Griffith,2012-01-09 Amid so much twenty first century talk of a Christian Muslim divide and the attendant controversy in some Western countries over policies toward minority Muslim communities a historical fact has gone unnoticed for more than four hundred years beginning in the mid seventh century some 50 percent of the world s Christians lived and worshipped under Muslim rule Just who were the Christians in the Arabic speaking milieu of Mohammed and the Qur an The Church in the Shadow of the Mosque is the first book length discussion in English of the cultural and intellectual life of such Christians indigenous to the Islamic world Sidney Griffith offers an engaging overview of their initial reactions to the religious challenges they faced the development of a new mode of presenting Christian doctrine as liturgical texts in their own languages gave way to Arabic the Christian role in the philosophical life of early Baghdad and the maturing of distinctive Oriental Christian denominations in this context Offering a fuller understanding of the rise of Islam in its early years from the perspective of contemporary non Muslims this book reminds us that there is much to learn from the works of people who seriously engaged Muslims in their own world so long ago Some images inside the book are unavailable due to digital copyright restrictions **Reader's Guide to Judaism** Michael Terry,2013-12-02 The Reader s Guide to Judaism is a survey of English language translations of the most important primary texts in the Jewish tradition The field is assessed in some 470 essays discussing individuals Martin Buber Gluckel of Hameln literature Genesis Ladino Literature thought and beliefs Holiness Bioethics practice Dietary Laws Passover history Venice Baghdadi Jews of India and arts and material culture Synagogue Architecture Costume The emphasis is on Judaism rather than on Jewish studies more broadly The Emergence of Semantics in Four Linguistic Traditions Wout Jac. van Bekkum,Jan Houben,Ineke Sluiter,Kees Versteegh,1997-04-03 The aim of this study is a comparative analysis of the role of semantics in the linguistic theory of four grammatical traditions Sanskrit Hebrew Greek Arabic If one compares the organization of linguistic theory in various grammatical traditions it soon turns out that there are marked differences in the way they define the place of semantics within the theory In some traditions semantics is formally excluded from linguistic theory and linguists do not express any opinion as to the relationship between syntactic and semantic analysis In other traditions the whole basis of linguistic theory is semantically orientated and syntactic features are always analysed as correlates of a semantic structure However even in those traditions in which semantics falls explicitly or implicitly outside the scope of linguistics there may be factors forcing linguists to occupy themselves with the semantic dimension of language One important factor seems to be the presence of a corpus of revealed sacred texts the necessity to formulate hermeneutic rules for the interpretation of this corpus brings semantics in through the back door *A Historical-Critical Study of the Book of Zephaniah* Ehud Ben Zvi,2012-10-25 The
