Sade And The Narrative Of Transgression:

Sade and the Narrative of Transgression David B. Allison, 1995-03-30 A major collection of critical essays on the work of the Marquis de Sade first published in 1995

The Erotics of Grief Megan Moore, 2021-09-15 The Erotics of Grief considers how emotions propagate power by exploring whose lives are grieved and what kinds of grief are valuable within and eroticized by medieval narratives Megan Moore argues that grief is not only routinely eroticized in medieval literature but that it is a foundational emotion of medieval elite culture Focusing on the concept of grief as desire Moore builds on the history of the emotions and Georges Bataille's theory of the erotic as the conflict between desire and death one that perversely builds a sense of community organized around a desire for death The link between desire and death serves as an affirmation of living communities Moore incorporates literary visual and codicological evidence in sources from across the Mediterranean from Old French chansons de geste such as the Song of Roland and La mort le roi Artu and romances such as Erec et Enide Philomena and Floire et Blancheflor to Byzantine and ancient Greek novels to Middle English travel narratives such as Mandeville's Travels In her reading of the performance of grief as one of community and remembrance Moore assesses why some lives are imagined as mattering more than others and explores how a language of grief becomes a common language of status among the medieval Mediterranean elite

Sade's Sensibilities Kate Parker, Norbert Sclippa, 2014-11-20 Sade's Sensibilities tells a new story of one of the most enduring and controversial figures in European literature Blending ideas about subjectivity identity and natural philosophy with politics and pornography D A F de Sade has fascinated writers and readers for two hundred years and his materialist account of the human condition has been widely influential in post structuralism nihilism and feminism This new collection of essays considers Sade's Enlightenment legacy both within and beyond the narratives of radicalism and aberration that have historically marked the study of his oeuvre From different points of view these essays argue that Sade engaged with and influenced traditional Enlightenment paradigms particularly those related to sensibility subjectivity and philosophy as much as he resisted them They thus recover a Sade more relevant even foundational to our twenty first century understanding of modernity selfhood and community In Sade's Sensibilities Sade is no longer a solitary peripheral radical but an Enlightenment philosopher in his own right

Le Gothic Avril Horner, 2015-12-17 This new collection of essays by major scholars in the field looks at the ways in which cross fertilization has taken place in Gothic writing from France Germany Britain and America over the last 200 years and argues that Gothic writing reflects international exchanges in theme and form

Die Wende Von Der Aufklärung Zur Romantik 1760-1820 Horst Albert Glaser, György Mihály Vajda, 2000 This volume is the twelfth to date in a series of works in French or English presenting the epochs and movements of a Comparative History of Literatures in European Languages Histoire Compar e des Litt ratures de Langues Europ ennes The original intention of the editors was to publish a four volume history of European literature from 1760 1820 and the first of these volumes Des Lumi res au Romantisme Genres en Vers appeared

as long ago as 1982 The volumes *Genres en Prose* and *Th tre* are still awaited In their absence the present volume *Epoche im _berblick* attempts a more comprehensive and rigorous treatment of the period and its historiographical problems than was initially planned providing the reader with an overview of sixty eventful years of European literary history years in which German Classicism coincided with the birth initially in Germany and England of Romanticism And at the centre of this turbulent period of European intellectual and literary history stands the French Revolution

The Horrid Looking Glass: Reflections on Monstrosity ,2020-09-25 From the fictional world of vampires zombies and invaders from other worlds to the very real world of revolutionary France and in between the nature of the monster encompasses the very quality that makes them so believable that which we perceive as other While there is a commonality in this otherness the monster lurking in the shadows concealed in darkness or conjured with a few lines from a horror novel suggests the monster as one onto which we are free to project the most distorted and un human features In each chapter of this volume you will discover that the way in which we project what is monstrous is not a singular other but is in fact a part of our own self identity The greatest horror of the monster is not that it stands apart but that once we pull it from the shadow of our own projected imagination we discover that that the monster we fear is also bound to our own mirror image To look at the monster to name that which must never be named is to look upon a reflection and embrace a part of our nature we do not wish to see

