The Warrior Prophet: Muhammad ﷺ and War Joel Hayward, 2023-01-02 Given the Prophet Muhammad's immense impact on history surprisingly few books specifically analyze his understanding and employment of warfare as an economically politically and socially transformational process even though he was continuously at war for a decade and initiated around eighty armed missions twenty seven of which he led himself Most Islamic biographies deal with this issue by using an understandable but insufficient logic that because Muhammad as the Messenger of Allah was the ideal and paradigmatic human he must have been an ideal and paradigmatic military commander His successes flowed from his prophetic status and his moral perfection Following this logic and wanting Muhammad's behavior to conform to very modern ethical concepts and widespread but not necessarily accurate beliefs about the nature and conduct of war the writers have inadvertently created a narrative which in significant ways departs from the account clearly and consistently revealed in the earliest extant Arabic sources The writers narrative also removes the Prophet from his historical and cultural context and the realities of the harsh and competitive tribal society in which he lived Professor Joel Hayward sees this as an unhelpful explanatory tendency and believes that the modern depiction of the Prophet's relationship with warfare which presents him as being rather antipathetic to war indeed as virtually a pacifist who only fought reluctantly in self defense cannot actually be sustained by an even handed analysis of the early Islamic sources A committed Muslim himself Hayward agrees that Muhammad was a moral and decent man who saw peace as a highly desirable state in which humans should live and as a goal worth pursuing Yet Hayward has approached the Prophet's understanding and employment of warfare from a different vantage point He has painstakingly scrutinized the earliest Arabic sources impartially according to the strict standards of historical inquiry in order to ascertain whether Muhammad's actions habits and methods can when understood within their original seventh century stateless Arabian context provide any substantial and meaningful insights into the way that he understood and undertook warfare Hayward concludes that Muhammad was an astute situationally aware and self reflective man who created and communicated a believable strategic vision of a necessary and desirable future That vision persuaded increasing numbers of people to follow him and risk everything willingly in the struggle to create the optimal conditions for their survival security and prosperity In a competitive and conflictual environment with ubiquitous threats warfare was necessary to make real the bold new world that he foresaw Through original meticulously researched and rigorous analysis Hayward covers all the raids and campaigns and demonstrates that Muhammad correctly understood the necessity and utility of force

and duly developed into an intuitive effective and victorious military practitioner who developed and enforced a strict moral code so as to attain his goals whilst safeguarding the innocent This engaging accessible yet deeply scholarly book makes a major contribution to strategic and military analysis and to the Prophet s biography *The Pasha's Bedouin* Reuven Aharoni,2007-03-12 Providing a new perspective on tribal life in Egypt under Mehmet Ali s rule this book looks at the social and conceptual aspects of the Bedouin tribes during this period **Nomadic Societies in the Middle East and North**

Africa Dawn Chatty,2018-11-12 A scholarly volume devoted to an understanding of contemporary nomadic and pastoral societies in the Middle East and North Africa This volume recognizes the variable mobile quality of the ways of life of these societies which persist in accommodating the nation state of the 20th and 21st century but remain firmly transnational and highly adaptive Composed of four sections around the theme of contestation it includes examinations of contested authority and power space and social transformation development and economic transformation and cultures and engendered spaces

Blood Revenge Joseph Ginat,2013-09-01 Covers blood homicide and outcasting in Bedouin and rural Arab society in Israel This edition includes material on the Mebasha a Bedouin legal judge who determines whether an individual speaks the truth by an ordeal by fire licking a very hot spoon and inspecting the tongue for blisters **Serendipity in Anthropological**

Research Haim Hazan,2016-04-15 Challenging the idea that fieldwork is the only way to gather data and that standard methods are the sole route to fruitful analysis Serendipity in Anthropological Research explores the role of fortune and happenstance in anthropology It conceives of anthropological research as a lifelong nomadic journey of discovery in which the world yields an infinite number of unexplored issues and innumerable ways of studying them each study producing its own questions and demanding its own methodologies Drawing together the latest research from a team of senior scholars from around the world to reflect on the experience of research Serendipity in Anthropological Research presents rich new case studies from Europe and the Middle East to examine both new and old questions in novel and enriching ways An engaging examination of methodology and anthropological fieldwork this book will appeal to all those concerned with writing ethnography *Nomad-State Relationships in International Relations* Jamie Levin,2020-04-06 This book explores non state actors that are or have been migratory crossing borders as a matter of practice and identity Where non state actors have received considerable attention amongst political scientists in recent years those that predate the state nomads have not States however tend to take nomads quite seriously both as a material and ideational threat Through this volume the authors rectify this by introducing nomads as a distinct topic of study It examines why states treat nomads as a threat and it looks particularly at how nomads push back against state intrusions Ultimately this exciting volume introduces a new topic of study to IR theory and politics presenting a detailed study of nomads as non state actors **A History of the Arab Peoples** Albert

