes fall and rise as civil wars erupt as state violence targets

civilian populations it is a story that remains profoundly and enduringly relevant

Excerpt from War and Revolution in Russia 1914 1917 IN the midst of profound peace in the active work of economical and social reform Russia as by thunderbolt was struck by the news of approaching mobilisation and by the urgent necessity of having recourse to the sword to protect her interests and those of the other Slav nations To define exactly the position in which the beginning of the war found Russia it is necessary briefly to survey her political condition at the moment The country was still feeling the disturbing effects of the Revolution of 1905 6 The intellectual classes which had now received access to and obtained a share in political life and legislation were engrossed by the struggle with the Government This turmoil centred specially in the Imperial Duma With the opening of military action this internal strife of the parties as in other European countries and the striving for supremacy between the Imperial Duma and the Government died down at first but later became gradually acute again This we observe was the case with all our Allies and in a certain degree with our enemies After three years of war this struggle becoming still more acute brought about a crisis which ended in the Revolution of March 1917 About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
