Russian Miniatures Of The 11th To The 15:

Russian Miniatures of the 11th to the 15th centu O. Попова,1975 *Russian Miniatures of the 11th to the 15th Centuries* O. Popova,1975 **Medieval Russian Fortresses AD 862-1480** Konstantin S Nossov,2012-06-20 According to Russian legend in the year AD 862 the Slav tribes of what is now European Russia invited a number of Scandinavian princes to rule over them However on the death of these princes Prince Oleg seized Kiev and united the Northern and Southern Russian territories building extensive fortifications to protect its borders The rise of feudalism in the 11th century lead to the development of individual fortified sites and the extended border defenses fell into disrepair Consequently Mongol hordes poured over the border introducing the siege warfare techniques of the East heavily influencing the fortification styles thereafter Using a wealth of archeological evidence and first hand sources Konstantin Nossov charts the history of the medieval Russian fortress from its early beginnings until the 14th century paying special attention to the development of one of the most iconic fortifications in the world the Kremlin *National Union Catalog* ,1978 Includes entries for maps and atlases *Subject Catalog* Library of Congress, *The British Library General Catalogue of Printed Books 1976 to 1982* British Library,1983 *Bibliographic Guide to Art and Architecture* New York Public Library. Art and Architecture Division,1975 *The Inner Cohesion Between the Bible and the Fathers in Byzantine Tradition* Stefan Mattheus Royé,2007 Throughout the rich history of Bible research and patrology a palet of different traditions has always existed One of these which is based on an abundant manuscript tradition of biblical and patristic interpretation is the tradition of the Eastern Orthodox Church In this book a liturgico codicological approach to the Byzantine biblical and patristic manuscripts is set out This approach offers a key to understanding the position of the biblical and patristic writings in the Eastern Orthodox Churches It stems from what is termed a liturgical hypothesis and implies the necessity of a thorough reclassification of the extant manuscripts Characteristic of the Orthodox approach are the anchoring of the biblical writings in the liturgy of the Church and the close connection between the Scriptures and the interpretative framework of the fathers Special attention is paid to setting out a path of codicological research that could redirect study of the Byzantine codices to a system that allows for a more inclusive picture of the original biotope in which the manuscripts were created and evolved Once inside this biotope the reasons for and choices behind the content and codex formation of the biblical and patristic manuscripts become apparent **Library of Congress Catalogs** Library of Congress,1979 **Bibliographic Guide to Soviet and East European Studies** ,1978 Актуальные проблемы теории и истории искусства. Выпуск 7 Сборник статей,2018-09-03 7 11 15 2016 The collection of articles is the publication of the materials of the 7th International Conference Actual Problems of Theory and History of Art held in St Petersburg on October 11 15 2016 The articles in Russian and in English present the results of research in the art of the Ancient World Byzantium Old Rus Western Europe of the Middle Ages and Renaissance theory of art oriental art cult and artistic culture as well as publication and study of sources and reviews The edition is

addressed to art historians historians art students and art lovers **The Sources of Russian History** ,1963 **British Foreign Policy in the Second World War** Ernest Llewellyn Woodward,1970 Alle 5 bind indeholder desuden englands udenrigspolitiske forbindelser til USA under 2 Verdenskrig *Les miniatures russes du 11e au 15e siècle* Ol'ga Sigismundovna Popova,1975 **The Army Quarterly** ,1924 **The Literary Travelogue** R.K. Wilson,2012-12-06 The aim of this study is to trace the development of the literary travel memoir in Russia during the last decades of the eighteenth century and the first decades of the nineteenth Having indicated the provenances of this genre in Western Europe I shall evaluate its role in Russian literary history Because this study is not intended to be an historical survey of all significant travel works that appeared in Russia I shall pass over such early pioneer travelers as the Abbot Daniil who visited Palestine at the beginning of the twelfth century and recorded for his countrymen detailed descriptions of the Holy places or the merchant Afanasij Nikitin whose travel notes concerning a trip to India are preserved in a fifteenth century chronicle The travel genre which had become enormously popular in eighteenth century Western Europe was cleverly exploited by Fonvizin Radishchev and Karamzin to expound to the Russian reading public certain important notions on literary theory on society foreign and domestic on themselves and on nature The travel genre then as now a flexible instrument for transmitting by means of diary style narrative information about distant often exotic people and place had been adapted by Sterne and others to themes having little relation to a conventional journey The Russians were quick to grasp the genre's literary as well as its polemical possibilities and influenced by Western models they too used it to convey theoretical assertions on a variety of subjects The Counts Bobrinskoy, a Genealogy David Geoffrey Williamson,1962 Fine Arts Education in the Soviet Union United States. Office of Education,Mayo Bryce,1963 Report covering the program of the U S Office of Education Mission in Arts Education to the Soviet Union **Arms and Armour in Byzantine Art** ,2025-10-30 This volume examines the iconography of military equipment in the art of the Orthodox milieu in the Middle Ages The authors address various problems such as the veracity of representations of military equipment the issue of presence of archaisms in the artwork and the meaning and symbolism of armour in the Byzantine world Taken together these studies offer valuable insights for archaeologists and art historians concerned with the legacy of the medieval world and for scholars interested in the history of military equipment Contributors are Andrea Babuin Timothy G Dawson Dejan Gjorgjievski Piotr Grotowski Marka Tomi and Mamuka Tsurtsumia Russian Library Treasures Tatiana Kostaki,Christopher J.
