Sacred Interconnections Postmodern Spirituality Political Economy And Art Suny Series In Constructive Postmodern Thought:

Sacred Interconnections David Ray Griffin,1990-01-01 This book shows the interconnections between postmodernism religion politics economics and art It shows that the awareness of interconnectedness is at the center of the postmodern sensibility Sacred Interconnections illustrates the rejection of the modern idea that these subjects can be discussed as separate disciplines While the term postmodern has been widely used for deconstructive cynical even nihilistic attitude especially in the world of art and literature the book represents the emergence of a reconstructive reenchanting postmodernism even within the artistic and literary circles Postmodernism and Public Policy John B. Cobb,2002-01-01

Develops a naturalistic postmodern perspective to make constructive proposals about a wide range of topics now in public discussion **Founders of Constructive Postmodern Philosophy** David Ray Griffin,John B. Cobb,Marcus P. Ford,Pete A.

Y. Gunter,Peter Ochs,1993-01-01 In presenting Peirce James Bergson Whitehead and Hartshorne as members of a common and distinctively postmodern trajectory this book casts the thought of each of them in a new light It also suggests a new direction for the philosophical community as a whole now that the various forms of modern philosophy and even the deconstructive form of postmodern philosophy are widely perceived to be dead ends This new option offers the possibility that philosophy may recover its role as critic and guide within the more general culture a recovery that is desperately needed in these perilous times **Transforming Human Culture** Jay Earley,1997-06-30 Explains how human social evolution has

led both to worthwhile achievements and moral horrors and provides perspective on today s planetary crisis by viewing it as a transition within the larger picture of social evolution **A Society Fit for Human Beings** Elie Maynard

Adams,1997-10-31 Argues for a humanistic cultural reformation to counter our materialistic values and science dominated intellectual life and shows how this would affect our lives and transform our society A Society Fit for Human Beings contends that there is a profound incoherence in the foundations of modern Western civilization and that we are on a self destructive course With the quest for wealth and power our dominant concern we find ourselves with a flourishing economy and a supreme military force based on science and technology but with our moral civic and religious culture undermined by our way of comprehending the world Our human identity is problematic the wells of meaning that nourish the human spirit are polluted or drying up and the social order is in disarray This situation E M Adams argues requires nothing less than a historic cultural revolution based on a shift in priorities from wealth and power to humanistic values those grounded in selfhood and lived experience that are essential for human growth meaningful lives and a healthy society Such a shift in our governing values would require a restructuring of our intellectual vision of humankind and the world in terms of humanistic categories This book shows the import of such a humanistic cultural revolution for our human identity morality the social order and our major institutions including the family and community education the economy the government the military and religion It

outlines how we can work toward such a cultural revolution and develop a constructive postmodern civilization with a society fit for human beings *Being and Value* Frederick Ferre,Frederick Ferré,1996-01-01 Being and Value begins with a discussion on metaphysics showing the vital relationship between human life and the philosophical placement of value and emphasizing the current transition from the old mechanical worldview to the postmodern alternative inspired by ecology Being and Value shows how intimately premodern philosophy bound value into the fabric of things and analyzes the expulsion of value from factual being during the modern period Special attention is given to beauty What is the relationship between the subjective and objective conditions of beauty Is the beauty of nature merely the product of human appreciation The answer is that beauty and value is a more potent ingredient in the structure of things than modern reductionism allows

Postmodern Politics for a Planet in Crisis David Ray Griffin,Richard A. Falk,1993-01-01 This book argues that the planetary crisis which has been produced by modernity demands a postmodern politics especially in the United States the chief embodiment and exporter of modernity What is needed is an America that promotes a new world order that is genuinely new one based on a concern for the human race as a whole and on a sustainable relationship between the human species and the rest of the biosphere John B Cobb Jr Richard Falk David Ray Griffin Wes Jackson Frank Kelly Frances Moore Lapp Joanna Macy Douglas Sloan Jim Wallis and Roger Wilkins write about various dimensions of this postmodern politics including its educational aims morality time consciousness and ecological sensibility its agricultural and other environmental policies its truly democratic process and a postmodern presidency This book provides the most complete prescription yet for the kind of presidential leadership we need and the kind of transformation in the body politic necessary to evoke and complement such leadership *Earth Summit Ethics* J. Baird Callicott,Fernando J. R. da Rocha,1996-08-23 An international group of

environmental philosophers and educators propose ways universities can produce and promote ecological literacy and environmental ethics **Religion and Scientific Naturalism** David Ray Griffin,2000-05-18 Articulates a metaphysical position capable of rendering both science and religious experience simultaneously and mutually intelligible *Planting the Anthropocene* Jennifer Clary-Lemon,2019-03-15 Planting the Anthropocene is a rhetorical look into the world of industrial tree planting in Canada that engages the themes of nature culture and environmental change Bringing together the work of material ecocriticism and critical affect studies in service of a new materialist environmental rhetoric Planting the Anthropocene forwards a frame that can be used to work through complex scenes of anthropogenic labor Using the results of interviews with seasonal Canadian tree planters Jennifer Clary Lemon interrogates the complex and messy imbrication of nature culture through the inadequate terminology used to describe the actual circumstances of the planters work and lives and offers alternative ways to conceptualize them Although silvicultural workers do engage with the limiting rhetoric of efficiency and humanism they also make rhetorical choices that break down the nature culture divide and orient them on a continuum that blurs the boundaries between the given and the constructed the human and nonhuman Tree planting work is

approached as a site of a deep seated materiality a continued re creation of the land s disturbance rather than a simplistic form of doing good that further separates humans from landscapes Jennifer Clary Lemon s view of nature and the Anthropocene through the lens of material rhetorical studies is thoroughly original and will be of great interest to students and scholars of rhetoric and composition especially those focused on the environment