Habib Hourani,Albert Hourani,2002 Chronicles the history of Arab civilization looking at the beauty of the great mosques the importance attached to education the achievements of Arab science the role of women internal conflicts and the Palestinian

question Sustainable Development Paul Sillitoe, 2014-08-01 With growing evidence of unsustainable use of the world's resources such as hydrocarbon reserves and related environmental pollution as in alarming climate change predictions sustainable development is arguably the prominent issue of the 21st century This volume gives a wide ranging introduction focusing on the arid Gulf region where the challenges of sustainable development are starkly evident The Gulf relies on non renewable oil and gas exports to supply the world's insatiable CO2 emitting energy demands and has built unsustainable conurbations with water supplies dependent on energy hungry desalination plants and deep aquifers pumped beyond natural replenishment rates Sustainable Development has an interdisciplinary focus bringing together university faculty and government personnel from the Gulf Europe and North America including social and natural scientists environmentalists and economists architects and planners to discuss topics such as sustainable natural resource use and urbanization industrial and technological development economy and politics history and geography *New Arabian Studies Volume 2* P. Homan, 2002-07-01 *To Your Tents O Israel* examines the function form and symbolism of ancient tents specifically in the Hebrew Bible but also in the greater context of the Ancient Near East Terminology associated with tents and the blending of terms for domiciles are initially explored Then using historical mythological archaeological and anthropological insights tents are examined in their manifold usage domiciliary military nuptial and religious Various parallels and models of the Tabernacle will be assessed and the Tabernacle's historicity

will be examined The book ends by analyzing a biblical phrase that dismisses councils To your tents O Israel **Al-Sabah** Alan Rush, Alan de Lacy Rush, 1987 **Marriage in the Tribe of Muhammad** Majied Robinson, 2020-01-20 This study examines the marital data preserved within the Arabic genealogical works of the early ninth century CE in order to better understand the tribal relationships of the pre Islamic Quraysh the Arabic tribe to which Muhammad belonged The research establishes the accuracy of the Nasab Quraysh Genealogy of the Quraysh and informs a more nuanced analysis of the politics of the Central Hijaz into which Islam was born **Let Shepherding Endure** Gideon M. Kressel, 2012-02-01 Examining the crucial problems confronting present day livestock breeders principally Bedouin and Jews in Israel but also pastoral nomads in neighboring Middle Eastern countries Let Shepherding Endure proposes new ways for these governments to enhance and sustain the long term future development of shepherding communities Adopting a broad historical and anthropological perspective on the topic and assessing various pastoral relief programs Kressel proposes an alternative program whereby the region s states would promote a brand of pastoralism that preserves rangeland herding while keeping in step with the contemporary cultural and political context This truly visionary set of recommendations would have several dividends especially for the Bedouin their cultural legacy in danger of obsolescence would be preserved while at the same time enhancing both their pastoral skills and ability to secure a livelihood from herding **Ascendancy Through Aggression** Gideon M. Kressel, 1996 **Islamic Political Movements and Authority in the Arab World The Rise and Fall** Prof. Jamal Sanad Al-Suwaidi, 2014 Islamic Political Movements and Power in the Arab World The Rise and Fall represents a comprehensive study of contemporary Islamic political movements and their prospects Undertaken by the Emirates Center for Strategic Studies and Research and employing a scholarly methodological approach it addresses the prominent transformations that have occurred within certain Islamic political organizations as a result of what the media have dubbed the Arab Spring namely those Islamic parties and movements which came to power in Egypt Tunisia and Morocco In addition new Islamic parties and organizations have emerged thus re shaping the political environments of several Arab countries This volume provides an examination of the political rise of Islamists in the wake of the so called Arab Spring and deconstructs the experience of Islamic political parties and movements in government It discusses the negative effects and implications of Islamists efforts to inject religion into the practice of politics and to politicize religion which have led to increased religious and political polarization in a number of Arab countries and undermined efforts to build the national consensus needed to achieve peace economic development social justice and democratic transformation The authors of the papers presented herein raise pertinent questions concerning the future of Islamic political movements in the Arab World particularly in light of certain movements negative experiences of governance the internal developments being witnessed in various Arab countries and the regional and international transformations affecting the Arab world as a whole