The Other Rise of the Novel in Eighteenth-Century French Fiction Olivier Delers,2015-09-01 The rise of the novel paradigm and the underlying homology between the rise of a bourgeois middle class and the coming of age of a new literary genre continues to influence the way we analyze economic discourse in the eighteenth century French novel Characters are often seen as portraying bourgeois values even when historiographical evidence points to the virtual absence of a self conscious and coherent bourgeoisie in France in the early modern period Likewise the fact that the nobility was a dynamic and diverse group whose members had learned to think in individualistic and meritocratic terms as a result of courtly politics is often ignored The Other Rise of the Novel calls for a radical revision of how realism the language of self interest and commercial exchanges and idealized noble values interact in the early modern novel It focuses on two novels from the seventeenth century Fureti re s *Roman bourgeois* and Lafayette s *Princesse de Cl ves* and four novels from the eighteenth century Pr vost s *Manon Lescaut* Graffigny s *Lettres d une P ruvienne* Rousseau s *La Nouvelle H lo se* and Sade s *Les infortunes de la vertu* It argues that eighteenth century French fiction does not reflect material culture mimetically and that character action is best analyzed by focusing on the social and discursive exchanges staged by the text rather than by trying to create parallels between specific behavior and actual historical changes The novel produces its own reality by transforming characters and their stories into alternative social models different articulations of how individuals should define their economic relations to others The representation of interpersonal relations often highlights personal conceptions of private interest that cannot be easily reconciled with the traditional narrative of a transition towards economic modernity Realism then is not only about

verisimilar storytelling and psychological depth it is an epistemological questioning about the type of access to reality that a particular genre can give its readers *Bodily Pain in Romantic Literature* Jeremy Davies, 2014-03-14 Shortlisted for the University English Early Career Book Prize 2016 Shortlisted for the British Association for Romantic Studies First Book Prize 2015 When writers of the late eighteenth and early nineteenth centuries explored the implications of organic and emotional sensitivity the pain of the body gave rise to unsettling but irresistible questions Urged on by some of their most deeply felt preoccupations and in the case of figures like Coleridge and P B Shelley by their own experiences of chronic pain many writers found themselves drawn to the imaginative scrutiny of bodies in extremis *Bodily Pain in Romantic Literature* reveals the significance of physical hurt for the poetry philosophy and medicine of the Romantic period This study looks back to eighteenth century medical controversies that made pain central to discussions about the nature of life and forward to the birth of surgical anaesthesia in 1846 It examines why Jeremy Bentham wrote in defence of torture and how pain sparked the imagination of thinkers from Adam Smith to the Marquis de Sade Jeremy Davies brings to bear on Romantic studies the fascinating recent work in the medical humanities that offers a fresh understanding of bodily hurt and shows how pain could prompt new ways of thinking about politics ethics and identity **Seducing the Eighteenth-century French Reader** Paul J. Young, 2008 Considering canonical and lesser known works by authors that include Rousseau Sade Bastide Laclos Crillon and the writers of two widely read libertine novels Paul Young suggests that narratives of seduction function as a master plot for eighteenth century French literature How authors reacted to a cultural discourse that coded literature and solitary reading as dangerous seductive practices sheds light on the history of authorship especially the development of the novel

The Queer God Marcella Althaus-Reid, 2004-06-01 There are those who go to gay bars and salsa clubs with rosaries in their pockets and who make camp chapels of their living rooms Others enter churches with love letters hidden in their bags because their need for God and their need for love refuse to fit into different compartments But what goodness and righteousness can prevail if you are in love with someone whom you are ecclesiastically not supposed to love Where is God in a salsa bar The Queer God introduces a new theology from the margins of sexual deviance and economic exclusion Its chapters on Bisexual Theology Sadean holiness gay worship in Brazil and Queer sainthood mark the search for a different face of God the Queer God who challenges the oppressive powers of heterosexual orthodoxy whiteness and global capitalism Inspired by the transgressive spaces of Latin American spirituality where the experiences of slum children merge with Queer interpretations of grace and holiness The Queer God seeks to liberate God from the closet of traditional Christian thought and to embrace God's part in the lives of gays lesbians and the poor Only a theology that dares to be radical can show us the presence of God in our times The Queer God creates a concept of holiness that overcomes sexual and colonial prejudices and shows how Queer Theology is ultimately the search for God's own deliverance Using Liberation Theology and Queer Theory it exposes the sexual roots that underlie all theology and takes the search for God to new depths of social and sexual exclusion
